ELKO FALL ALTERNATE SCHEDULE

1986

NORTHERN NEVADA COMMUNITY COLLEGE

THE CONTENTS OF THIS SCHEDULE ARE SUBJECT TO CHANGE--ESPECIALLY THE DAYS, TIMES AND LOCATIONS FOR COURSES. YOU WILL, NEED TO FINALIZE YOUR SCHEDULE WHEN THE OFFICAL SCHEDULE IS PRINTED.

REGISTRATION DATES: Thursday, October 9 and Friday, October 10, 1986.

TIMES: 8:00 A.M. - 8:00 P.M. Thursday
8:00 A.M. - 5:00 P.M. Friday

PLACE: Student Services Office - 901 Elm Street

CLASSES START: Week of October 13 unless otherwise stated.

FEES: \$20.00 per credit hour unless otherwise stated
\$5.00 application fee for new students.
Students must pay for textbooks at time of purchase.

REFUNDS: 100% if initiated prior to the second class session.
50% if initiated during the first 20% of instruction.
Community Service class refund shall be: 100% if dropped by
the first school day after the first class session. No refunds
for one day sessions.

SENIOR CITIZENS: No registration fee for persons 62 or older except in Community Service
Classes.

HANDICAPPED ASSISTANCE: If you are disabled or handicapped, you can obtain enrollment assistance
by calling Student Services, 738-8493, prior to advisement or registration.

Northern Nevada Community College does not discriminate on the basis of race, religion, national origin, sex, marital
status, status with regard to public assistance or disability, in admissions, employment, or in the operation of its
educational programs.

REGISTRATION

RECORD-BREAKING ENROLLMENT EXPECTED EI 8/27/88

NNCC Registration Today, Tomorrow

by COTY RAPOSA FLOYD

Northern Nevada Community College's Elko campus and ten off-campus centers are busily completing last minute details in anticipation of another record-breaking enrollment year.

Wednesday, Aug. 27, and Thursday, Aug. 28, are registration dates for the fall semester, according to Dr. Charles Greenhaw, Dean of Instruction. Updated programs in agriculture and mining technology, and an outstanding offering in the arts and sciences are expected to attract even more students to the college system, which last year served 2,000 students each semester.

That's a four-fold increase from the college's humble beginnings in 1967. The state's first community college has well-proved the founders' predictions that college in Elko would serve the needs of many.

Like any growth-oriented facility, fine-tuning of courses to meet the changes of society is done yearly. This year's biggest change at NNCC is in the Agriculture Department, or rather, under its new name, the Agriculture/Natural Resources Department, under the supervision of Louis Horton.

Agriculture/Natural Resources Program

Gone are the days of trudging through snowdrifts to feed the livestock at the college farm. Today's emphasis, as working ranchers and farmers can attest, is on the business side. Agribusiness and resource management are the buzz words of the 80's ag major.

A one-week agribusiness tour is one of the new season highlights and is planned to allow students a first-hand look at aspects of industry they may not have had an opportunity to see before.

The excursion, Oct. 11-18, will include tours of agribusinesses in Napa Valley, Stockton, Merced, Gilroy and Castroville. The tour will conclude with a visit to San Francisco's wholesale market, wholesale nursery, and the Grand National Livestock Show.

The on-campus program is being infused with new life with valuable hands-on experience and internships. A one-year Animal Medical Technology certificate is also being offered, combining classroom and laboratory experience at veterinary clinics and the Nevada Department of Agriculture Animal Disease Control Center. Enrollment for this certificate program is limited, and interested persons are urged to enroll early.

To encourage agriculture/

natural resources enrollments, a special orientation program/picnic will be held Thursday, Aug. 28, at 6:30 on the college lawn, followed by dancing at 8:30 for all NNCC students and faculty.

Team Teaching in World Literature

The English department this fall is offering a stellar World Literature class featuring a six-member team teaching crew which reads like a veritable Who's Who on the Campus Staff. According to Genie Goicoechea, core teacher of the class, the team teaching effort will cover all aspects of world literature from Biblical times to the Renaissance (continuing to the 20th century next semester). Dr. Charles Greenhaw, Dr. Paul Shelly Hanna, Sharron Racine, John Pryor, Margaret (Peggy) Crawford and Goicoechea will all provide class input, drawing from their areas of expertise.

New Mining Technology

The Mining Technology course, formerly Geotech, will this year offer a two-year course of study leading to an Associate of Applied Science degree.

Students will be able to select one of three areas of specialization — geotechnical, metallurgical and engineering. Mining department head Mike McFarlane says this course of study reflects the industry's needs, and will better prepare his students for employment, or further education in the field.

Advisement and time to meet with advisors is available now through Aug. 27. Registration on Aug. 27 and 28 begins at 8:30 a.m. and ends at 8 p.m. College catalogs and fall schedules are available at the Student Services office and the Learning Resources Center at 901 Elm St. For more information phone 738-8493.

Community college slates registration next week 8-23-86

Northern Nevada Community College's Elko campus and ten off-campus centers are busily completing last minute details in anticipation of yet another record-breaking enrollment year.

Wednesday and Thursday are registration dates for the fall semester. According to Dr. Charles Greenhaw, Dean of Instruction, updated programs in agriculture and mining technology, and an outstanding offering in the arts and sciences are expected to attract even more students to the college system, which last year served 2,000 students each semester. And that's a four-fold increase from the college's humble beginnings in 1967. The State's first community college has well-proved the founders' predictions that college in Elko would serve the needs of many.

Alternate registration set Oct. 9-10 at NNCC

Fall alternate registration at Northern Nevada Community College is scheduled for Oct. 9 and 10.

The variety of subjects for the one-day seminars and weekly classes is eclectic, with something for everyone.

One of the perennial favorites being offered as a weekly class is Handwriting Analysis, taught by syndicated columnist and Elko resident Dorothy Jackson.

The two-credit class will meet Thursdays from 7 to 9 p.m.

Mrs. Jackson is a well-known graphologist (handwriting expert) who pens a column for the Copley News Service entitled "Your Handwriting Tells". The column is carried

in more than 300 newspapers in the United States, Canada and other countries abroad.

The instructor is a member of the International Graphoanalysis Society, with an invitation-only membership. She has been a member for 25 years. She is also an International Staff Instructor for the Annual World Institute of Graphoanalysis.

Students in the class will study handwriting for the purpose of character analysis. Jackson works with businesses nationwide, analyzing handwriting for job placement purposes.

Materials needed for the course can be purchased from the instructor. — by Coty Reposa-Floyd

Students in the class will study handwriting for the purpose of character analysis. Mrs. Jackson works with businesses nationwide, analyzing handwriting for job placement purposes.

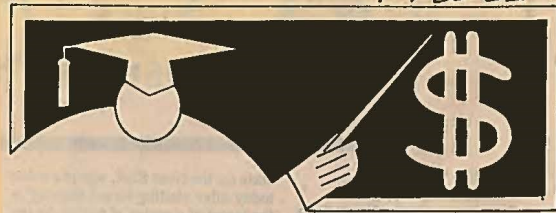

Materials needed for the course can be purchased from the instructor.

Another fall alternate course being offered is a one-day, non-credit course of special interest to athletes, coaches, runners, and team managers. The class, which will be held Saturday, Oct. 11, from 9 a.m. to 3 p.m. is entitled "Sports Massage" and will be taught by Jim Smith, a registered massage therapist from Reno. According to Smith, sports massage can help prevent injuries when used before a workout or competition.

Other course offerings provided through the continuing Education Department include: Basic ground school for pilots, grant development, computer art, financial planning lending and mortgage refinancing, and electronics.

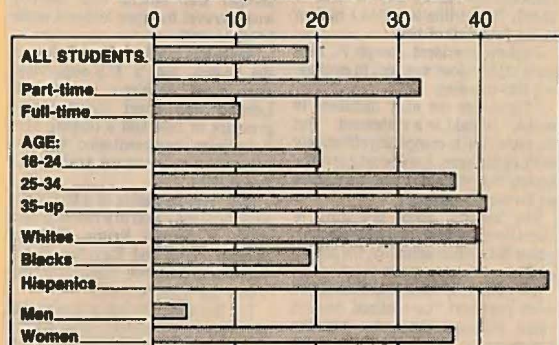

Registration will be conducted at Student Services in Lundberg Hall. For more information on fall alternate classes, phone Pat Warren, Continuing Education Director, at 738-8493, ext. 231.

Registration For Spring Semester Scheduled at Community College

by COTY RAPOSA-FLOYD

Registration for spring semester classes at Northern Nevada Community College will be held Monday and Tuesday, Jan. 12 and 13, from 8 a.m. to 8 p.m. daily.

The variety of courses available continues to grow, with the course roster this semester double the offering in 1981. NNCC students may choose to pursue ten professional pre-majors through its Associate of Arts degree, nine pre-professional programs through the new Associate in Science degree, and ten occupational majors through the Associate of Applied Science degree.

Copies of the 1987 spring semester course roster are available at the Student Services Office in Lundberg Hall on the NNCC campus at 901 Elm. Within are literally hundreds of offerings which lead to two-year degrees, one year certificates, or simply informative gleaning (with college credit) through afternoon or evening seminars.

Interested persons are urged to sign up for classes as early as possible. One class expected to fill early is the History of Russia course taught by distinguished professor Paul Shelley Hanna, who will conclude his illustrious career this semester.

Computer and word processing courses are other subjects which traditionally fill quickly, as do nursing classes. Of special interest in the Nursing Department is the Nursing Assistants class, which was very successful last semester.

NNCC's Technical Arts Program in automotive and diesel technology continues to grow in popularity. These programs graduate master technicians with the mechanical, communication and leadership skills demanded by today's job market. Students learn on state-of-the-art equipment, and NNCC's VICA (Vocational and Industrial Clubs of America) members consistently win top honors at state and national competitions in automotive and diesel.

The Mining Technology program this semester is offering a hands-on course "Introduction to Mineral Assaying" which will allow students to learn assaying in a working assay lab. Another course offering is "Introduction to Analytical Techniques," introducing the student to procedures and equipment used in the various labs of the mining industry.

Many other course offerings are available in accounting, agriculture/Animal husbandry, anthropology, art (including a tour of Hawaii), biology, business, casino management, chemistry, child development, crafts, criminal justice, drafting, economics, electronics, English, French, Geology, Graphic Arts, History, Home Economics, Humanities, Journalism, Management, Marketing, Mathematics, Metals, Mining, Music, Office Administration,

Physical Education, Physics, Political Science, Sociology, Real Estate, Spanish, Speech and Woodworking.

"Something for everyone," according to Dr. Charles Greenhaw.

In keeping with the trend of increased on-campus activities, NNCC has a full special events calendar this semester. The ever-popular Great Basin Lecture Series featuring Mark Ports, Life Science instructor and Mike McFarlane, Geology instructor will continue, as will this year's special "American Utopias Series." In February NNCC sponsors the "Side Street Strutters," Disneyland's official Dixieland musicians.

Also on tap in February: Valentines and Honest Abe Breakfast Bash, An All-American Pie Day and Mardi Gras. Other events

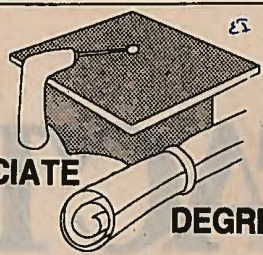

following include Totally Tasteless Joke Day, Paul/Shelley Hanna Day (with honorary banquet), and the Faculty/Staff/Student Pro-Am Golf Tournament.

The community college wellness program will focus on Cancer Awareness this semester, with six lectures planned.

Community Service Classes, popular 0-1 credit sessions, include Handwriting Analysis, Cake Decorating, Basket Weaving, Matting and Framing, Folk Guitar, Australian Locker Hook Weaving, Fly Tying, Weaving and Quilting, among others. Many of these courses are 1 or 2 day in length, or 5-week sessions.

Registration opens at 8 a.m. Monday and continues til 8 p.m. Tuesday evening. Classes begin Jan. 20.

ASSOCIATE DEGREE

Credentials like the Associate Degree speak for themselves.

The Associate Degree shows attainment of knowledge and skills. The Associate Degree represents quality education and personal growth. For many, the Associate Degree is the best path to a field of work. For others, the Associate Degree is a bridge to upper division university programs.

NNCC offers four associate degrees:

- the Associate of Arts,
- the Associate of Science
- the Associate of Applied Science,
- and the Associate of General Studies

Each degree is the umbrella for many majors, for many occupations, and for personal growth.

Associate Degrees Speak for Themselves.
An Associate Degree Can Speak for You, Too.

Alternate registration under way at NNCC

Fall alternate registration at Northern Nevada Community College is currently under way and will continue through tomorrow.

Fall alternate classes include Basic Ground School for Pilots, a popular annual class to be instructed by Art McEwen.

The 7½ week course will meet Tuesdays and Thursdays from 6:30 to 8:30 p.m. It is a 3-credit class.

The class prepares students for the FAA written exam for the private pilot's license. It will include a variety of class presentations — the Sanderson audio-visual training series, guest lecturers and visits to FAA facilities.

Another course offered during fall alternate registration is a weekend seminar entitled LOGO-Computer

Art for Teachers.

This 1-credit continuing education seminar will be held Friday, Nov. 7, from 6 to 8 p.m., and Saturday, Nov. 8, from 9 a.m. to 4 p.m. Registration either today or tomorrow is mandatory. The two-day seminar will introduce students to all aspects of LOGO programming: screen graphics, animation, word and list operations, and the art of combining text and graphics.

Other fall alternate courses include Handwriting Analysis, Sports Massage, Tax Aspects of Financial Planning, and Commercial Lending and Mortgage Refinancing.

Registration continues until 8 o'clock tonight and from 8 a.m. to 5 p.m. tomorrow at Northern Nevada Community College, 901 Elm St. — submitted by Coty Raposa-Floyd

EDFP 10-9-86

NNCC spring semester registration next week

Registration for spring semester classes at Northern Nevada Community College is Monday and Tuesday from 8 a.m. to 8 p.m. daily.

The variety of courses available continues to grow, with the course roster this semester double the offering in 1981. NNCC students may choose to pursue ten professional pre-majors through the college's Associate of Arts degree, nine pre-professional programs through the new Associate in Science degree and 10 occupational majors through the Associate of Applied Science degree.

A copy of the 1987 Spring Semester Course Roster is available at the Student Services Office in Lundberg Hall on the NNCC Campus at 901 Elm St. Within the roster are hundreds of offerings which lead to two-year degrees, one year certificates. Classes also are available for those interested in gleanng information through afternoon or evening seminars.

Interested persons are urged to sign up for classes as early as possible. One class expected to fill early is the History of Russia course taught by distinguished professor Paul Shelley Hanna, who will conclude his illustrious career this semester.

Computer and word processing courses are other subjects which traditionally fill quickly, as do nursing classes. Of special interest in the Nursing Department is the Nursing Assistants class, which was very successful last semester.

NNCC's Technical Arts Program in automotive and diesel technology continues to grow in popularity. These programs graduate master technicians with the mechanical, communication and leadership skills demanded by today's job market. Students learn on state-of-the-art equipment, and NNCC's VICA (Vocational and Industrial Clubs of America) members consistently win

honors at state and national competitions.

The Mining Technology program this semester is offering a hands-on course, Introduction to Mineral Assaying, which will allow students to learn assaying in a working lab. Another course offering is Introduction to Analytical Techniques, introducing the student to procedures and equipment used in the various labs of the mining industry.

Many other course offerings are available in accounting, agriculture, animal husbandry, anthropology, art (including a tour of Hawaii), biology, business, casino management, chemistry, child development, crafts, criminal justice, drafting, economics, electronics, English, French, geology, graphic arts, history, home economics, humanities, journalism, management, marketing, mathematics, metals, mining, music, office administration, physical education, physics, political science, sociology, real estate, Spanish, speech and woodworking.

"Something for everyone," accord-

ing to Dr. Charles Greenhaw.

In keeping with the trend of increased on-campus activities NNCC has a full special events calendar this semester. The ever-popular Great Basin Lecture Series featuring Mark Ports, life science instructor, and Mike McFarlane, geology instructor, will continue, as will this year's special American Utopias Series. In February, NNCC sponsors the Side Street Strutters, Disneyland's official Diezeland musicians. Also on tap in February: Valentines and Honest Abe Breakfast Bash, An All-American Pie Day and Mardi Gras. Other events include Totally Tasteless Joke Day, Paul Shelley Hanna Day (with honorary banquet), and the Faculty/Staff/Student Pro-Am Golf Tournament. The Community College wellness program will focus on Cancer Awareness this semester, with six lectures planned.

Registration opens at 8 a.m. Monday and continues until 8 p.m. Tuesday evening. Classes begin January 20. — By Coty Reposa Floyd, NNCC publicist

SPRING SEMESTER
begins January 20th.

NNCC registration set today and tomorrow

Community service classes at Northern Nevada Community College are, for a growing number of Elko residents, a great way to get through the long winter and Elkoans may sign up for them and other college offerings today and tomorrow. NNCC's Spring Semester registration will continue today until 8 p.m. and tomorrow from 8 a.m. to 8 p.m.

The zero-credit to three-credit community service classes are selected to spark the interests of many, with offerings ranging from Handwriting Analysis, Fly Tying and Beginning Folk Guitar to Emergency Car Repairs for the Un-Mechanical, and Traveling in Hawaii and Mexico. Several of the community service classes run for three to six weeks,

with classes meeting once a week. One such class, meeting for four weeks beginning Jan. 29, is Basketry, taught by Carys Ann Hamer. Mrs. Hamer learned to weave during her fourteen years in Africa. She has taught and worked as a studio artist in the Brookfield Craft Center in Connecticut, and has had items displayed at the Northeastern Nevada Museum. This semester she also will be instructing Ribbon Vest Knitting, another community service class which runs for three evenings.

Other community service classes offered this semester are outlined on Page 8 of the Spring Course Roster, available at the Student Services Office at NNCC. — Submitted by Coty Raposa-Floyd, NNCC publicist

Northern Nevada Community College's Spring Semester registration began today and will continue through tomorrow. Among the NNCC offerings are many community service classes, including a basket-weaving course taught by Carys Ann Hamer, pictured with samples of her art. *EDFP 1-12-87*

Registration: Brad Theetge of Winnemucca watches Rebecca Kien of Spring Creek sign up for classes in the Northern Nevada Community College library. Debby Lassiter (across table) is also filling out class cards.

Louis Horton, head of the college's agriculture department, is standing in background. Registration for NNCC's spring semester began yesterday and continues today until 8 p.m. *EDFP 1-13-87*

738-6460, License No. 0021317.
Lespede Construction, your earthwork specialists. Cement removal, basements, hauling and general excavation. Lic. #918072. Call Rich Lespede, 738-5761.
 Top quality 2x6x10 finished lumber, \$2.75 ea., 2x4x10 finished lumber, \$1.75 ea. Stockman's Supply, Elko, 738-7448.

**SPRING SEMESTER
Begins January 20th**

For more information, call 738-8493. NNCC, 901 Elm Street.

NNCC's spring registration continues through Wednesday

Despite a "solid" spring semester registration at Northern Nevada Community College, registration for spring semester classes will continue this week and next, with one change in dates made to accommodate the Martin Luther King holiday Monday.

According to Dr. Charles Greenhaw, dean of instruction, the current class-roster circular indicated late registration would be held Monday. However, NNCC will be closed Monday to observe the new holiday.

Late registration continues today and tomorrow until 5 p.m., and will reopen at 8 a.m. Tuesday and run until 5 p.m., with an additional day, and hours, scheduled for Wednesday, Jan. 21, when registration at the student services office will be open from 8 a.m. to 8 p.m.

Many classes still have openings and will be filled on a first-come,

first-served basis.

A Shorthand II class taught by NNCC executive secretary Jill Jones is an excellent advanced class for the professionals who wishes to polish their skills, Greenhaw noted. The class will be taught Tuesdays and Thursdays from 4 to 5:15 p.m.

Learning a new language will be easier with Cheryl Pyatt's First-Year Spanish class, held Tuesday and Thursdays from 4:15 to 5:30; and Conversational French I on Tuesday and Thursday evenings from 7 to 8:15.

Construction Electricity: Basic Housewiring has a few openings remaining. This three-credit class meets Thursday evenings from 7 to 10 p.m., and is taught by Jon Vietti, who is head electrician for the Elko County School District. He received his degree as an electrical lineman from Boise State University.

Other classes with limited en-

rollment available include Plant Biology taught by NNCC instructor Mike Ports Tuesdays evenings from 6:30 to 10 p.m.; Fundamentals of Speech, Tuesdays from 7 p.m. to 10 p.m., taught by David Loughney; Introduction to Computer Aided Drafting Tuesday and Thursdays from 5:30 to 6:45 p.m., and Architectural Drafting I, Tuesday and Thursdays from 7 to 10 p.m.

Childcare is available at NNCC Tiny Tech Monday through Thursday evenings for children 3-10 years old. Information is available by calling Marilee Snyder at the Child Care Center.

NNCC classes will begin Tuesday. Information on these classes, or openings in other courses listed in the spring semester course roster, can be obtained by calling 738-9498, Student Services.—Submitted by Coty Raposa Floyd, NNCC publicist.

2/18/87
NNCC Update
 by WENDI SHAW
 According to NNCC representatives, this year's spring enrollment was very successful. Recently OES has been holding night classes.
 The spring schedule looks like this. There are the following vocational classes. There are two art classes. — Louise Nickelson is teaching basketry; Bob Nickelson is teaching ceramics and jewelry. Dave Rockenback is teaching introduction to Chinese cooking. Linda Stroup is teaching cake decorating. The cake decorating class will be starting March 2. Bob Cassa will be teaching volleyball; this class just started Feb. 3. The above classes are all one credit each.
 Gwen Anne Thacker will be teaching chemistry, an academic class. The credits in this class will be transferable, and there are four credits involved. Jeanne Joyce is teaching Word Processing, another academic class. This class is three credits. Gwen Anne Thacker is also teaching Composition and Rhetoric, which is an independent study course and is three credits.

College registration set next Thursday, Friday

EDFP 2-21-87

Spring alternate semester registration begins at 8 a.m. Thursday and continues through Friday at Northern Nevada Community College. A complete schedule of offerings, course prices and registration times are listed on Page 13 of today's paper.

Several art classes, including a special tour to San Francisco, will be offered during the semester, according to Sarah Campsey, director of the art department.

Campsey will lead a tour that will include attendance at the opening of the new Fine Arts building at the University of Nevada Reno. A visit to an exhibit of photographic abstraction and sculpture by Katrina Lasko at the Sierra Nevada Museum of Art is on the tour agenda. Those signing up for the April 24-26 tour will visit Fisherman's Wharf and other San Francisco sights, Campsey noted.

The tour will cost \$200 per person and earns one college credit. Before the tour begins, students will meet for slide shows and lectures about the art that will be viewed.

Carys Hamer has slated three classes this semester; one is a basketry class that will cover the use of dyes to pre-color the reed to be used in creating the baskets.

Norma Zunino plans to instruct students in making throw rugs from polyester knits. "Trip around the world" is the pattern Becky Paris will teach during her popular machine quilting class.

Australian locker hook weaving is to be taught by Audrey White; carded wool is used in this style of weaving.

Campsey can be contacted for further information about the above courses by calling 738-9493.

NNCC registration for alternate semester

Registration for the spring alternate semester classes at Northern Nevada Community College is slated from 8 a.m. to 5 p.m. tomorrow and from 8 a.m. to 5 p.m. Friday, the college reminds students.

Semester offerings include self-paced office administration classes: typing, office management, book-keeping, word processing and use of new laser printers.

Life Science instructor Mark Ports will conduct a bird watching field trip March 7.

In continuing professional and occupational education, classes in grant development, automotive air conditioning and the application of dental sealants are offered.

In March, Dr. George Manilla will repeat his successful one-day workshop, "Tutoring the Dyslexic Student." Other classes for educators are "Economics for Teachers," "The Exceptional Child," and "Language Development in the Preschool."

"Remote Sensing," a professional seminar for geologists, is scheduled in May.

Writers are offered "Getting Your Book Published," taught by Gibb Smith, publisher of Peregrine Smith

Books.

EDFP 2-25-87

An intensive six-week training program for nursing assistants begins in March from which students will emerge ready to work as nursing assistants or home-health aides.

Intermediate and advanced skiers can spend a weekend at Snowbird with expert instruction by Roche Bush March 6-8.

Betty Finnas' "Self Realization Seminar" will be repeated in mid-March and an advanced class is offered the next day for those who have attended either earlier seminar.

Mike Morse of automotive technology will teach a class called "Breakdown! Emergency Car Repair for the Unmechanical" March 10 and 12.

With NNCC, the Women's Center is co-sponsoring "Assertive Communication" with Lisa Gaiardo as instructor.

"Landscaping for Homeowners," with special attention to the Elko climate, will be taught by Jim Cooney.

Besides these highlighted courses, many other short-term classes are listed in the spring catalog.

More students attend NNCC spring semester

Total enrollment in the spring and spring alternate semesters at Northern Nevada Community College increased by 287 students this year — from 2,077 in 1986 to 2,364 in 1987.

NNCC Dean of Instruction Charles Greenhaw explains a full-time student is one who carries 15 units or more. The college had 130 full-time students this spring and 135 last spring. Greenhaw said the count is misleading because it disregards students who carry as many as 12 credit hours and, for funding purposes, a "full-time equivalent" figure is more representative of college attendance.

The "full-time equivalent" spring

semester student count in 1986 was 488; 511 in 1987.

This spring, 2,234 part-time students (those enrolled for fewer than 15 credit hours) attended classes in Elko, Battle Mountain, Ely, Eureka, McDermitt, Owyhee, Wendover, Wells and Winnemucca — 282 more than attended class last year, when 1,942 part-time students took NNCC courses.

Total enrollment hours on the Elko campus dropped from 4,979 in 1986 to 4,905 this spring, although total enrollment hours in the entire NNCC service area grew from 7,328 in the spring of 1986 to 7,669 this spring — an increase of 341. EDPF 4-9-87

Spring semester: Registration for the Northern Nevada Community College spring alternate semester concludes at 5 p.m. today. Emma Barrington (left) signed up for courses at the college yesterday, assisted by Carolyn Owen of the student services office. Many of the courses begin March 2; further information about class meeting times and costs is available at NNCC. EDPF 2-27-87

NNCC

Northern Nevada Community College

1987 Summer

Registration Dates: Wednesday, May 27 - 8:00 a.m. to 5:00 p.m.
Thursday, May 28 - 8:00 a.m. to 5:00 p.m.
NNCC is closed Fridays during Summer Session

Place: Student Services Office - Phase II Building - Walnut St. Entrance

Classes Start: Week of June 1 unless otherwise stated

Fees: \$25.00 per credit hour unless otherwise stated
\$5.00 application fee for new students
Students must pay for textbooks at time of purchase.

Refunds: 100% if initiated prior to the second class session.
50% if initiated during the first 20% of instruction.
Community Service class shall be: 100% if dropped by the first school day after the first class session. No refunds for one day sessions.

Senior Citizens: Senior Citizens will be assessed all lab fees and one-half of the assessment for Community Service classes. Students 62 years of age will not be charged tuition for regular classes.

Handicapped Assistance: If you are disabled or handicapped, you can obtain enrollment assistance by calling Student Services, 738-8493, prior to advisement or registration.

Northern Nevada Community College does not discriminate on the basis of race, religion, national origin, sex, marital status, status with regard to public assistance or disability, in admissions, employment, or in the operation of its educational programs.

ROUND MOUNTAIN CENTER

SPRING SEMESTER 1987

WHERE TO REGISTER: General Store

WHEN TO REGISTER: 2:00 p.m. - 5:00 p.m.
Tuesday, January 13
Thursday, January 15
Friday, January 16

CLASSES BEGIN: Week of January 26, 1987
unless otherwise noted.

FEES: \$20.00 per credit hour must
be paid at the time of
registration.
\$5.00 application fee for
new students.
Senior citizens will be
assessed all lab fees
and one-half of the
assessment for Community
Service classes. Regular
courses will be of
no charge to persons
62 years or older.

HANDICAPPED: Handicapped students needing
assistance should contact
Wanda Mitchell-Tucker
at 377-2525.

REFUNDS: When you drop a class early
in the semester, you may
be entitled to a partial
refund. In order to obtain
any refund, you must notify
NNCC Student Services
(702) 738-8493 right away.

Engineering firm says this is how Winnemucca college would look

Drawings of college presented

Drawings have been prepared by an Elko engineering firm that show how the proposed Northern Nevada Community College building in Winnemucca would look.

Mayor Warren Scott, who is spearheading a drive to win voter approval in November of a \$460,000 general obligation bond measure to build the Winnemucca campus, said the drawings are subject to revision, but are pretty close to what the city hopes to construct.

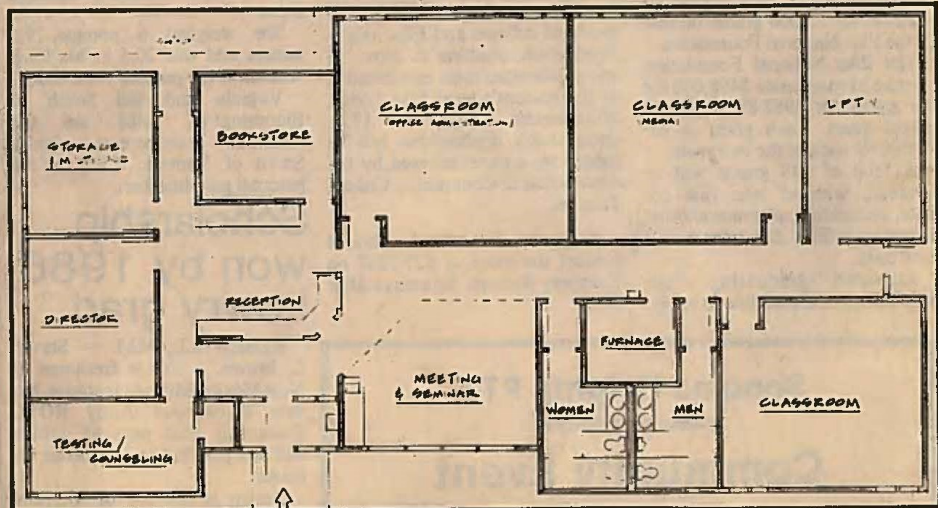

He said the design of the building was developed by Bill Slabaugh of the firm of Kennedy-Jenks-Chilton from information supplied by the college.

The mayor said the proposed building would be 4,908 square feet, much larger than the college's current Winnemucca building, which is 1,850 square feet. That building is rented.

If voters approve the bonds, the mayor said the college will be responsible for supplying the staff and equipment, and will be responsible for maintaining it.

The drawing and the floor plan of the building were prepared at no cost by Slabaugh, the mayor said.

They were unveiled last week when a citizens committee formed by the mayor to promote passage

This floor plan shows how building would be used

of the bonds met last Thursday.

In addition to the presentation, the mayor said the committee decided that it would seek a 10-year payoff for the bonds. Originally, when the city council voted to place the bonds on the November general election, they were to be retired in 20 years.

The mayor, a retired banker, said when he originally made the proposal it appeared an interest rate of 9 percent would have to be paid on the bonds. Since then, he said, the interest rates have declined, and it appears the bonds will sell for about 7.6 percent interest.

With this reduction, and over 10 years, it means substantial reduction in cost of property

owners. For example, to the owner of a \$70,000 home, it would mean savings of \$186. The owner over 10 years would pay \$403 as compared to \$590 over 20 years.

With the new proposal, the mayor said, the property tax for the college bonds would be 13.5 cents as compared to 10 cents for the 20-year pay-off.

Meanwhile, Councilman Terry Miller was meeting with property owners in an attempt to assemble a 10-acre site near Lowry High School for the college building. The committee favors a location near the high school because it would enable seniors to walk to the college to take honors classes.

If unsuccessful, apparently the

city will proceed with plans for use of a 40-acre site available from the Bureau of Land Management. Although this land could be obtained without charge, the development costs would be substantially higher. Eventually some of the \$160,000 development costs could be recouped as other properties developed and used the new road and utilities.

The mayor said it is his goal that the college eventually will be available to provide the first two years of college needed for a four-year degree. The college has indicated that it plans to have language-English, and math professors available at the Winnemucca campus. The college is headquartered in Elko.

Editorial

College issue needs airing

IT WILL BE interesting to see what happens if Elko's Tony Lesperance runs for the board of regents, which governs higher education in Nevada. Lesperance is a retired professor who knows how the university operates. He figures Nevadans, especially rural Nevadans, aren't getting what they should from the universities.

The people who are running the university apparently figure it should be the equivalent of Stanford University, known for its brilliant scholars and research.

The question to be raised during the campaign, if he runs, is whether Nevada wants or needs a Stanford. Would the state be better served educating people to meet the needs of Nevada?

LET'S GIVE ONE simple example: If the university's journalism school produces journalists to staff the New

York and Los Angeles Times, what value is it to the state's community newspapers, such as the Sun, and their readers? What benefit is the program to a student who wants to live and work in rural Nevada?

The same questions might be raised about agriculture. What good is a program that turns out graduates who are uninterested, or unqualified to work in Nevada's agriculture industry?

If Lesperance runs, and we hope he does, we'll be watching the campaign with interest. This is a vital issue that should be thoroughly discussed. It is also an issue that is usually left by laymen to professional educators to decide. That's because we assume the educators have superior knowledge and are capable of exercising good judgment. That isn't always the case. An advanced degree does not mean a person has common sense.

Site found for college

By JERRY TEAGUE

Proponents of a \$460,000 general obligation bond measure expected this week to obtain an option to purchase up to 7.5 acres near Lowry High School for construction of a Winnemucca campus for the Northern Nevada Community College.

Mayor Warren Scott said Tuesday that Elmer Cartwright of Las Vegas, owner of the property located at the northeast corner of the high school, had agreed to sell for \$6,000 an acre. The mayor said the initial option would be 7.5 acres, but he expects eventually 10 acres will be purchased.

The mayor said Cartwright had agreed to sell more than the 7.5 acres.

Mayor Scott said the deal was put together by Councilman Terry Miller, who is also a Realtor. He said Miller donated his services, and apparently absorbed the expenses, which included long-distance phone calls to out-of-town owners.

The acquisition of a site near the high school was favored by a committee formed by the mayor to promote passage of the bonds. The members figured it would be close enough for honors students at the high school to walk to the college during the day to take courses. Also, adults could walk to the high school from the college building, which includes administrative offices and classrooms, to the high school for evening college classes.

Initially, the mayor and city council planned to build the college building on Bureau of Land Management land. It was in the vicinity of the high school, but not within walking distance. Although the land was to be free, the cost of developing it would have been at least \$60,000.

The city council this week also agreed to reduce the term of paying off the bonds from 20 years to 10.

Mayor Scott said this was also recommended by the bond committee. Even with the shortened term, he said the cost of the bonds would be minimal — \$4 a month for a home valued at \$100,000; \$2.81 a month for a \$70,000 home; \$1.60 for \$40,000. These are cash values. The assessed values would be 35 percent. The bonds would require a tax rate increase of slightly less than 14 cents, Scott said.

The mayor told the council he is still hearing expressions of concern about the city residents paying the full cost of the bonds when the building will also be used by residents of the unincorporated areas.

As a courtesy, the county commissioners would have put the measure on the November ballot for the unincorporated residents, but would not have urged their approval, the mayor speculated. The commissioners did not want to ask the ranchers, who are having difficult financial times, to raise their property taxes, Scott said.

The council members expressed doubt that the ranchers are less able to pay the additional taxes than are some businessmen in Winnemucca.

Meanwhile, the mayor and members of the committee were commencing a campaign to inform the public about the bond measure. The mayor hopes the presentation can be made to most of the organizations in town before the November election. *Lumboldt Sun 10-10-86*

College site has problem

The 40-acre site the city chose near Lowry High School for the new Northern Nevada Community College building has a technical problem, City Manager Steve West told the city council this week.

He said the Bureau of Land Management is willing to give the property to the city, but the surface mineral rights are owned by Southern Pacific. He said it will be necessary to convince the railroad it should relinquish the mineral rights before the property could be used by the college.

The city has already decided to ask voters in the November general election to approve about \$450,000 in general obligation bonds to build the building for the college.

West speculated the railroad kept the mineral rights after swapping properties.

Councilman George Shier quipped that the railroad wouldn't be so interested in retaining mineral rights if it was taxed for them. *Lumboldt Sun 8-22-86*

Site change recommended for college

Another site may be chosen for the Northern Nevada Community College building that Winnemucca voters will be asked to finance at the November general election.

A committee formed by Mayor Warren Scott to promote the \$450,000 general obligation bond measure seemed to agree last week that the building should be constructed within walking distance of Lowry High School.

That is because Lowry classrooms would be used for some of the college's evening program. The new building, described as 70 percent instructional and 30

percent administrative, would be used for the college's day and evening programs.

In addition to the convenience, the committee concluded that it would also be less expensive to build near the high school.

Mayor Scott had proposed the building be constructed on 40 acres owned by the Bureau of Land Management. The acreage could be obtained without charge, but the development of it would cost about \$160,000. That would include extension of a road and utilities.

The mayor has contended that

some of the money would be returned to the city, because it would open other property for development. As new properties connected to the extended utilities and road, they would pay their share of the costs, he said.

It was agreed that selecting a site closer to Lowry would not save the full \$160,000, however. That is because the desired property is in private ownership. There are parcels ranging from five to two and a half acres in the vicinity.

Specifics on the availability and costs of the property are expected to be available at the next meeting of the committee to be held

Thursday, 4 p.m. in the board room at the county schools office.

The mayor said it is his goal that the college eventually offer the classes needed by young people to complete their first two years of study in Winnemucca. This would help parents, who now pay room and board for their children to attend college out of town.

It was announced during the meeting that Pinson Mine had donated \$500 to help finance the committee's efforts between now and November to convince the voters on the wisdom of approving the bonds. *Lumboldt Sun 9-10-86*

NORTHERN NEVADA COMMUNITY COLLEGE

1987 SPRING SCHEDULE

WHERE TO REGISTER: Northern Nevada Community College, Ely Center, 612 Aultman St. - Ely, Nv.

WHEN: Thursday, January 15, 1987 and Thursday, January 22, 1987 2:30 p.m. - 7:00 p.m.

WHEN TO MEET: Classes begin the week of January 26, 1987.

HOW MUCH: \$20 per credit hour must be paid at the time of registration. \$5 application fee for new students. No tuition charge for persons 62 and over except in community service classes.

REFUNDS: 100 percent through the first class session. 50 percent through the first 20 percent of instruction. Community Service: 100 percent through the first class session. NO OTHER REFUND.

Winnemucca NNCC Building Is In doubt

Reprinted from the HUMBOLDT SUN

Mayor Warren Scott of Winnemucca says his proposal to ask voters in the greater Winnemucca area to approve bonds for the construction of a new Northern Nevada Community College building is dying in the state legislature.

Scott said Assemblyman John Marvel (R-Battle Mountain), introduced a bill that would have permitted county commissioners

to create a special district encompassing the city and surrounding urban area to finance the college building.

He said the creation of the district would have answered the most commonly heard objection to a bond issue defeated during the general election. In that election, only city dwellers were asked to approve and pay for \$460,000 in bonds. They rejected the proposal because the college is also used by residents of the urban area surrounding the city. It was argued these nearby county residents should help pay for the bonds.

The mayor said he hoped AB 261 would be passed by the legislature so the bond proposal could be made at the same time as the June

municipal election.

Unfortunately, he said, the Nevada Association of Counties opposed the proposal when it was heard by the Government Affairs Committee. He said the counties feared the taxes used to pay for the bonds would take precedence over county taxes, and cut into the "tax cap." In other words, the counties would have less to spend.

Although Bob Hadfield, the county association's executive officer, declared opposition to AB 261, he said another bill would be introduced to accomplish what the mayor wanted. He promised to tell the mayor or William Macdonald, city attorney, when the new bill is introduced. This was on March 10, and as of March 31 nothing had

been heard from Hadfield.

Among those who testified in support of the proposal was Dr. Bill Berg, president of the community college, who explained the need for the building in Winnemucca. The college is now housed in a rented building of less than 2,000 square feet. The new building would provide 5,000 square feet, plus room for expansion.

Tuesday, Aug. 26

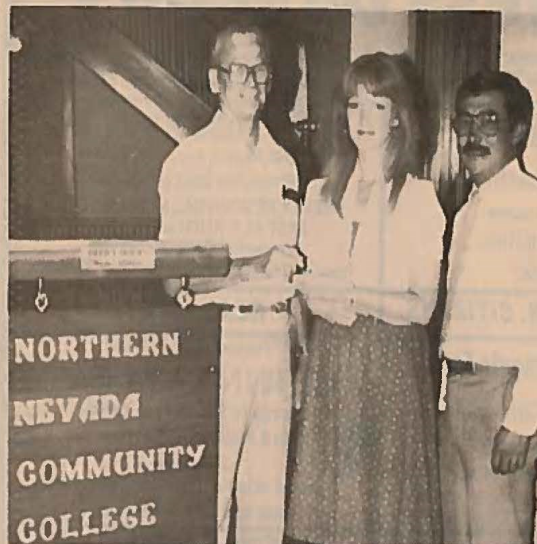

9 a.m.-4 p.m. — Joan Nivens, director of financial aid for Nor-

thern Nevada Community College, will be available to assist students needing aid. Call the college center at 623-4824 for an appointment.

noon-8 p.m. — Fall registration at Northern Nevada Community College, 395 Minor Street.

7 p.m. — Regular meeting and officer election of the One Moccasin Toastmasters Club at Red Lion Inn meeting room.

NNCC coordinator

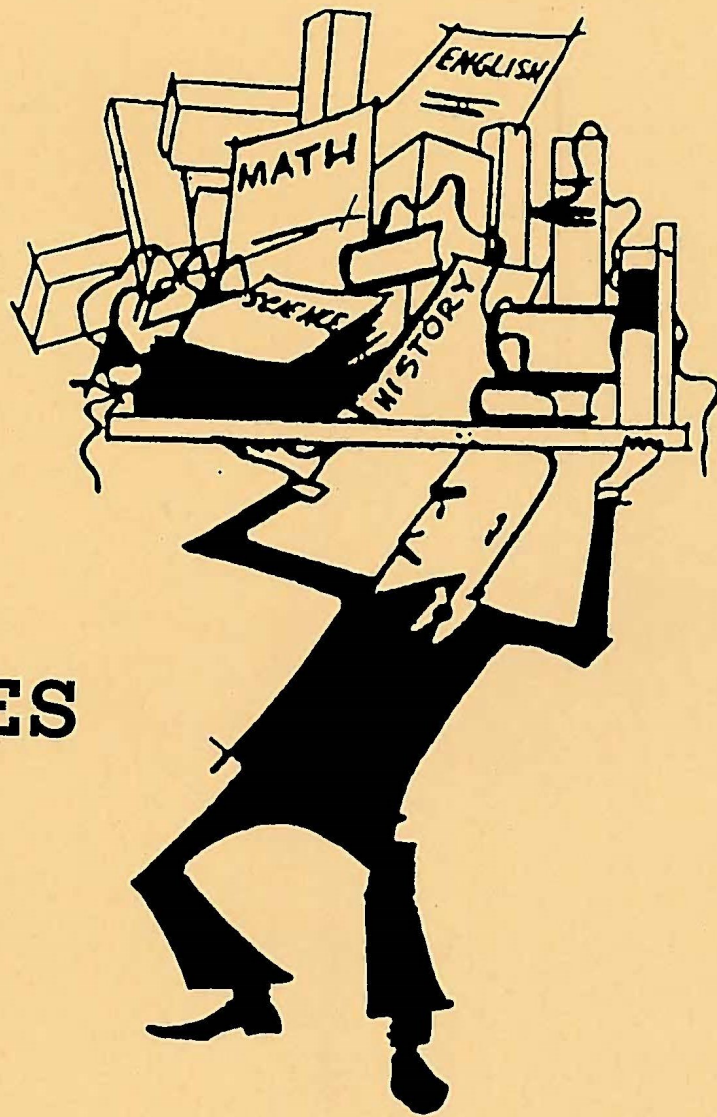

On the left, Dr. William Berg, president of Northern Nevada Community College in Elko delivers the office keys to White Pine County's new community college coordinator Carole Cornell. Her first day was Wednesday. Cornell who's also pictured with the college local advisory council member Scott Hase, said her basic goals are to continue to provide services to the community. Cornell is filling a position vacated by Peggy Hogan who recently resigned. The new coordinator is a mother of four sons. She brings about two years of experience to the position which she earned at NNCC in Elko. According to Berg the operation hours will be 8 a.m. to noon, Monday through Friday. "Anyone interested in taking classes or teaching should contact Carole or let us know what classes they would like to offer." The Northern Nevada Community College White Pine County Advisory Council is made up of Virginia Terry, Tim Curtin, Florindo Mariani, Karen Rajala, Tonia Harvey, Bob Hume, Jodi Hase, Bob Nichols and Scott Hase.

CLASSES

NNCC offers kid-centered afternoon tutoring course

By Coty Raposa-Floyd
NNCC publicist

In the beginning, there was grade school, then junior high and high school.

For some students, all went well. Facts were learned, retained, classes were passed and the years led to graduation.

For others, however, all did not go according to plan. High school classes stumped some, bored others. For myriad reasons, for too many, the learning stopped; they became drop-out statistics in a state where the drop-out rate ranks as one of the highest in the nation.

Northern Nevada Community College is now combating those statistics locally through the Abecedary Program, a program of aid for possible or de facto high school drop-outs. The Abecedary program, according to its creator Sharron Racine, "is the kid-centered tutoring program with the unpronounceable name."

The program, which began two years ago, was initiated because "we saw there was a need. There were too many kids falling through the cracks," explains Racine, who holds a master's degree and has three children of her own.

Racine wanted the program to be free and accessible to all youths. Together with Job Opportunities in Nevada (JOIN), funding was obtained, classrooms found at the college, tutors specially trained, and the doors opened.

There hasn't been a lack of students, said Racine, who explained Elko High School administrators and teachers have referred students who are experiencing difficulties in one area or more.

All basic skills are covered: reading, math, science and foreign languages. Tutors receive training in relating to high school and, for the first time this fall, junior high students.

But the success of this program is due to more than the specialized tutoring. For instance, students are taught to relax. Racine explains, "Stress can begin for many students in first grade. All kids don't develop at the same rate. A child may have

difficulty, not because he's not smart, but because his natural rate of development may be somewhat slower in his early years... By the time he gets to high school he can be such a mess, through stress, that he can't concentrate. These students now have all the neural abilities, but they're so stress-blocked, they can't learn."

So one of the skills the Abecedary students are taught is stress reduction. Using clinical relaxing routines, subdued lighting and deep breathing, they remove the obstacles and are then more free to learn.

"For many kids, this is the only time they relax all day," says Racine.

Racine, who is now program coordinator, created the kid-centered

tutoring concept and mothered it through its first year. Susan Conquest was program instructor last year, and Peggy Crawford took over this year.

This year Abecedary students will receive tutoring on painless ways to write what Racine dubs "the Dreaded Research Paper."

Students entering the tutoring program are told, "This is not high school. You can behave and stay, or leave," says Racine. Because of this attitude, there are few behavioral problems, instructors and tutors say.

Abecedary is free for interested students and is open Monday through Thursday afternoons. More information is available by contacting the Abecedary program at NNCC, 738-9493.

8-25-86 NNCC class changes told

Schedules for two Northern Nevada Community College courses have been changed, a spokesman reported today.

Merilee Snyder, director of the Childhood Development Department, announced the Principles of Child Guidance class will meet on Wednesdays at 7 p.m. instead of Tuesdays, and will be taught by Charles Krizic, school psychologist for the Elko County School District.

Dennis J. Floyd, instructor for the Home Video Photography class, said it will meet from 7 to 9 p.m. on Mondays instead of 7 to 10 p.m. as advertised. This class is geared for persons who own or have access to a video camera and recorder or camcorder, he pointed out. No equipment will be provided.

Floyd has had 13 years of audiovisual experience with the U.S. Air Force and is a former ABC cameraman.

Enrollment for both classes is limited and interested students should register early. Registration is from 8:30 a.m. to 8 p.m. Aug. 27 and Aug. 28.

Drop-in child care is available during NNCC evening classes.

NNCC Sets Cutting Horse Clinic Sunday, Aug. 2

Elko Independent 7/23/86

Northern Nevada Community College will sponsor a Cutting Horse Clinic on Sunday, Aug. 3, from 9-4 p.m. at the Bear Ranch Arena east of Elko.

Instructor Bill Alexander from Hico, Texas, has trained and shown cutting horses that have qualified for numerous open and novice championships. In addition to being a highly respected NCHA judge, Alexander has placed horses in the NCHA Open Top Ten, the prestigious National Cutting Horse Futurity in Ft. Worth, Texas, the Gold and Silver Stakes, the Breeder's Cup, and has won the 1985 World Appaloosa Junior Cutting Horse Championship.

He works extensively with non-pros and young people to help them raise, show and enjoy their cutting horses. Raised on ranches in Elko County, Alexander was an agriculture teacher at Elko High School in the 1970s.

The clinic schedule will include: the "reverse psychology" method of starting and training cutting horses, use of the round pen, how to hold herd and turn back, and proper herd work techniques. Experienced cutters on finished horses to students riding a working ranch horse are encouraged to attend.

The cost of the clinic is \$45 per rider, which includes a cattle charge. The spectator fee is \$10. Call the NNCC Student Services Office at 738-8493 or Pat Warren at 738-9626 for more information. Students are encouraged to pre-register by July 30.

EOPF 9-13-86

Once blind, April Summer learns to read in three months at NNCC

EDFP 5-27-87

April Summer of Wells, legally blind for 31 of her 33 years, learned to read last semester in the Adult Basic Education (ABE) program at Northern Nevada Community College.

One of the more important but lesser known NNCC services, the ABE program has grown dramatically this summer, according to head tutor Peggy Crawford.

Although Summer has special skills in reading Braille, she came to the college last semester with equipment allowing her to read print soon after undergoing two surgeries — one performed by Dr. W.H. Fritsche of Elko using a laser beam. She is learning to read at NNCC by being tutored once a week for three hours and is now reading on the fourth-grade level.

Summer explained all Braille words have only four characters, so a book can be read very quickly using the system. She says she finds visual reading a "challenge" and will continue practicing all summer as she learns other things — such as color coordination — that sighted people can know.

Bill Morris, a 65-year-old grandfather who learned to read this year is another success story, and so is 42-year-old James Lail, who left high school in Twin Falls, Idaho, more than 20 years ago — unable to read.

He entered the program reading on the fourth-grade level this fall, Crawford said. Next fall he will enter the GED (General Equivalency Degree) high school program since he is already reading high school texts. Lail, who made up stories as he "read" to his daughters, is currently a baker at Stockmen's Hotel. He plans to take an exam for a general contractor's license as soon as he reads well enough since he is a carpenter as well as a chef.

Passed from grade to grade although he could not read, Lail finally quit high school as a junior, not wishing to withstand more ridicule from teachers and classmates. It was a recent television commercial on illiteracy that sent him to the community college seeking help.

"I've been managing the hard way," he said. "When I can read, I am going to see what it's like to live the easy way."

"We run a 'drop in' service," said Crawford, "and it's free." She mentioned the pregnant young women who drop in for various lengths of time seeking to improve their reading skills. No one is turned away, she said, but until they are tested, they are not considered officially enrolled.

Each student learns at his own rate with a program designed specifically for that individual, Crawford pointed

out. She has used Dr. George Manilla's system for teaching dyslexics, helps students order from catalogs and fill out job applications, makes visits to the post office and grocery stores to read signs and aisle markers and teaches how to fill out social security forms. Television, tapes and computers are also employed to teach some people, depending on how each person learns. Sometimes reading aloud helps, although the adult ego is fragile, Crawford explains, and teachers must be careful in using it as a tool.

The program is aimed at under-educated adults, she said. Just because someone has a diploma, it doesn't mean that individual has well developed reading and writing skills.

Others who benefit from the program are those for whom English is a second language. For example, a

Korean woman who was working on her citizenship learned to read and write English, and a young Romanian girl and several Mexican immigrants were students this year. In Crawford's opinion, the recent national advertising campaign about illiteracy has swelled enrollment.

The Crawford family arrived in Elko about two years ago from Indonesia where Jerry Crawford was a mine executive. Peggy Crawford speaks the language of Indonesia, Bahasa, as well as French and Spanish; has bachelor's degrees in French and English from Clarke College in Dubuque, Iowa; a master's degree in French from Illinois State at Normal, Ill.; and has completed course work for a doctorate in 16th century French Literature at New York University in Manhattan including a year's study in Paris.

Other teachers and volunteers for the program also have outstanding educational accomplishments, says Charles Greenhaw, NNCC dean of instruction. Volunteer Lionel "Mo" Boskie has degrees in physics and science; Judy Cole (now of Billings, Mont.) who taught the program from about 1976 to 1980, was named one of 15 outstanding high school newspaper advisors by the *Wall Street Journal*; Evie Ashcroft is now director of Holy Names College in Oakland, Calif.; and Sue Saunders is now a natural resource attorney for the government, to name a few, he said.

Greenhaw added NNCC's ABE program has grown steadily with more than 350 enrolled this year in programs from Wendover to Winnemucca. He hopes for continued growth.

Instructor Peggy Crawford helps April Summer, who has been blind for more than 30 years, begin to read in NNCC's Adult Basic Education program.

Nursing assistant class among NNCC offerings

The Elko School of Nursing at Northern Nevada Community College is offering a six-eight credit course to train nursing assistants beginning October 14. Those interested may sign up during the college's fall alternate registration Oct. 9 and 10.

The six-week course will be taught by Linda Hart, R.N., and will include clinical experience, as well as classroom training.

"The course is designed to prepare nursing assistants for employment in nursing and the home health field," said School of Nursing Director Ruth Holland. "Our research has shown there is a need for the trained nursing assistant in our area," she said.

According to Holland, upon successful completion of the 240-hour course (which includes work-site experience) the student will perform basic nursing skills competently, know and name local health resources and how to obtain help from them, and communicate knowledgeably in the

health field verbally and in writing.

The course cost is \$350 which includes tuition, text workbook, and lab coat. A high school diploma or GED certificate is necessary. Class size is limited, and selection will be the first 20 students to apply.

Applications are available now at the Student Service office at NNCC, 901 Elm St. Registration for the class also is required, and will be Thursday and Friday, Oct. 9 and 10.

Other courses offered in NNCC's alternate schedule include: Basic Ground School for Pilots, Tuesday's and Thursday's from 8:30 to 8:30 p.m.; Electronics I, Mondays at 7 p.m.; Successful Grant Development, Oct. 18 from 8:30 a.m. to 4:40 p.m.; Tax Aspects of Financial Planning, Oct. 18 from 9 a.m. to 3 p.m.; LOGO—Computer Art for Teachers, Nov. 7-8; and Commercial Lending and Mortgage Refinancing, Oct. 29. — Submitted by Coty Raposa-Floyd

Chamber Schedules Membership Meet

The Elko Chamber of Commerce has scheduled its general membership meeting for tomorrow at noon at the Holiday Inn, according to Phyllis Peterson, executive director of the organization.

Peterson said Northern Nevada Community College will present the results of its recent survey of the "leakage" of local business to out-of-town areas. The results will be presented at the meeting by Gano Evans, professor of marketing from the University of Nevada, Reno, and John Dobra,

director of the university's Bureau of Economic Resources.

Peterson added that Val Easterly, director of NNCC's Small Business Development Center, "has promised that this will be a real eye-opener as to Elko's retail image."

In urging all chamber members to attend the luncheon, Peterson reminded local businesspeople that "we are just gearing up for the holiday season and if we can improve our image and keep our shoppers at home, it will be a real boost to us all."

Elko Women's Center to sponsor conference

A conference offering workshops about computers, child rearing and single parents is slated Oct. 3 and 4 at Northern Nevada Community College, according to Lisa Seymour publicist for the Elko County Women's Center, a co-sponsor.

The Rural Nevada Women's Conference registration is scheduled to begin at 6 p.m. next Friday, Oct. 3, and will cost \$10. Credit for attendees is available through NNCC at a cost of \$30.

Workshops are slated on topics such as "Self-esteem and communicating your worth," child abuse issues, teen pregnancy, and computer-science teaching methods.

Local civic groups, Elko County Sheriff James Miller, the Center for Educational Equity at the American Institutes for Research in Palo Alto, Calif., and the California Department of Education, have scheduled workshops and speeches.

Friday evening a keynote speech by Sheila Hawkins from the California Department of Education about eliminating sexual harassment is scheduled. On Saturday registrants are

slated to pick up informational packets at 8 a.m. for the day's workshops.

Child care is available and those interested were advised to contact Jan King, days at 738-4545, or Cynthia Smith, evenings at 738-8276, for information about the conference or child care.

The conference is sponsored by the Women's Center, the Single Parent Center at NNCC and the Center for Educational Equity.

Crawford heads NNCC tutoring program

By Coty Raposa-Floyd
NNCC publicist

NNCC's free after school tutoring program for high school and junior high school students this year has an instructor/coordinator with many outstanding qualifications, but one, especially, was influential in her selection: She really likes kids.

Margaret (Peggy) Crawford will oversee the Abecedary Program at Northern Nevada Community College beginning this fall semester. She has been involved in education and with youth for many years, in many different areas, literally.

A world-traveler, fluent in five languages, Peggy arrived in Elko Jan. 1, 1985 with her husband, Jerry, and three children: Sean, age 15, Ian,

10 and Marie, 7. The family had come half-way around the world from their home in Indonesia (with a side trip to Australia and New Zealand) following a transfer with the Freeport Gold Mine. They had spent six years abroad, and traveled throughout much of the world.

Dust, even Nevada's, doesn't gather under Peggy's feet. While in Indonesia, she taught French for the International School System, and was a substitute teacher for grades K-12. After arriving in Elko she instructed English and writing classes at Northern Nevada Community College. Last year she was the detention teacher at Elko High School, and began her first year as director of the NIC Japanese student program, co-sponsored by the NNCC Chamber of Commerce, and Elko Rotary. She also instructed an eight-week writing course at Freeport Gold for upper level supervisors.

8/30/86 EOPF

Last week she finished her second year with the NIC Japanese student program while getting ready for her new position at the college. She manages to manage all her duties with effortless grace, finding time to run four miles a day on top of it all. She sees her position as Abecedary instructor/coordinator as a place to make a difference in the quality of life in America.

"I know it probably sounds real corny, but our kids are where the changes (in this country) are going to start. It's a tremendous responsibility to have a real hand in the molding and thinking of America's youth."

The tutoring program is especially dear to her heart, because, as she says, "you can see a lot of results".

She also believes self-esteem is closely related to learning, and vice-versa, and hopes her efforts, and genuine concern for young lives, will help her students grow in self-esteem as they succeed in their educational endeavors.

Being around kids comes rather naturally to Peggy, who grew up with 11 natural and two adopted brothers and sisters.

Education seems to come naturally for Peggy, too. She received her bachelor's degree from Clark College in 1968, her master's degree from Illinois State University in 1967, with doctorate courses in French language and literature. She has studied and taught abroad.

College offers some unusual fall classes

ELKO — Fall alternate registration at Northern Nevada Community College is scheduled Oct. 9 and 10.

The variety of subjects for the one-day seminars and weekly classes is eclectic, with something for everyone, the college says.

One of the perennial favorite being offered as a weekly class is handwriting analysis, taught by syndicated columnist and Elko resident Dorothy Jackson.

The two-credit class will meet Thursday from 7 to 9 p.m.

Mrs. Jackson is a well-known graphologist (hand-writing expert) who pens a column for the Copley News Service entitled "Your Handwriting Tells." The column is carried in more than 300 newspapers.

The instructor is a member of the International Graphoanalysis society, which is by invitation only. She is also an international staff instructor for the annual World Institute of Graphoanalysis.

Students in the class will study handwriting for the purpose of character analysis. Mrs. Jackson works with businesses nationwide, analyzing handwriting for job placement purposes.

Materials needed for the course can be purchased from the instructor.

Another fall alternate course being offered is a one-day, one-credit course of special interest to athletes, coaches, runners, and team managers.

The class, which will be held Saturday, Oct. 11 from 9 a.m. to 3 p.m., is entitled "Sports Massage" and will be taught by Jim Smith, a registered massage therapist from Reno. Smith says sports massage can help prevent injuries when used before a workout or competition. *Humboldt Sun 9-24-86*

NNCC Program Assists Dropouts

by COTY RAPOSA-FLOYD

Abecedary a-b-e-c-e-d-a-r-y, ad-jec-tive and noun, fundamentals, beginnings.

In the beginning, there was grade school, then junior high, and high school.

For some students, all went well. Facts were learned, retained, classes were passed and the years led to graduation.

For others, however, all did not go according to plan. High school classes stumped some, bored others. For myriad reasons, for

too many, the learning stopped there. They became another drop-out statistic in a state where the drop-out rate ranks it as one of the highest in the nation.

But Northern Nevada Community College is combatting that statistic locally through the Abecedary Program, a program of aid for possible or de facto high school drop-outs. The Abecedary program is, according to its creator Sharron Racine, "the kid-centered tutoring program with the unpronounceable name."

The program, which began two years ago, was initiated because "We saw there was a need. There were too many kids falling through the cracks," explains Racine, who holds a Master's Degree and has three children of her own.

Racine wanted the program to be free and accessible to all youths. Together with JOIN (Job Opportunities in Nevada), funding was obtained, classrooms were found at the college, tutors specially trained, and the doors opened.

There hasn't been a lack of students. According to Racine Elko High School administrators and teachers have been "wonderful," referring students who might be experiencing difficulties in one area, or more.

All basic skills are covered: reading, math, science, foreign languages. Tutors receive training in relating to high school, and for the first time this fall, junior high students.

But the success of this program is due to more than the specialized nuts-and-bolts tutoring.

For instance, students are TAUGHT to relax.

Racine explains, "Stress can begin for many students in first grade. All kids don't develop at the same rate. A child may have difficulty, not because they're not smart, but because their natural rate of development may be somewhat slower in their early years. So, a child may have difficulty reading in first grade. In second grade they're a "slow" reader, and the kids make fun of them. By the time they get to high school they can be such a mess (through stress) that they can't concentrate. They now have all the neutral abilities, but they're so stress-blocked, they can't absorb it."

So, one of the skills the Abecedary students are taught is stress reduction. Using clinical relaxing routines, subdued lighting and deep breathing — they remove the obstacles of the day, or week, or years, and are then more free to learn.

"For many kids, this is the only time they relax all day," says Racine.

Racine, who is now program coordinator, created the kid-centered tutoring concept, and mothered it through its first year. Last year Susan Conquest was the program instructor, and the success continued. This year's instructor is Peggy Crawford, whose enthusiasm and genuine affection for youth is praised by Racine.

This year Abecedary students are going to receive tutoring and instruction on painless ways to write what Racine dubs "the Dreaded Research Paper." Crawford's background in teaching writing will be a boon to this new emphasis.

Students entering the tutoring program are told early "This is not high school. You can behave and stay, or leave," says Racine. Because of this attitude, there are

CONTRACT—Elko's Canyon Construction Co. has been awarded a \$334,000 contract to build the proposed addition to the Elko County Library. The local firm was low bidder on the job, which will see creation of a new children's department and other facilities in the 58,000 sq. ft. addition. Shown left to right in the photo are: architect J. D. Long, Library Board Chairman Jackie Meeks, library director Hattie Gunn, and Pamela Lettin, representing the construction firm (staff photo by Colleen Mastor).

NCC 'American Utopias' lecture at noon tomorrow

Northern Nevada Community College's "American Utopias" lecture series continues tomorrow with a one-hour program entitled "Pass the Math-physics, Please."

The lecture, which is open to the public, will be presented by Dr. James Klewer, a professor of physics at the University of Nevada Reno where he has also served as chairman of the physics department. Dr. Klewer also has written numerous articles in his field and was a major proponent in Nevada's efforts to become the site for a nuclear super-collider.

According to the "Utopias" program coordinator, Sharron Racine, the presentation tomorrow will ap-

peal to a wide variety of persons. Dr. Klewer will discuss the new string theory of particle physics, a theory that "bridges the gap between theoretical physics and pure mathematics."

She observed, "Dr. Klewer has a great sense of humor, and can explain the unexplainable in a way anyone can understand."

The lecture is informal, and those attending were invited to bring along a sack lunch. The lecture will be held in rooms 6 and 7 of Lundberg Hall.

The "American Utopias" series is funded in part with a grant from the Nevada Humanities Committee.

Community ice skating class begins tomorrow

The Northern Nevada Community College community service classes for 1987 gets an early start with two weekend ice skating classes.

The Saturday afternoon classes begin tomorrow and continue Jan. 10. Instructor Jan Prumty says separate classes will be held for children six to 12, and another for teen-agers and adults.

Mrs. Prumty, an Ohio native, is an expert figure skater who skated in amateur ice skating shows in Sun Valley for six years.

Pre-registration for children is required as class sizes will be limited. Children's classes will be held from 12:30 to 1 p.m. and adult classes from

1 to 2 p.m. All classes will be held at the city park ice skating rink on 14th Street.

Registration for the teen-age and adult class will be held at 15 minutes prior to the class starting time.

Single blade skates are suggested for both children and adults. Class participants are urged to dress warmly.

The cost for the children's classes is \$15; teenagers and adults \$20.

For further information phone 738-0493 and ask for student services. Prumty said if there is interest she will continue to instruct ice skating on a private basis. EODFP 1-2-87

Karla Jones will teach a beginning leathercarving course at Northern Nevada Community College. Registration for it and other NNCC courses is scheduled Monday and Tuesday.

Karla Jones to teach NNCC leather carving

"Beginning Leathercraft" will be taught by Karla Jones of Eddie Brooks Saddlery through Northern Nevada Community College on Thursdays from 7 to 9 p.m. starting Feb. 5, said NNCC Director of Continuing Education Pat Warren.

Mostly self-taught, Jones has been carving leather for 20 years. However, she explained she has been getting intensified instruction daily at Brooks' shop, where she has worked for the last year and a half.

A native Nevadan, Jones' maiden

name is Allred. He was raised on ranches in McDermitt, Winnemucca and Paradise Valley and currently lives with her husband, Dick, on the family ranch in Carlin. They both train horses.

She will be teaching techniques used in carving leather purses, belts and wallets. Registration for the five-week, one-credit course at NNCC is set Monday afternoon. Further information is available at 738-8493, Warren said. EODFP 1-8-87

New horse production class offered at NNCC

"Horse Production," a two-credit class offered by Northern Nevada Community College, will feature Saturday field trips to area operations, including Suzie Creek Arabians; form-to-function conformation lectures; discussion of artificial insemination procedures; a hoof-care workshop with Evan Dodson; health

and nutrition lectures by veterinarians Boyd Sprattling and Steve Romeo, and other guest lecturers; according to instructor Pam Pantone. The course will emphasize breeding and marketing, but can cover other subjects of interest to specific students, she said.

Pantone is a Utah State University graduate currently living on the Harvey Barnes ranch in Jiggs, where her husband is employed. Her rodeo specialties include roping, goat tying and cutting. She also has worked with her grandfather, trainer Roy Ze Barth of Kimberly, Idaho.

Registration at NNCC begins today and continues tomorrow, Pantone pointed out, but she said students may also register for this class at its first meeting at 7 p.m. Jan. 20.

EODFP 1-12-87

College offers upper-class credit course

A college course covering Russian history, carrying graduate or upper-class-level credit, is scheduled at Northern Nevada Community College, according to Paul Billings, Elko community coordinator for the University of Nevada Reno.

Shelley Hanna will be teaching the course, which covers the history of Russia from the Napoleonic era to modern times. The course is offered by UNR's division of continuing education and will cost \$108 for undergraduate or \$123 for graduate credit. The course is titled "History of Russia" and will be conducted from 7 to 10 p.m. Thursdays, Jan. 22 through May 7 in room 17 of McMullen Hall.

Further information is available by calling Billings at 738-5196 or UNR's division of continuing education at 784-4046. EODFP 1-8-87

Leadership lecture series begins Jan. 29 at NNCC

A series of seminars focusing on the development of leadership skills, strategies and tactics begins at Northern Nevada Community College with "The Dynamics of Change," presented by Dr. John Chapel of the University of Nevada Reno Medical School.

This free lecture will be from 3 to 5 p.m. Jan. 29 in Lundberg Hall at NNCC, Room 6-7. Pre-registration is required by Jan. 28.

Chapel will discuss how leaders can deal with personal and institutional change.

NNCC is co-sponsor of the series with the U.S. Small Business Administration and the Nevada Small Business Development Center, explained Valerie Easterly of NNCC.

On Feb. 5, "The Making of Dreams," presented by Salt Lake City consultant Gary Acevedo, is designed to teach how to "turn worry, tension and anxiety into challenge,

accomplishment and satisfaction," Easterly said, "whether you are in business or community service or just interested in personal development."

This second-in-the-series, one-day, one-credit workshop runs from 10 a.m. to 3 p.m. at NNCC, and will cost \$20.

Exact dates and times will be announced later for the next three lectures, Easterly said, although topics have been chosen.

The March presentation, "Creative Negotiation," teaches how to identify one's own negotiating style and includes many "do's" and "don'ts."

The workshop in April is entitled "Interpersonal Skills: Conflict Resolution," and discusses dealing with difficult people.

In May, "Job Satisfaction" will be considered in helping managers motivate employees and themselves.

More information is available from Easterly or Pat Warren at 738-8493.

EDFP 1-17-87

First Aid classes slated at NNCC

Two 10-week American Red Cross first aid courses are offered this semester at Northern Nevada Community College, according to an NNCC spokesman.

"Standard First Aid" for one credit and "Standard and Advanced First Aid" for three credits will be taught Mondays and Wednesdays from 7 to 10 p.m. beginning Jan. 26.

Books and materials are \$12.50 for the standard course and \$26 for the combined course. Co-instructor Beth Anne Upshaw can be reached at 738-8729 and Daisy M. Shearer's number is 738-9783.

The first three weeks of the course is "basic first aid," Upshaw explained, and the one-credit course ends then. Those who complete that receive a standard "first aid card" and a "one man CPR card" from the Red Cross. Those who stay the full 10 weeks receive an "advanced first aid card" and a "one and two man CPR card," she said.

Pre-registration is possible today until 8 p.m. in the NNCC library.

EDFP 1-13-87

EDFP 1-27-87

The "Leadership Series" at Northern Nevada Community College begins with a lecture to be delivered by Dr. John Chappel of the University of Nevada medical school, reminds Val Easterly of NNCC. Entitled "The Dynamics of Change," this free lecture is slated for 3 to 5 p.m. Thursday in rooms 6 and 7 Lundberg Hall.

NNCC plans workshop to explain financial aid

1-31-87

EDFP

Financial Aid Awareness Week, Feb. 9-14, is a project of the Nevada Association of Financial Aid Administrators (NAFAA), a non-profit professional organization, reports Joan Nivens, Northern Nevada Community College director of financial aid. NAFAA members represent post-secondary educational institutions, lending institutions, government agencies, and individuals in Nevada, she explained.

Many people do not plan for education beyond high school because they are unaware of resources available to them for education and training, Nivens noted. Others are unable to obtain a career advancement or do not consider a career change because they lack proper skills. Without awareness of financial aid programs available to assist them, their career goals may never be attained.

Student aid programs for post-secondary education can be confusing and the application process may seem complicated, Nivens noted. There are federal, state and institutional student aid programs. She explained financial aid comes in different forms, such as grants, employment, and sometimes it is a loan which must be repaid.

To give information on financing postsecondary education, NAFAA has named Feb. 9-14 as Financial Aid Awareness Week in Nevada. The

week is designed to offer a public service to students, parents, educators, and the community by creating awareness about Nevada's student aid programs and funds which provide access to education and training beyond high school.

Nivens, president of NAFAA, and director of financial aid at Northern Nevada Community College, will hold a free public workshop from 7-9 p.m. Wednesday, Feb. 11. More information is available by calling her at 738-8493.

NNCC slates tax course for ranchers

EDFP 2-6-87

A free class on "Income Tax Preparation for Ranchers and Farmers" on Saturday, Feb. 21, from 9:30 a.m. to 3 p.m., is being sponsored by Northern Nevada Community College and the Nevada Small Business Development Center in NNCC's Adult Learning Center.

Eric Easterly, a local attorney with a tax law specialty, will conduct the class. Topics are "allowable expenses," "non-deductible items," "analysis of depreciation," "investment credits," "gains and losses" and "exchanges, etc." The class will cover preparation of 1986 income tax returns as well as changes for 1987.

Although the class is free, pre-registration is required. Further information is available from Louis Horton or Valerie Easterly at 738-8493.

EDFP 2-6-87

Staff members of Occupational Education Outreach, a federally funded pilot program inaugurated earlier this month at Northern Nevada Community College, are Susan Conquest and Mark Gunson.

Outreach pilot program launched at Elko college

EDFP 2-21-87

Occupational Education Outreach (OEO) is a federally funded pilot program that began this month at Northern Nevada Community College with a Feb. 9 orientation day for students of five Elko County high schools.

Designed to recruit students for Northern Nevada Community College's one- and two-year occupational programs and to improve those programs, OEO will distribute information to high school students and their teachers about NNCC's 23 occupation-education programs including nursing, agriculture, automotive and diesel. OEO will also try to improve communication between high schools and the college and job training agencies.

Staff member Susan Conquest is a graduate of Northern Michigan University, has worked three years with NNCC's Adult Basic Education pro-

tutoring program for "at-risk" high school students.

The other staff member, Mark Gunson, graduated from Fort Lewis College in Colorado and is currently a part-time NNCC instructor. He is also involved in the tutoring program.

Gunson and Conquest plan to produce a booklet and video about NNCC and hold conferences with high school administrators, counselors and vocational instructors.

They will travel to the college's service area communities — including Battle Mountain, Winnemucca and Austin — take information about NNCC to prospective students and return with suggestions made by those community members to college personnel.

4 ELKO DAILY FREE PRESS, Elko, Nevada Tuesday, February 24, 1987

Registration for Camarillo cutting clinic due Friday

Registration for a Sonny Camarillo cutting horse clinic at the Spring Creek Horse Palace must be made by Friday at the regular registration for alternate semester classes, according to Pat Warren, head of continuing education at Northern Nevada Community College. Only 12 students will be accepted, she said.

Dates have been changed to April 4 and 5 from 9 a.m. to 4 p.m. instead of the dates listed in the NNCC catalog. Each day's fee is \$20 per semester-hour plus \$25 cattle and arena charge, a total of \$45. Cost of participation for both days is \$90, and spectator fee each day is \$10.

From the famous rodeo Camarillo family, the instructor is brother to "Reg" and cousin of Leo, both well-known ropers. He, too, is a competent roper as well as trainer of snaffle bit futurity and cutting horses.

This clinic is designed to teach the mechanics of the sport, so Camarillo will not dwell on training methods. He

wants to explain certain showmanship skills, help horsemen to refine their cutting techniques and expand their knowledge of National Cutting Horse Association rules.

Each rider will learn herd holding and turn back responsibilities in addition to cutting methods under Camarillo's scrutiny. To ensure plenty of individual attention, only 12 cutters will be accepted. They need not be mounted on finished horses, but no training instruction is planned, Warren said.

She emphasized that although late entries have been allowed in NNCC cutting clinics in the past, there will be positively no late registration this time. She said registration will be on a first-come, first-served basis.

Before the clinic, participants will receive a copy of NCHA rules. She added spectators need not register early. Further information is available from NNCC at 738-8493.

Cutting clinician Sonny Camarillo of Le Grande, Calif., cuts on Doc's Misconduct at the 1985 Oregon Cutting Horse Futurity. Camarillo will conduct a cutting clinic April 4 and 5 through Northern Nevada Community College.

NNCC's Utopia Series

Northern Nevada Community College's American Utopia Series will continue with four additional noon-hour programs about communes and alternate-lifestyle societies, reports Sharon Racine, organizer.

Dr. Wilbur Shepperson of the University of Nevada Reno history department is slated to speak next Tuesday, March 17, in the college library. He will discuss the "Retreat to Nevada" by socialist communes. Shepperson has authored a book on a colony founded near Fallon in the early part of this century, Racine noted.

Beverly Roesch is the speaker scheduled March 26 in Room 6 at Lundberg Hall. Racine said Roesch will talk about the Builders, a society that owns the Big Springs Ranch and small store in Oasis. The Builders also have several stores in Salt Lake City, Racine added.

Lamolle resident Owen Ulph taught on the college level in Cal-

ifornia during the 1960s and states his interest was captured by the Charles Manson Family. Manson is serving a sentence of life imprisonment for organizing a series of murders in California. "It was one of the most significant affairs that occurred — the Manson family was an aborted utopia," Ulph said, adding, "The shocking aspects carried people away from the whole point." Ulph said he would explain the social and historical significance of the Manson Family — ramifications that have been overlooked. Ulph will present his April 8 lecture in Room 6 at Lundberg Hall.

A program to be presented by Shelley Hanna is entitled "Where are the Plains of Yesteryear." Hanna completed graduate study of the plains area in the 1940s and became acquainted with people who had settled there as well as with the Plains Indians, Racine reported. Hanna's program will be April 22 in the college library.

The series is being sponsored through a grant from the Nevada Humanities Committee, Racine said.

More than 70 people attended the American Utopia Series program about the Meta Tantay group near Carlin, Racine noted. She invited the public to the series, "Bring lunch — be edified and entertained."

We can help...

Listen to a panel of WINNERS! A panel of successful home based persons will be available for your questions.

Wednesday, March 18 9:00 a.m. until Noon
NNCC Room 6/7

The Nevada Cooperative Extension and The Nevada Small Business Development Center (NNCC) and the U.S. Small Business Administration are sponsoring a workshop to help you.

Guest speakers from the University of Nevada Reno, the Nevada Cooperative Extension, and local professionals will discuss

- Personal Considerations When Starting a Home Based Business
- Licensing and Regulations
- Insurance Considerations
- Business Planning
- Accounting Consideration

COST: \$10.00 (Materials Fee)

REGISTRATION IS REQUIRED BY
MONDAY MARCH 16. PLEASE CALL THE

Seminar on market data slated at NNCC Tuesday

"Turning Ideas Into Dollars" is the title of a seminar sponsored by Nevada Small Business Development and scheduled from 2 to 5 p.m. Tuesday at Northern Nevada Community College.

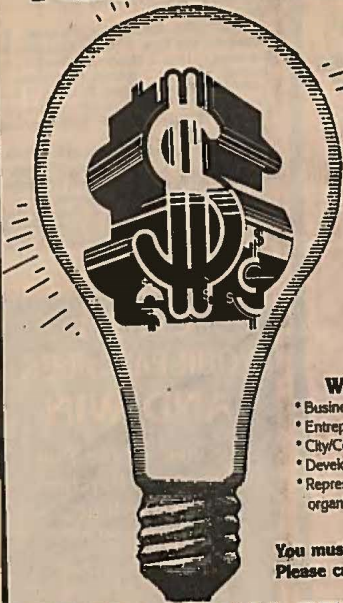

Understanding the market for ideas, services and products can help increase almost anyone's success, according to Larry Hartke, who will conduct the seminar.

Hartke, of the U.S. Bureau of the Census, says "census data can be a powerful tool for businesses and organizations." Business owners, city and county planners, members of civic groups and others can benefit by learning marketing and advertising

strategies, Hartke continued. The bureau is part of the U.S. Department of Commerce, and can provide information on locating a business, making profitable inventory decisions, defining sales territories and learning about customers.

Materials for the seminar will be free, but attendance will cost \$10. Checks should be made payable to the Board of Regents and those wishing additional information or to reserve a place for the class may call 738-8493, ext. 245. The seminar is being co-sponsored by the small business center, the University of Nevada Reno and the commerce department.

TURNING IDEAS INTO DOLLARS

TUESDAY, APRIL 21, 1987

2:00 P.M.-5:00 P.M.

NORTHERN NEVADA COMMUNITY COLLEGE

COST: \$10.00 (Materials Fee)

PRESENTER: LARRY HARTKE
BUREAU OF CENSUS

HOW DO YOU DO IT? You begin by understanding your market. You can understand your market by obtaining and analyzing census data. Census data can be a powerful tool for businesses and organizations. Those who overlook the key data resources available to them are missing what would be a vital part of their success.

Who Should Attend:

- Business Owners/Managers
- Entrepreneurs
- City/County Planners
- Developers
- Representatives of nonprofit organizations

You Will Learn To:

- Effectively locate your business
- Decide what inventory is most profitable
- Define sale territories
- Analyze your trade area
- Design marketing and advertising strategies

You must pre-register.
Please call Valerie Easterly at 738-8493, ext. 245

'Creative negotiation' next leadership lecture

EDFP 4-18-87

Northern Nevada Community College and the Nevada Small Business Development Center continue their joint "leadership series" with the program, "Creative Negotiation," April 30 from 3 to 5 p.m. at the college.

The director of social work from Benchmark Regional Hospital in Salt Lake City, Barbara Jones, will present a program in which individuals can assess their own negotiating styles, strengths and skills. She will discuss the practical "do's" and "don'ts" of negotiating, understanding the use and abuse of power, and many strategies, tactics and

"counters." This program is designed for business owners or managers, personnel directors, managers or supervisors of governmental agencies, professionals, teachers or others who regularly deal with people.

Program cost is \$5 with registration required by April 28 at the college, 738-8493, ext. 245. (Ask for "Valerie" or "Rita.")

Last of the leadership series, "Job Satisfaction/Conflict Resolution," is set for May 6, according to a spokesman for NNCC.

Small Business center offers marketing class

Nevada Small Business Development Center and Elko Chamber of Commerce are co-sponsoring the second in a series of marketing programs April 21 from 2 to 5 p.m. at Northern Nevada Community College.

In "Turning Ideas Into Dollars," Larry Hartke of the Bureau of the Census will discuss how to understand what a market is by obtaining and analyzing available census data. The program will help students understand where to locate a business, define the sales territories, decide what inventory is most profitable and obtain information to help owner/managers, entrepreneurs, city and county planners, developers and representatives of non-profit organizations.

Cost of the class is \$10 and pre-registration is required by April 20 at 738-8493, ext. 245. EDPF 4-13-87

Special classes noted on NNCC spring slate

Charles Greenhaw, dean of instruction at Northern Nevada Community College, today called special attention to two classes being offered during registration for the spring alternate schedule at the college.

Registration is being conducted today, until 8 p.m., and will continue tomorrow from 8 a.m. to 5 p.m.

Greenhaw pointed out a number of courses are being offered on the spring schedule, but he placed special emphasis on a natural resources tour slated in mid-May and a nursing assistant class that will start a six-week run on March 3.

Louie Horton of the college faculty said the May 14-17 tour will provide an opportunity for students to see a variety of wildlife during a camping trip through southern Idaho and to the Jarbridge area of northern Elko County. He said Idaho stops are planned at the Minidoka Wildlife Refuge near Buhl and the Hagerman Fish Hatch-

ery. *EDFP 2-26-87*
Those making the tour in a college van will camp out for three nights and enjoy cooking over an open fire, Horton reported. He said Carol Evans will coordinate the tour, those enrolled will be expected to provide their own sleeping bags and more details will be provided at registration.

Greenhaw said the nursing assistant class will be designed to provide "immediate employability" for those who complete the course of full-time instruction under Donna Hart. Certification will be provided for class graduates, and job opportunities will be identified at several local health-care facilities, including Ruby Mountains Manor, Elko General Hospital and the state home-health program.

Nursing assistants are trained, he explained, to work with registered nurses in providing care for ill and elderly patients.

Dr. Lewis to present cancer awareness class

Dr. Calton Lewis will present a cancer awareness class Thursday at Northern Nevada Community College, Peggy Crawford of the Elko Branch of the American Cancer Society reported.

The session is scheduled at noon in Room 6 in Lundberg Hall and Lewis will discuss colorectal cancer, Crawford said. His presentation will be the second in a six-part series coordinated by the cancer society for the NNCC wellness program, Crawford added. The college frequently schedules "brown bag lunch" courses such as the cancer awareness program. Each of the classes is free and the public is invited to bring a

sack lunch. *EDFP 3-10-87*
The next brown-bag wellness program will be a March 19 seminar on breast cancer presented at noon in Room 20 of the McMullen Building by Drs. Roy Jones and Chris Ward.

Those interested in joining or learning more about the cancer society are invited to attend the group's next monthly meeting, Jewell Hanna reported. It will be held at 7 a.m. Thursday in the old junior high building on the Elko High School campus, she reported. The agenda includes planning the Elko Crusade — the cancer society's annual fund raiser. The Crusade is scheduled in April, Hanna noted.

College slates skin cancer talk tomorrow

Skin cancer and its prevention will be discussed by pathologist Dr. George Manilla at a noon-time meeting tomorrow at Northern Nevada Community College. *EDFP 4-20-87*

Manilla reports skin cancer is more prevalent in high desert areas and the number of cases of malignant melanomas — called "black moles" by some — has been increasing.

With the arrival of spring, more people are going out into the sun and should use caution, Manilla added. He said he will explain the reasons for greater numbers of skin cancer cases in areas located at high altitude and will offer low-cost suggestions for protection against sun damage.

Peggy Crawford of the Elko Branch of the American Cancer Society notes the skin cancer seminar will be free and will begin at noon in Rooms 6 and 7 of Lundberg Hall.

The branch has been organizing seminars about easily preventable or treatable cancers, Crawford said, adding material produced by the national cancer society is made available to local medical experts conducting the classes.

NNCC free lecture slated Wednesday

Feb 25 87
The Great Basin Lecture Series presented during the lunch hour at Northern Nevada Community College continues Wednesday with a free slide show titled "A Natural History of the Ruby Mountains" in Lundberg Hall, room 6-7.

Physical science instructor Mike McFarlane and Mark Ports, NNCC Life Science instructor, will illustrate and discuss types of rocks, glaciation and development of the Rubies' unique geologic features.

Four major plant and animal communities that inhabit the range today have been observed and recorded by Ports, who will share his observations and slides.

"The Ruby Mountains are well known to the people of northeastern Nevada as a favorite recreational area," Ports said. "The program will show a different side of this mountain range. It's free! Bring a sack lunch and a friend."

EDFP 3-10-87
Separated, divorced and widowed support group will meet Thursday at 12 noon at Thomas Hall. Brown bag lunch with drinks and dessert provided. Georgia Hemsley, Director of the Single Parent Center at NNCC will conduct a panel discussion on "Living Alone and Liking It." Babysitting will be pre-arranged by contacting Joy Larson. *EDFP 3-10-87*

Lung cancer seminar set Thursday at NNCC

Smoking and lung cancer will be the topics of discussion during a Northern Nevada Community College "brown bag" lunchtime seminar Thursday, Peggy Crawford reports. *EDFP 3-24-87*

Terry Armstrong, supervisor of nurses at Elko General Hospital, also will show how a breath analyzer is used to determine patients' lung capacity, Crawford said. His class will be conducted in Room 20 of Lundberg Hall at the college from noon until 1 p.m., she added. Those attending the free college-sponsored sessions are welcome to bring a lunch and may enter late or leave early if they are unable to be present during the entire hour.

Crawford has helped organize free cancer awareness classes at NNCC and for civic groups throughout the area. Informative films and slide shows are available through the Elko Branch of the American Cancer Society and several medical authorities such as Armstrong and Dr. George Manilla, pathologist, have agreed to answer questions raised by those attending the programs. Those interested in having a presentation arranged for their club or organization may contact Crawford by calling 738-9493 during the day.

Bev Hitchman, a state officer of the cancer society, noted the Elko Branch has a memorial fund. Those wishing to make a donation to further cancer awareness and research may address

inquiries or make donations to the Elko Branch, American Cancer Society, P.O. Box 648, Elko, Hitchman reported.

NNCC software class set May 1

Northern Nevada Community College and the Small Business Development Center are co-sponsoring a software class called Introduction to MS DOS. The class was designed for the business community and is slated from 1 to 3 p.m. May 1 in the NNCC computer lab.

The class will give the new computer user a quick introduction to the DOS operating system. Karen Temple of the NNCC computer staff will cover a variety of topics including formatting disks and copying, erasing and printing files.

Enrollment will be limited and pre-registration for the \$5 class is required at the college by April 29. Those interested in registering can call NNCC at 738-9493, extension 245. *EDFP 4-20-87*

Community college offers jumping school in Spring Creek Palace on June 20

ELKO — Northern Nevada Community College will offer a jumping horse clinic Saturday, June 20, from 8 a.m. to 5 p.m. at the Spring Creek Horse Palace.

Lynn Lloyde from Reno will be the instructor. An accomplished equestrian, she has trained jumpers

in England and Australia.

Designed for beginning through advanced riders, the clinic will help students and their horses improve their riding skills and jumping techniques. Schooling horses will be available with an advance request.

Cost for the clinic is \$35 with a special reduced rate for 4-H members. There will be a \$5 spectator fee. A hunter-jumper show is scheduled the following

day.

Humboldt Sun
6-5-87
Preregistration is recommended. Call student services at 738-8493, days, or Sandy Drake at 738-7878 evenings for information.

NNCC horseshoeing class starts Monday

Evan Dodson is scheduled to teach a five-day horseshoeing class Monday through Friday next week at Northern Nevada Community College, according to Pat Warren, NNCC director of continuing education.

Warren said students may sign up Monday morning in the shed north of the college sheep pasture across from the Elko County Fairgrounds where the class will be held. One credit for \$20 can be earned for any single day's participation, but three credits for \$60 will be given those who attend all five days from 9 a.m. to 4 p.m. Students may bring their own lunches although a sandwich wagon will visit at noon each day, she said.

Dodson, a Miles City, Mont., native has been shoeing horses in the Elko area for three years and professionally for 42 years. During the last 30, he has taught courses for Montana State University at Bozeman and conducted several of his own schools.

Horseshoeing has supplemented his earnings as a rancher, ranch manager and rodeo cowboy. Dodson bulldozed and rode saddle broncs for 18 years.

He and his wife, Donna, have four grown children, most of them in Montana, and four grandchildren.

This is the first time NNCC will have a week-long Dodson clinic although he has conducted several day-long classes in Elko, Battle Mountain, Round Mountain, Winnemucca and Eureka. In March, Dodson will teach again in Winnemucca and Eureka. Some students who have previously attended there are enrolled in this course as well.

During the Monday orientation, horse handling will be discussed, Dodson explained. On Tuesday, he

EODP 2/7/87

will demonstrate hot shoeing using a horse with behavior problems as well as shoeing problems. After that, two hours every morning will be devoted to review before new material is covered, and students may bring their own animals to work on.

"Only basic shoeing will be covered," said Dodson, adding that corrective shoeing is beyond the scope of this class.

Further information is available from Warren at 738-8493.

NNCC offers Shiatsu

Northern Nevada Community College will offer a one-day workshop on Shiatsu — oriental massage — on Saturday, from 9 a.m. to 4 p.m. Shiatsu is an increasingly popular form of massage that employs the principles of acupressure to improve circulation, promote relaxation and reduce stress and muscle tension. Instructor Jim Smith is a certified massage therapist from Reno.

Participants will learn the principles of Yng and Yang. There will also be a discussion of anatomy, demonstrations of various massage techniques and actual practice sessions. Students are asked to wear loose comfortable clothing and bring pillows and a blanket to class.

Jim Smith's Shiatsu classes have been extremely popular at NNCC in Elko and at the YMCA in Reno. Enthusiastic students have reported relief from migraine headaches, chronic lower back pain, athletic muscle strains and claim Shiatsu massage is a wonderful way to relax after a hectic, stressful day.

Additional students may register at the class located at the Mt. Wheeler Conference Room. Cost for the one credit class is \$20. You may

call Peggy Hogan at 289-3589 between 8 a.m. and 12 noon, for more information.

Immigration Laws Are Topic Of NNCC Business Class

Valerie Easterly of the Nevada Small Business Development Center reminded community businesspeople this week that a class dealing with changes in immigration laws and their effect on local business will be held Tuesday, Feb. 17 from 7-9 p.m. in Room 1 of Northern Nevada Community College's Lundberg Hall.

Dave Littlefield, a Salt Lake City attorney specializing in immigration, will instruct the free seminar. Anyone wishing to attend is urged to contact Easterly at 738-8493, extension 245.

NNCC slates May 2 trip to Ruby Marshes

EODP 4-20-87

A Northern Nevada Community College field trip to Ruby Lake Wildlife Refuge is scheduled May 2 as the first of three to be offered jointly by the science and agriculture departments for the study of natural resources in eastern and northeastern Nevada.

The Saturday trip from 7 a.m. to 9 p.m. includes a tour of the refuge and Gallagher Fish Hatchery, opportunities for bird watching, nature photography and discussions on topics such as the Peregrine falcon release program and management practices for waterfowl. Pre-trip class at NNCC is scheduled April 29 from 7 to 9 p.m.

A one-night camping and backpacking trip to Island Lake in the Ruby Mountains July 25 and 26 will include opportunities for nature photography, wildflower identification, invertebrate ecology, ecology of the mountain goat and other game animals and discussions about wilderness and range and game management. Participants must be in excellent physical condition and attend a pre-trip class at NNCC July 21 from 7 to 9 p.m.

Camping and hiking in the Great Basin National Park, including Wheeler Peak in the Snake Range, will take a three-day weekend Aug. 14-16 and a pre-trip meeting at the college Aug. 10. Students will spend

Friday night in Ely.

This trip will entail two- to three-mile daily hikes up to the bristlecone forest, a look at alpine and subalpine communities and a visit to Lehman Caves. Study topics are small mammal ecology, range plants, hydrology, geology, park management, recreation and range management.

The college says all trips are designed to provide students with appreciation for the diverse ecosystems of the Great Basin, give an introduction to local plant and animal communities and foster an awareness of natural resources and problems that surround them. Trips will be led by college instructors and local resource managers.

NNCC's ag department offers a two-year program in "natural resources," and those who think they may be interested in the field would profit from these trips, said Louis Horton, head of the department of agriculture. He added public school teachers might also find them a useful source of information for classroom use.

Registration at the college should be made soon for the May 2 trip, but there will be summer registrations for the others. One undergraduate credit can be earned in each of the first two trips, and two credits are offered in August.

Further information is available at the college, 738-8493.

EDFP 5-19-87

Bill Morris, reader, and tutor Norma Moody.

Grandfather Bill Morris learned to read this year

Bill Morris, a 65-year-old Carlin grandfather and Southern Pacific Railroad retiree, decided in November to attend the 20-year-old federally funded Northern Nevada Community College Adult Basic Education program and learn to read and write. By February, he wrote his first word — marsh — (he is an avid fisherman) and in April he was able to write a letter to son Richard, who lives in Elko. "The letter affected me like nothing ever has," said Richard,

who had known what his dad was attempting. "I didn't realize he had come so far. I'm really proud of him."

Peggy Crawford, head tutor of the NNCC program, said Morris attended class for 238 hours for two semesters and that his progress has been "amazing." He was tutored from 9 a.m. to noon Mondays through Thursdays and from 1 to 4 p.m. Tuesdays and Wednesdays, seldom missing a day. Besides the 18 hours a week at the college, Richard Morris reports his dad studies at home regularly, finally finding use for the prescription glasses he's had for years. Sometimes he calls his son in the middle of the night to ask about a word he can't decipher.

Tutors have included Norma Moody, Jackie Banghart, Beth Upshaw, Gail Noel, Sue Jones and Crawford, who says Morris can now study independently for up to two hours.

Eleven years old before he started to school in Birmingham, Ala., Morris was enrolled with one of four younger brothers. Four and a half years later, when that brother was in the sixth grade and Morris was still in third, he quit and went to work picking up scrap paper to be sold for recycling. He earned \$1 a day.

Morris arrived in Elko as a railroad employee Oct. 14, 1947, after five years of California defense plant jobs. His wife, Casino (called "Cassie"), whom he married in 1949, died in January of 1966.

"This was the hardest thing my dad ever had to go through," said Richard

Morris, explaining how close his parents had been — for Cassie was not only a good wife, she was interpreter of the written word for her husband. Every evening she read the newspaper and the mail aloud, paid all the family bills and kept Morris aware of coming events.

"It was important to both my parents that I become a good reader," said their son, who was an above average student in the Carlin schools as well as an athlete. He attended Northern Nevada Community College and the University of Nevada Reno. "I think my mother wanted to be sure I would read to my dad when she was gone," he said.

His dad had never tried to hide his illiteracy, so secretaries at work read the forms aloud. Morris supplied answers for the blanks and signed the paper work, except for the figuring. "He is really good at math," his son said. "In fact, he can do just about anything. I was always proud of him and it never bothered me as a child that my dad could not read."

During the past year, Richard Morris and his wife, Denise Aguirre, have read the Bill Morris mail so bills could be paid. They took over his banking chores and read the newspaper aloud, but that could not be daily. Frustration mounted, and one day "I just made up my mind to do it," said Bill Morris.

Among the accomplishments of the elder Morris is his ability to speak fluent Spanish.

He has a phenomenal memory, said Crawford. "In fact that's one of the great disagreements we have. Bill thinks he can memorize every written word in the English language as he has memorized spoken Spanish words, but I insist that he use the phonics he has learned," she said. "I make him sound out the difficult ones."

Working with this "most faithful student" has made Crawford aware of how illiterate people use other senses such as touch and smell. He is much more observant, she noted after she had accompanied her student to the grocery store. He was able to identify the contents of cans by shape, size, color and heft. "I have learned a lot from Bill," she said, and claims she will be a better teacher for her association with him.

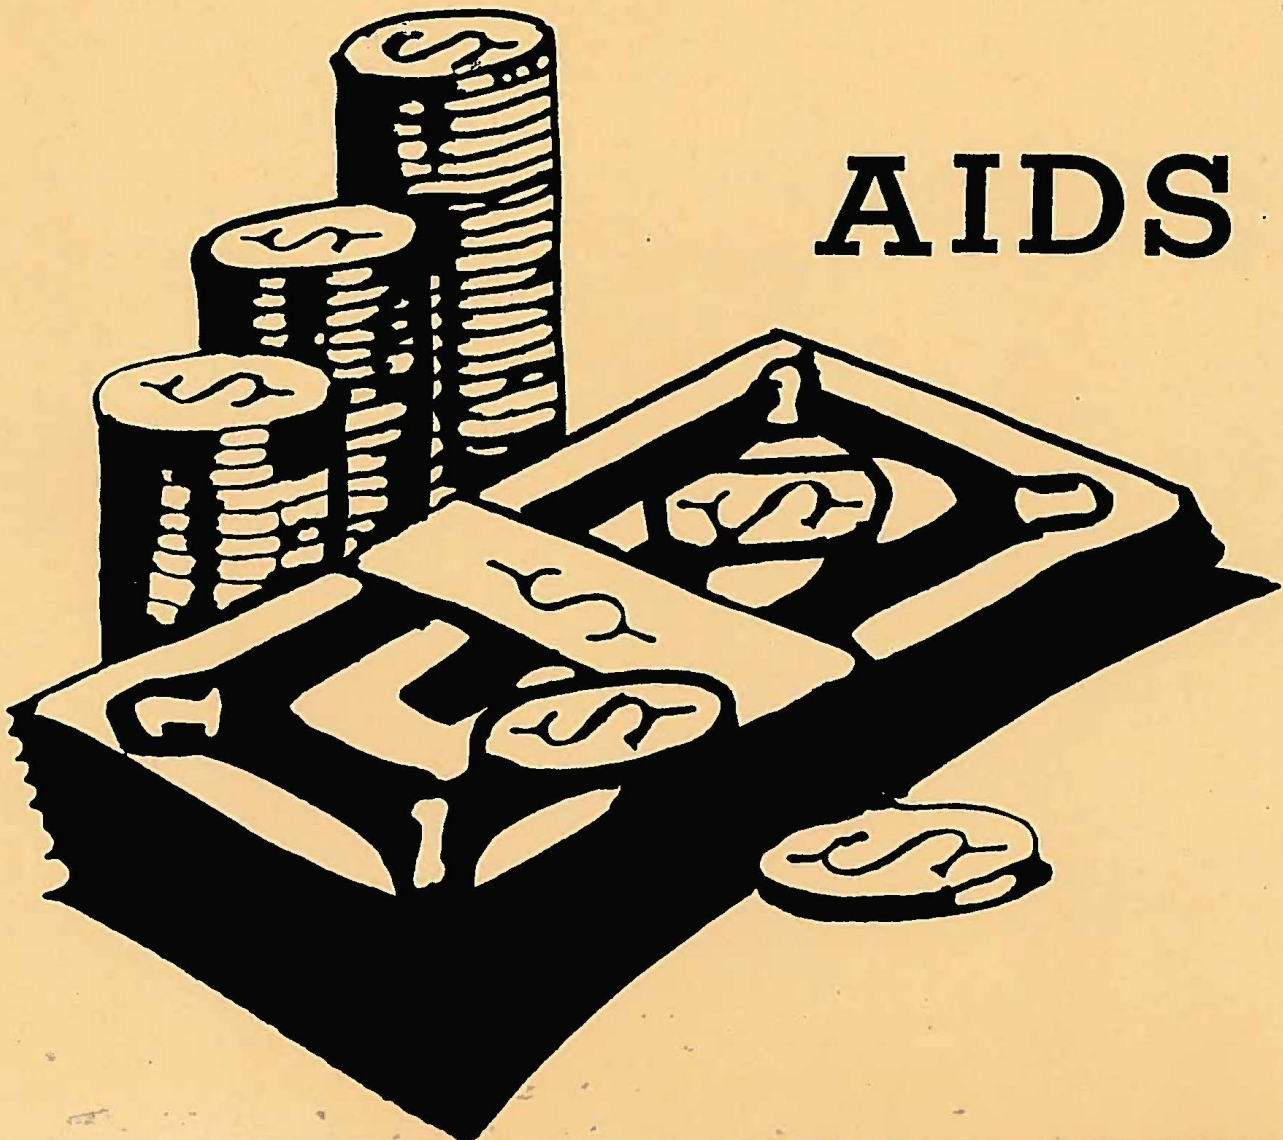

Already Morris is more independent. He makes his own bank deposits and pays bills without help.

He says he'll be back at NNCC reading full time in the fall, and although Crawford has arranged for a summer tutor a few hours a week,

UNR increases scholarship grants

RENO (UNR) — Scholarship money available at the University of Nevada Reno during 1984-85 reached nearly \$1.4 million, according to a report issued by the UNR Scholarship and Prizes Board in December of last year. Scholarships that were annually paid and those that were funded by endowments totaled a record \$1,368,190 for the academic year.

"This total not only marked the third consecutive year that scholarships at UNR exceeded the million dollar mark," said Dr. Robert McQueen, chairman of the scholarship and prizes board, "it also marked the all-time high in total scholarship awards granted at UNR. It exceeded the amount awarded in 1983-84 by more than \$250,000 — equalling a full 22.6 percent gain in a single year."

Scholarship money available at UNR in 1983-84 was \$1,116,072. The previous high was 1982-83 when the figure topped \$1,178,772.

Other UNR records set last year:

— The number of scholarships offered was 2,045, a full 110 scholarships more than the previous record of 1,935 reached in 1982-83.

— The percent of UNR's student body receiving scholarships was 28.95 percent, up from the previous mark of 27.34 achieved in 1980-81.

— The average value of a UNR scholarship rose to \$669, up from the previous high of \$606 in 1983-84.

There were 284 annually paid accounts and 102 endowed accounts for a total of 386 funding sources. The report noted that the largest single endowment at UNR continues to be the Bob Davis Scholarship Fund which provided \$269,675 to 539 students.

"Scholarship programs, in the final analysis, grow out of the kindness and generosity of donor groups and individuals," said McQueen. "Certainly, UNR can take immense pride in its

ever-growing numbers of dedicated friends and supporters who each year quietly and without fanfare contribute to the education of our students."

The issuing of the 1984-85 report marked the end of an era for McQueen and UNR. The psychology professor, who had been at the university since 1965 and who had headed up the scholarship office since 1967, announced his retirement effective in June of 1986.

In his 28 years as head of the office, McQueen saw annual scholarship funds grow from \$17,125 to nearly \$1.4 million; the number of student recipients from 71 to 2,045. Another benchmark was the increase in endowed funds. These monies, which are derived from the interest on an original gift and thus are self-perpetuating, have risen from nine to 121.

"Many of those endowments have already paid out more money than the original endowment was worth," said McQueen, "and the original endowment is still there."

For much of his career, McQueen's was a one-man operation, receiving full-time secretarial support only two years ago. In addition to overseeing the scholarship fund, McQueen organized the Honors Convocation, an annual spring rite that saw UNR's best and brightest students and faculty honored for academic and research achievements. Finally, McQueen also taught classes every semester. But he is convinced his juggling of duties made him a more effective scholarship chairman.

"I think the one thing that gave me entree into offices, boardrooms and homes was the I wasn't a clerk-administrator," said McQueen. "I was a University of Nevada Reno faculty member. I think people saw me as someone in the academic

educational mainstream. When I taught those classes of 300 general psychology students every fall, I was teaching students who had received these scholarships. I think that feature ought to be continued."

McQueen reflected on his career at UNR.

"I came here as a professor of psychology and I'd like to think that I will be remembered in part as that,"

said McQueen. "However, I realize that I am known as much by the fact that I have been engaged in recruiting scholarships, and that is equal important to me."

"I find nothing more gratifying," he added, "than to talk to someone and realize that either now or sometime in the future that conversation brings UNR a new scholarship. That is real exciting."

Shields: Shelly Simmons, daughter of Mr. and Mrs. Melvin Simmons was named as the annual Amy Shields Memorial Scholarship recipient. This scholarship is awarded to an EHS student planning to study in health occupations, who best demonstrates the qualities of profession ability, compassion for those in need and pride in the medical profession. Simmons plans to study nursing at NNCC. The award was made possible by the Elko Clinic in remembrance of Amy Shields. Don Lake, administrator at the clinic, presents award to Simmons. (EHS photo)

Scholarship: Bob Miller, Clark County district attorney, has donated a general scholarship to Northern Nevada Community College for the 1986-87 school year. Miller presented the \$300 donation to Joan Nivens, director of financial aid at NNCC and president of the Nevada Association of Financial Aid Administrators (NAFAA), at the recent NAFAA meeting in Reno at which Miller, a candidate for lieutenant governor, delivered the keynote address.

NNCC: Northern Nevada Community College Scholarships and Awards Committee announced 1986-87 scholarships awarded to 1986 graduates of Elko High School. Ketan Bhakta, son of Mr. and Mrs. Ishver Bhakta, and Joyce Lowery, daughter of Mrs. Claire Williamson, were each awarded a Lions Club Scholarship; Shelly Simmons, daughter of Mr. and Mrs. Melvin Simmons, was awarded the CP National Scholarship; and Noel L. Bondo, daughter of Mr. and Mrs. Lynn Bondo, was named to receive a NNCC Agricultural Scholarship. Pictured, from left, Ketan Bhakta; Joan Nivens, director of financial aid and scholarship chairman at NNCC; and Shelly Simmons. (NNCC photo)

Scholarship: Loretta Dixon (center) was awarded a \$750 continuing education grant recently by the local Philanthropic Education Organization sisterhood. Also shown are PEO member Jackie Banghart (left) and Chapter President Mollie Keller. Dixon is a student enrolled in the Northern

Nevada Community College licensed practical nursing program. Continuing education grants are made by PEO to assist women in need of training to return to the work force. The training may be either academic or vocational.

EDFP 1-7-87

NNCC scholarship deadline set March 13

EDT 1/24/87

Joan Nivens, Northern Nevada Community College director of financial aid, advises students planning to enroll for the 1987-88 school year that March 13 will be the priority deadline date to apply for scholarships. Only one application, which is applicable toward all categories, is necessary to complete.

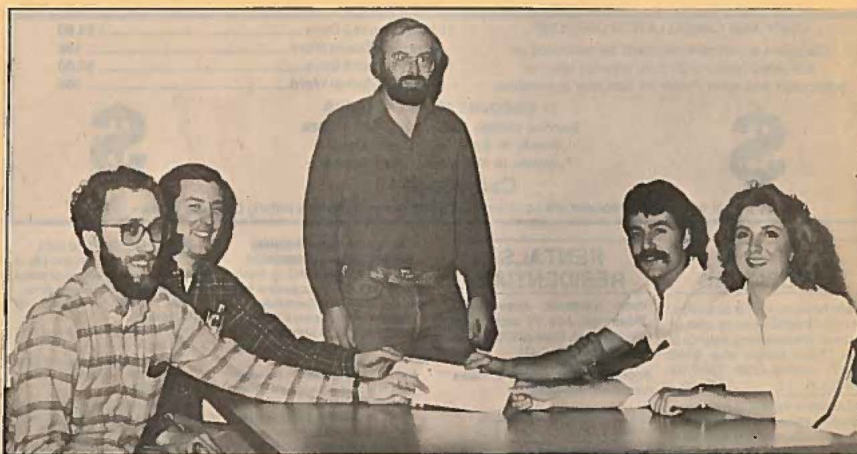

The selection of recipients will be done March 27 by the NNCC Scholarship Committee with a banquet honoring both scholarship recipients and donors tentatively planned for April 24.

NNCC scholarships vary in terms of the requirements and dollar amount for each award. Always important is a grade point average of at least 2.0. All NNCC areas of study have scholarships available. These areas include; agriculture, automotive mechanics, art, business, diesel mechanics, early childhood education, mining technology, nursing and arts and science. General scholarships are also available for student who have not yet selected their area of study

or will be pursuing areas not listed above.

The scholarship applications may be obtained from the Financial Aid

Office at NNCC, Lundberg Hall-Room 9 in Elko or from the high school guidance counselor.

AIME scholars: Greg Martin and Sheree Pray (seated at right) are recipients of \$125 American Institute of Mining Engineers' scholarships presented by Don Birak, chief mine geologist for Freeport McMoRan Gold Company (left) and Matt Thiel, chief mine engineer for Freeport. Northern Nevada Community College's min-

ing technology instructor, Mike McFarlane, is standing. Pray works for the Nevada Department of Transportation while taking classes at NNCC and Martin is employed by Freeport. Birak said this is the first of annual awards made to students enrolled in the mining technology program at NNCC by AIME.

1-23-87

March 13 deadline set for NNCC scholarships

EDFP

1-26-87

Joan Nivens, Northern Nevada Community College director of financial aid, advises students planning to enroll at NNCC for the 1987-88 school year that March 13 is the deadline to apply for scholarships.

Only one application, which is applicable toward all categories, is necessary to complete, Nivens said. The selection of recipients will be done March 27 by the NNCC Scholarship Committee with a banquet honoring both scholarship recipients and donors tentatively planned for April 24.

NNCC scholarships vary in terms of the requirements and dollar amount of each award. Always important is a grade point average of at least 2.0.

All NNCC areas of study have scholarships available. Those areas include: agriculture, automotive mechanics, art, business, diesel mechanics, early childhood education, mining technology, nursing and arts and science.

General scholarships also are available for students who have not

yet selected their area of study or will be pursuing areas not listed above.

The scholarship applications may be obtained from the Financial Aid Office at NNCC, Lundberg Hall-Room 9, or from the high school guidance counselor.

Additionally, the 1987-88 forms for application for federal financial aid funds are now available and Nivens encourages any student planning to enroll at any institution to apply as soon as possible in order to receive first priority for financial aid awards.

NNCC participates in a variety of financial aid programs for middle and low income families. To help offset educational expenses, these programs include grants, loans, college work study, and scholarships. Also available at NNCC is the Veteran Affairs Office, the Single Parent Program, student employment office, career and educational counseling, testing and tutorial programs.

More information on all of the programs is available from Nivens at 738-8493. — submitted by NNCC.

NNCC scholarships awarded at dinner

EDFP 5-12-87

Northern Nevada Community College awarded most of its 28 scholarships last month at a dinner for sponsors and recipients at the Red Lion Inn and Casino.

According to Joan Nivens, NNCC director of financial aid and chairman of the scholarship committee, the Hugh McMillen scholarship will be awarded at graduation and the BriCo scholarship for mining technology is awarded in the fall.

Nancy Kauffman, recipient of the Jessie Dewar art scholarship, and Stephame Lockridge Gowin, recipient of the Marguerite Evans entrepreneur scholarship, were not present at the banquet.

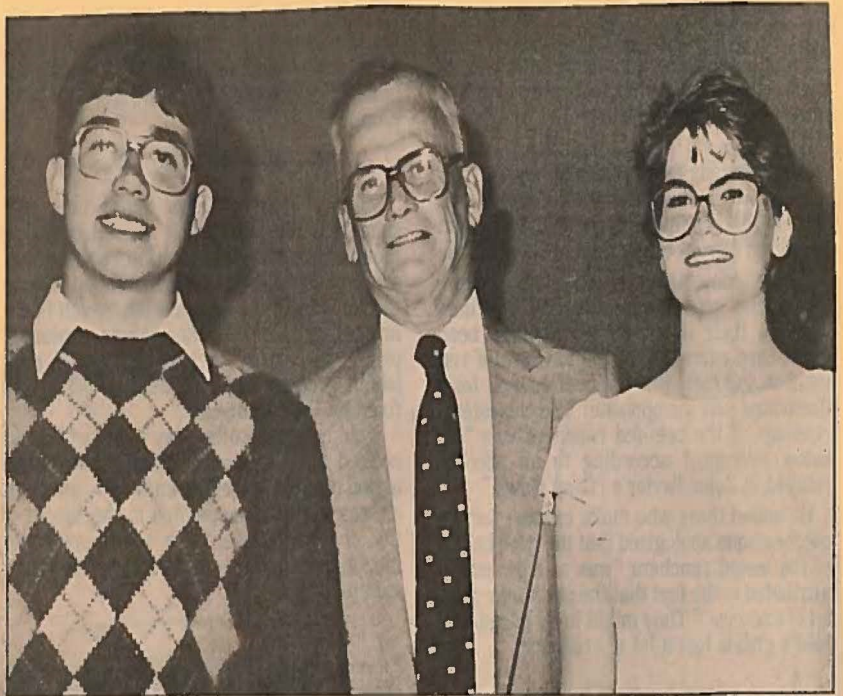

Others who did not get to the awards ceremony included Michael Gibson and John Vipham, winners of agriculture scholarships; Ella Harney, winner of the Doctor's Wives scholarship presented by Peggy

Read; Elizabeth Wear, winner of the NNCC Foundation student scholarship; Becky Aguirre and Deborah Williams, winners of the Elko General Hospital scholarship; Sandra Snapp, winner of the Lila Sam nursing scholarship; Jason Carroll, recipient of the Mount Wheeler Power Company award; and Stacy Thornton, winner of the Elko Order of Soroptimist International scholarship.

Besides Nivens, the scholarship committee members included Louie Horton, Georgia Hemsley, Ginger Rackley and Ike Cress.

In his opening remarks, NNCC President Dr. William Berg said this spring NNCC reached a full-time enrollment of 511 (up from 486 in 1986) and he predicted continuing growth for the institution.

More pictures appear on Pages 6 and 7.

Mike Marfisi, right, presented the Elko County Bar Association award to Ketan Bhakta.

Barbara Potter, left, was presented the American Association of University Women scholarship by Peggy Crawford.

The Louise Searle-Klarr scholarships were presented by Fred Pullman to (from left) Stacy Ogburn, Jacquie Martinez and Tammy Phillips.

Ruth Roseberry, far right, presented her scholarships to (from left) Lupe Mancha, Lea McCullough and Paul McKenzie. Recipient Walt Schroeder was not present.

Teresa Murphy, right, presented the Leslie Crapo scholarship to Rosemary Goodrich.

Chuck Knight and Bill Bellinger, right, presented the Knights of Pythias scholarship to (from left) Audrey Smith and Valerie Martin.

Drury and Frances Thiercof, left, of Carlin have pledged to offer a \$1,000 scholarship at Northern Nevada Community College for graduating Carlin High School seniors. The student is to be selected by the NNCC scholarship committee, reported NNCC Foundation members Fred Pullman and Ginger Rackley, right. The first recipient will be announced during Carlin high graduation ceremonies.

EDFP 6-4-87

New scholarship begun for Carlin High grads

Announcing a newly instituted \$1,000 Thiercof scholarship for Carlin graduates attending Northern Nevada Community College, Ginger Rackley of NNCC noted the first honoree is to be named on Carlin's graduation night.

Drury Thiercof moved to Carlin three years ago with his wife, Frances, who is a Carlin native. He and his wife have committed to offer the scholarship for at least 10 years. He explained the NNCC scholarship committee is to focus on selecting a student who intends to study business or teaching and he hopes it will encourage the return of local students to the area.

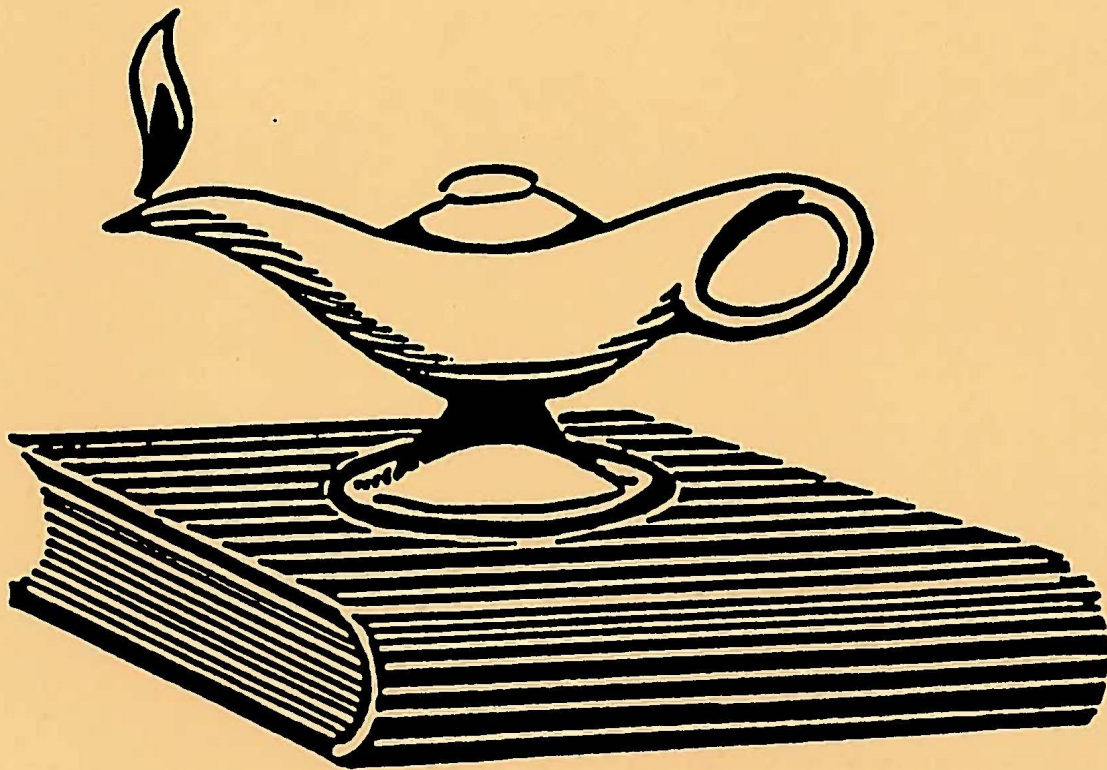

University of Nevada Reno graduates, the Thiercofs have determined to become active here in supporting their community. Frances Thiercof was among the first recipients of the Harold's Club scholarship when she

graduated from Carlin High School. They noted a key to their having met was that scholarship, and the Thiercofs hope to return some of that type of benefit to other area students.

Rackley, director of NNCC Foundation, and Fred Pullman, chairman of the foundation, added they believe it to be easier for graduates from small communities to enter college via the community college system. Also, they remarked, it often is easier to enter a four-year college at the junior level, especially with what Rackley described as a "good, basic" educational foundation.

Applications for the scholarship are available at the college and from Carlin High School. Although the money is meant primarily for education and business students, other Carlin graduating seniors also are eligible, Rackley said.

NURSING

NNCC To Graduate First Nurses' Assistants In Over A Decade

by COTY RAPOSA-FLOYD

This Friday the Elko School of Nursing at Northern Nevada Community College will graduate its first nurses' assistants in more than ten years.

Seven area women are the pioneer graduates in the highly-intensive six-week course which was offered as a fall alternate selection. The success of this class and anticipated state legislative action on certification of nursing assistants assures the program will be offered again.

Receiving certificates after successful completion of the 240-hour program are Teresa Brown, Ginny Cutler, Sue Mecham, Catherine Polanco, Marian Sam, Roxann Sullivan and Marlene Tybo.

According to the program instructor, Linda Hart, R.N., the course was divided into two parts, 120 hours of classroom work and 120 hours of clinical experience.

"The classwork gives the students a foundation for why we do things the way we do; the practical experience allows them an opportunity to practice what they've learned under the supervision of an R.N.," said Mrs. Hart.

The students spent their clinical hours training at the Ruby Mountains Manor. This time was spent learning to give care. Students gave baths, made beds, helped with daily hygiene, and other tasks which made the patients more comfortable. Little things, like seeking out a wheelchair with feet supports for an elderly woman, or helping a man shave. Tasks that don't sound important on paper, but add so much dignity to the daily lives of the patients.

The group of students slated to graduate Friday are a microcosm of Northeastern Nevada. There is a 39-year-old mother of three, Roxann Sullivan, who plans "to become the best Nurses Aid I can be," and there is 20-year-old Sue Mecham who wants to obtain her R.N. at NNCC and then go on to specialize at a four-year college.

The one thing all the women have in common, according to instructor Hart, is determination and compassion.

Roxann Sullivan is one of two students being sponsored by Ruby Mountains Manor administrator Thomas Feedback. She has had three years experience as an aid in Coeur d'Alene, Idaho; and has been employed at the Manor for two months. Her three children have been very supportive during the six weeks of long hours, and she laughs that tables have turn-

ed, and they now ask her how she did at school. Ms. Sullivan plans to enroll in a communications class at NNCC. Even though she was experienced as a nurses aid, the nursing assistant class instilled in her more confidence.

"I now know the whys and how comes as well as the right procedures," she explained.

Twenty-two year old Ginny Cutler was also sponsored by Feedback. Ginny has worked at the Manor since she was 17, and she too says the class was very beneficial.

"There were a lot of things I knew how to do, but not always the correct way. The course taught me to do it correctly."

Marian Sam, a young 37-year-old grandmother, says the course has opened her eyes to further possibilities in the nursing field. She plans to enroll in a Licensed Practical Nursing course, and then the registered nursing program at NNCC. To her, "the patient is the main priority. We make them feel the best they can, and we give them the best care."

For student Marlene Tybo, also a Manor employee, the course has been an opportunity to learn more about her craft. She, too, feels the patient is the top priority, and puts feet to her words by caring for several Indian patients at the Manor, often coaxing a smile when she speaks to them in Shoshone.

Teresa Brown said she enrolled in the program after her sister encouraged her to do so. Her sister is Becky Aguirre, who received her LPN from NNCC, and is now enrolled in the R.N. program. For

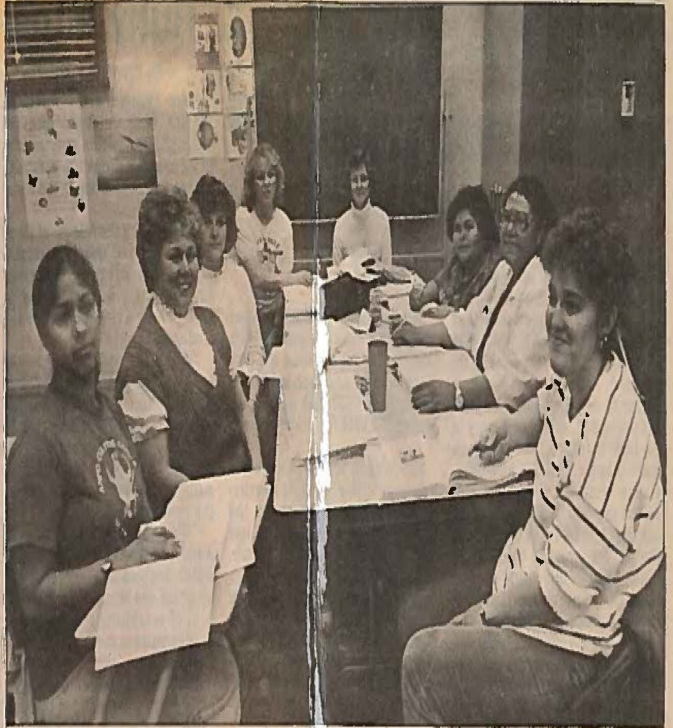

Teresa, the course was a career change after 14 years in the secretarial field. She says the closer contact with people has brought her self-satisfaction paper-pushing hadn't, and she says she may go on "to follow in her little sister's footsteps."

Single parent Cathy Polanco had experience in California as a nurse's aid, but enrolled in the course to "better her knowledge in caring." Even though the intensive hours meant juggling child-care for her three-year-old son, she says the course "whetted her appetite" for further nursing education, possibly the LPN program at NNCC.

Ruby Mountains Manor administrator Thomas Feedback says he thinks the nursing assistants class is "a very fine program," that is actually a sort of "pilot program" for the Manor.

"There is a possibility that next year's legislature will require all Nursing Assistants in the state to be certified. We wanted to see how our people did in it, and we find it's working out very fine," said Feedback, adding he'd have the nursing assistants train there again when the next class is offered.

In attempting to analyze the new program's success the students were asked the key. They credited their instructor. The instructor in turn credited the dedication of the seven women students. School of Nursing Director, Ruth Holland, credits them all, and says recent research has shown there is a need for nursing assistants in Northeastern Nevada.

Nursing Program Graduates

On Friday, Northern Nevada Community College will graduate its first class of nurses' assistants in over 10 years. The 240-hour nursing program, which is considered a "pilot program" for the Ruby Mountains Manor by its administrator Thomas Feedback, is instructed by Linda Hart, R.N. The graduates are, clockwise from left, Cathy Polanco, Roxann Sullivan, Sue Mecham, Teresa Brown, instructor Hart, Marian Sam, Marlene Tybo, and Ginny Cutler (staff photo by Lin Anderson).

Ruth Holland (right), coordinator of the nursing program at Northern Nevada Community College, stands with three of the six student nurses who received scholarships Monday night during a capping ceremony at the college. From left, Sandra Snapp, recipient of the Lila Sam scholarship; Leah McCullough, winner of the Ruth Roseberry scholarship; and Cathy Neumann, recipient of the Wells Medical Center award. Snapp also has received an award from the Women's Fund, and Neumann earlier received a scholarship from Newmont Gold Company. Photos of other scholarship recipients appear on page 9.

Capping ceremony held for nursing students

Nineteen student nurses at Northern Nevada Community College participated in a capping ceremony Monday night at NNCC, and six students were awarded scholarships.

Ruth Holland, coordinator of NNCC's nursing program, explained the capping ceremony is held for students who have completed their first semester of study with passing grades and who are doing "good work" at Elko General Hospital.

Nine of the students are enrolled in the licensed practical nursing (LPN) program, and will finish their training in July. They are Ruth Denton, Penny Johnson, Leah McCullough, Cathy Neumann, Fran Rockwell, Sandra Snapp, Darlene Stuart, Debbie Williams and Jeanne Zimmerman.

Ten students capped Monday night

already are LPNs, and are planning to graduate as registered nurses (R.N.) in May. They are Becky Aguirre, Janice Bailey, Sharon Cauley, Cindy Green, Ella Harney, Kimberly Minnlear, Elli Ray, Sheral Schall, Melinda Visser and Gayle Wallace.

During the candlelight ceremony, students were capped by their LPN and R.N. "big sisters."

Featured speaker at the ceremony was Marilee Kuhl, R.N., nursing supervisor at Elko General Hospital. Entertainment was provided by pianist George Rosenberg.

Besides Holland, the nursing faculty at NNCC includes Patti Crookham, R.N., instructor and advisor; and instructor Marie Cook, R.N.

EDFP 1-21-87

NNCC Graduates Nursing Students

ELI 1/21/87
by COTY RAPOSA FLOYD

Twenty students of the Northern Nevada Community College School of Nursing participated in capping ceremonies Monday, Jan. 19, and six nursing scholarships were awarded.

Following a capping speech presented by Elko General Hospital Nursing supervisor Marilee Kuhl, 10 student practical nurses received caps: Ruth Denton, Penny Johnson, Leah McCullough, Cathy Neumann, Fran Rockwell, Sandra Snapp, Darlene Stuart, Debbie Williams and Jeanne Zimmerman.

Student registered nurses receiving caps were: Becky Aguirre, Janice Bailey, Sharon Cauley, Cindy Green, Ella Harney, Kimberly Minnlear, Elli Ray, Sheral Schall, Melinda Visser and Gayle Wallace.

Six scholarship winners were also announced at the capping

ceremony. The Doctors' Wives Scholarship was awarded to Ella Harney, the Ruth Roseberry Scholarship was awarded to Leah McCullough, the Wells Medical Center Scholarship was awarded to Cathy Neumann, the Lila Sam Scholarship was awarded to Sandra Snapp, and two Elko General Hospital Board of Trustees scholarships were presented to Becky Aguirre and Debbie Williams.

A reception honoring the 20 students was held following the ceremonies in the NNCC student lounge.

Nursing faculty attending the capping ceremonies were Ruth Holland, R.N., program coordinator, Patti Crookham, R.N. instructor-advisor, and Marie Cook, R.N., instructor. Class officers are Elli Ray, Student Registered Nurse president; Cindy Green, SRN secretary; treasurer. Student Practical Nurse president and secretary

treasurer are Ruth Denton and Cathy Neumann, respectively.

The Rev. Ellis Parker, pastor of the First Assembly of God Church of Elko presented the invocation and benediction at the ceremonies.

NNCC graduation set for nine LPNs tonight

Graduating tonight from Northern Nevada Community College are practical nursing students, seated, from left, Jeanne Zimmerman and Darlene Rae Stuart; center, Sandra Lynn Snapp, Cathleen F. Neumann and Ruth A. Denton; in back, Deborah Irene Williams, Frances A. Rockwell, Leah Anne McCullough and Penny Lee Johnson.

Nine practical nursing students will be graduating tonight at 6:30 from Northern Nevada Community College, announces instructor Patti Crookham, R.N.

The program is an 11-month course of study that includes classes in child development, psychology, nutrition, English, anatomy and physiology, plus special classes in nursing.

During the ceremony tonight, the graduates will receive Certificates of Achievement from NNCC and the practical nursing pin of the School of Nursing. Traditional white uniforms will be worn and graduates also will wear the practical nursing cap of NNCC.

They may then work as practical nurses until October, when they take the State Board Licensing exams. Upon receiving a satisfactory score on the exams, they will be issued licenses by the Nevada State Board of Nursing and then will be recognized

as LPN's.

The ceremony will be held in the NNCC Learning Resources Center (library) in McMullen Hall. The guest speaker will be Dr. Roy Jones of the Elko Regional Medical Center. The public is invited and admission is free.

The nurses graduating tonight are Ruth A. Denton, Penny Lee Johnson, Leah Anne McCullough, Cathleen F. Neumann, Frances A. Rockwell, Sandra Lynn Snapp, Darlene Rae Stuart, Deborah Irene Williams and Jeanne Zimmerman.

THE NIGHTINGALE PLEDGE

I Solemnly Pledge Myself Before God
And In The Presence of This Assembly:

To pass my life in purity and to practice my profession faithfully.

I will abstain from whatever is deleterious and mischievous, and will not take or knowingly administer any harmful drug.

I will do all in my power to maintain and elevate the standard of my profession, and will hold in confidence all personal matters committed to my keeping, and all family affairs coming to my knowledge in the practice of my profession.

With loyalty will I endeavor to aid the physician in his work, and devote myself to the welfare of those committed to my care.

(This pledge was formulated in 1893 by a committee of which Mrs. Lystra E. Gretter, R.N., was chairman)

EDFP 9/23/86

Elko hosts convention for Nevada librarians

The Nevada Library Association will hold its annual conference in Elko tomorrow through Saturday. Conference chairwomen Mercedes Lostra and Laura Old said the theme is "40 years, look where we've been, and where we're going."

About 150 librarians are expected at the conference, which is also open to the public. The agenda includes seminars on genealogy, intellectual freedom, catalog and indexing, and oral history.

Committee member Debra Drew said the conference at the Elko Convention Center has a daily registration fee of \$15 and is open to anyone interested. The conference begins

tomorrow at 10 a.m.

Special breakfasts will be held, discussions on library trust, automated reference systems, library loans, and school libraries.

Exhibitors and children's young adult librarians have scheduled lunch sessions. Several sessions are also planned.

Washoe County reference librarian Anne Hawkins, NLA president, will pass the gavel to incoming president Carol Madsen, assistant director of the Elko County Library.

Elko Mayor George Cornish and the Elko High School Band of Indian Chorallers will open the first session on Thursday.

Happy Holidays

One of the great pleasures of the Holiday Season is the opportunity to exchange cordial greetings with those whose friendship and good will we value so highly.

May a bright and prosperous New Year bring happiness to you and yours.

Buffy Trimbach, second from left, is pictured after launching her winning entry in Northern Nevada Community College's paper airplane contest. The plane is visible in upper left-hand corner. The students called their planes from the upper deck of the NNCC library. Shown watching Trimbach's entry are Terri Coleman (left), Ketan Bhakta (second from right) and Dennis Swett (far right).

EDFP 4-15-87 NNCC paper airplanes

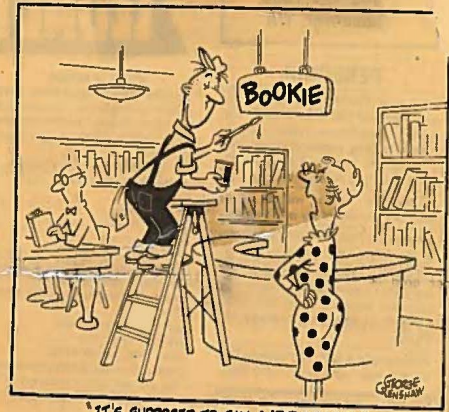

Three winners were named at the annual paper airplane contest at Northern Nevada Community College's library after a noontime competition just before spring vacation.

Ketan Bhakta's plane landed closest to the target, for which he won a cassette player with headset. Buffy Trimbach's entry was in the air for the longest time, so she won a cassette carrying case. And Ken Chambers' aircraft flew farthest, winning a backpack for him.

The college also held two other contests. In the "Who Am I?" contest, in which old photos of students and

faculty were displayed, Terri Coleman won a digital clock radio for correctly identifying more people than her competitors.

Chris Yensen won a camera for guessing there were 470 buttons in the collection hanging behind the main library desk. The collection actually contained 472 at the time, said Maxine Palmer, contest organizer and head of the audio-visual department of NNCC's Learning Resource Center. She added about 15 more election or slogan buttons have since been collected.

"IT'S SUPPOSED TO SAY LIBRARIAN."

Humboldt Sun 8-17-86

Librarians to meet in Elko

ELKO — The Nevada Library Association is making final preparations for the annual conference to be held in Elko Sept. 24-27.

The conference theme is "40 years, look where we've been, and where we're going," and the chairmen are Mercedes Lostra and Laura Oki, both of Elko County Library.

The Nevada Library Association president, Ann Hawkins, who is reference librarian at Washoe County Library, will address the final session. She will present Carol Madsen, assistant director of Elko County Library, a gavel to begin her year as president of the association.

Mayor George Corner will welcome delegates. The Elko High School band, under the direction of Walt Lovel, and the Elko High chorals, directed by Steve Saunders, will open the general session on Sept. 25.

BOOK FEST — Local librarians organizing the conference are (front row, left to right) Julia Doren of the Elko County Library (ECL); Mary Gibson, ECL; Ida McBride, Nevada Youth Training Center; and Debbie Drew, ECL; (back row, l-r) Laura Oki, ECL; Mercedes Lostra, ECL; Loretta Jones, ECL; Roberta Munger, Elko High School; and Juanita Karr, Northern Nevada Community College. Not pictured are committee members Gary Avent, Jeanette Baker, Cynthia Smith, Syd Chalmers, Karen Albrethsen, and Jeanette Tognini

Library Assn. Begins Elko Convention

Members of the Nevada Library Association are gathering in Elko today for their annual state conference. The event continues through Saturday at the Elko Convention Center.

The theme of the conference is

"40 Years—Look Where We've Been and Where We're Going." Conference chairpersons Mercedes Lostra and Laura Oki of the Elko County Library noted that the agenda includes seminars on genealogy, intellectual freedom and oral history. Cataloging and

indexing of library materials will also be discussed.

Special breakfasts, luncheons and dinners are also planned for the library personnel.

The first general session of the conference is scheduled tomorrow morning, with the delegates being welcomed by Mayor George Corner. Elko High School's Band of Indians and Choralliers are also scheduled to perform during the opening ceremonies.

At the close of the conference on Saturday, Carol Madsen, assistant director of the Elko County Library, will be presented with a gavel marking the beginning of her term as president of the library association.

Lostra and Oki said local committee members spent many hours working to make the state conference a success. Juanita Karr and Karen Albrethsen were in charge of local arrangements. Other committee members included Cynthia Smith, Jeanette Baker, Syd Chalmers, Debra Drew, Jeanette Tognini, Loretta Jones, Mary Gibson, Julia Doren, Roberta Munger, Ida McBride and Gary Avent.

Women's Conference Set Here October 3, 4

"Opportunities Unlimited in Education and Life" is the theme of the Rural Nevada Women's Conference, slated for Friday, Oct. 3 and Saturday, Oct. 4 at Northern Nevada Community College.

Keynote speaker for the event—sponsored by the American Institutes for Research, the Elko County Women's Center, and NNCC's Single Parent Center—is Sheila Hawkins of the California Dept. of Education, who will address the conference on the topic of "Eliminating Sexual Harassment."

Other topics to be covered in workshops during the two-day conference include: Self Esteem and Communicating Your Worth; Teen Pregnancy; Computers and Equity; Child Abuse; Single Parenthood and Early Childhood Development.

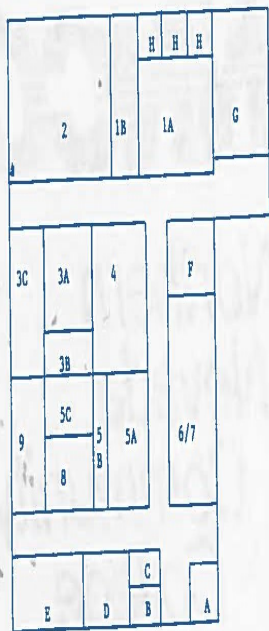

Cost of the conference is \$10. For \$20, attendees become eligible for one unit of credit through NNCC.

For more information, or to register, contact Cynthia Smith at 738-8276, or the Single Parent Center at NNCC, 738-8493, extension 243.

EDFP Friday August 15 1986

Nineteen-year-old Vickie Sands and Richard Cox, 40, are both participants in NNCC's Single Parent Center.

Program offers parents alternatives to welfare

A federal grant program is making education and job training affordable for single parents, Georgia Hemsley, project director of Northern Nevada Community College's Single Parent Center, said.

Hemsley said, "It was developed to get the person off of welfare and give them training in their personal career interest."

The program started a year ago. Those meeting eligibility requirements can get two semesters' tuition, books and child care paid for while pursuing further education or job training through the community college. Hemsley said, "That's a whole lot of money they don't have to worry about."

Single parents having custody of minor children may be eligible for the program depending on their income level over the past 26 weeks.

Every community college in Nevada has a single parent center, but NNCC's is the most successful, according to Hemsley. Besides being the director, Hemsley is also a counselor and can work closely with the single parents.

After being accepted into the program, single parents, with Hemsley's help, fill out an employability development plan to develop a goal and steps to reach the goal.

Hemsley said, "If they reach that goal, I've done my job correctly."

Nineteen-year-old mother-of-one Vickie Sands credits NNCC's success with Hemsley's attitude. "Georgia makes the program everything, because she cares," Sands said.

Participants have the option of learning work skills in a limited work experience program. The grant pays the salary while students work in public, nonprofit agencies such as the Bureau of Land Management, the Nevada Highway Patrol, the Senior Citizen's Center or the Elko County Fairgrounds.

Hemsley said the program gives the students self-confidence, something to put on a resume, letters of recommendation and experience.

Eight out of 18 participants that completed the limited work experience found a permanent job through the job or from the exposure they received, according to Hemsley.

Ike Cress, Hemsley's assistant, is also the job development coordinator for NNCC. She helps place NNCC and Single Parent Center students in permanent jobs. Thirty-five single parents have found new jobs through the program.

The director's statistics show only seven people have dropped the program. Hemsley said, "Single parents are highly motivated to help themselves because of the children."

Single parents in the program range from Sands, who has a high

school diploma, to 40-year-old Richard Cox, who described himself as a perpetual student.

Cox, a father of three, said he benefited most from aptitude and interest tests paid for by the program.

"It gives you insight into your potential," said Cox, who plans to go on to a four-year college.

There are only two men in the program. Cox said Charlie Wade, the first man in the program, told him about it.

Hemsley said single men with children have similar problems to single women with children, but "it's hard for them to come in for help." She said, "Their needs are just as important as women's."

Cox said he is willing to talk about the program with men who are interested in the program, but feel uncomfortable about approaching Hemsley.

One federal grant has to be "re-written" or renewed every year. Another has a lifespan of two more years. After that Hemsley would like to see the state or the community college keep the program funded.

Sands is getting some work experience at the highway patrol, and hopes to get a permanent job after the fall semester. If it weren't for the program, Sands said, "I would be sitting at home on welfare, living with my mom."

Community colleges need more money

CARSON CITY (AP)—Community colleges need more money for faculty and support personnel in order to contribute to the state's campaign for economic diversification, the Assembly Ways and Means Committee has been told.

"Our most important product is our students, and we need to protect that investment," said Clark County Community College President Paul Meacham.

John Gwaltney, president of the Truckee Meadows campus, concurred, pointing out that by the turn of the century community colleges will be providing advanced occupational training for most of the people required for the expansion of Nevada industry.

William Berg, president of Elko's Northern Nevada Community College, said without salary increases for his faculty, "I feel positive two years from now I won't be able to tell you I've been able to hold onto my excellent team."

Berg pointed out that his college holds classes in seven communities and he's planning to help train personnel to administer the proposed Ely maximum security prison.

R. Roseberry awarded NNCC honorary degree

Ruth Roseberry, retired Elko County School District elementary school teacher and hospital trustee, will be awarded an honorary associate degree during Northern Nevada Community College commencement exercises May 18.

Roseberry was notified of the honor by Daniel J. Klaich, chairman of the University of Nevada System Board of Regents, who wrote, "We are most appreciative of your considerable efforts on behalf of higher education and the young people of our state."

Regents will honor Roseberry, other recipients of honorary degree awards and Distinguished Nevadans at a May 14 reception on the University of Nevada Reno campus. The reception will be in the Pine Auditorium, Jot Travis Student Union. Also being honored this year are former recipients of these awards.

Roseberry returned to Elko last week from her home in Port Hueneme, Calif., where she spent the winter months. EDFP 4-25-87

Former professor says college is not meeting rural needs

By JERRY TEAGUE
A former University of Nevada Reno professor, now an Elko businessman, questions the priorities set by the university regents, and claims rural Nevada's needs are not being met.
Tony Lesperance, who retired after 25 years in the university's school of agriculture, expressed his concerns before the Winnemucca City Council last week. They were timely, because the council is considering a proposal by Mayor Warren Scott to ask the voters to approve \$300,000 or more in bonds to build a structure in Winnemucca to house the community college, which is a part of the university system.

Lesperance's observations were based on an analysis of the university administration's biennial budget proposal made to the state legislature a year ago. He said it illustrated the administration's opinion of the state's higher education priorities.
After listening to Lesperance's presentation, the mayor said it looked doubtful that the regents who govern the system would allocate funds for a Winnemucca college building, and that it would be better for the people of Humboldt County to build it themselves.
With the current priorities, Lesperance said the mayor's assessment of the situation was

probably correct, but he indicated such a project should have a higher priority.
Mayor Scott said probably the people of Humboldt County could push the regents for the building, but it would take four or five years before the project would be approved. "I'm not sure we want to wait that long," he said.
The college facilities are now housed in a rented building, which is not large enough to meet its Winnemucca needs, the administrator says. The college is headquartered in Elko.
The figures presented by Lesperance show the university administration favors developing "high tech" curriculum and

research at the Reno and Las Vegas campuses. He said the Northern Nevada Community College's budget of \$1.5 million is 1.2 percent of the \$244 million in the biennial budget for higher education in Nevada.
The new emphasis on high technology is illustrated by the huge sums sought for the purchase of "a much bigger computer," while the "standard academic programs" are suffering. Of the nine colleges that compose the university, he said the business school enjoyed the largest increase in funds. That was because of money going for the purchase of computers, he said.
Of the other colleges, nursing

was given additional funding because it faced losing accreditation; mines grew at the same rate as general university funding; engineering "held its own" but faces severe problems if funding is not increased in the near future; education increased 5 percent compared to the 10 percent growth in overall funding; arts and sciences had almost no increase; agriculture, home economics and journalism all had their funds cut.
When Lesperance concluded his comments to the council, he gave the members several typewritten sheets showing the salaries paid to the university's administrators, and indicated they were too high. He also remarked that the money the

university lost when its top 47 heifers drowned would have gone a long way in helping to pay for the college building Winnemucca wants.
He said the animals were lost in last winter's storm because the college administration decided it would no longer keep someone on the university's farm. Since the storm hit after 5 p.m., there was no one available to evacuate the animals, he said.
Lesperance, who admits he is seriously considering running for the board of regents, is part owner of Great Basin Agriculture of Elko. In addition to supplying feed and livestock supplies, it also provides consulting services.

SINGLE PARENT CENTER

FOR CAREER AND LIFE PLANNING

operate on the basis of sex, race, color, religion, handicap, or other educational programs which it operates.

CAREER COUNSELING

If you're confused about what kind of career you want to pursue or what job you'd like to have, we are here to help. We can help you identify your interests, skills, needs, and work values. The self-assessment can be instrumental in making a well-informed career decision.

PERSONAL COUNSELING

We are here to assist you if you are experiencing some difficulties in your personal life which interfere with your success in school. If you lack self-confidence, are having relationship problems or feel down, it might help to talk with one of us.

ACADEMIC ADVISEMENT

We can help you to set your educational goals and plan your academic career. We can also explain degree requirements, transferability of courses, help you select appropriate courses and plan a schedule of classes each semester to keep you on track.

JOB PLACEMENT

We can help you find a job in the career of your choice when you have completed your education and training program.

FINANCIAL ASSISTANCE

We will be able to help cover the cost of tuitions, study materials.

THE CENTER'S GOALS:

The Single Parent Center for Career and Life Planning was created to serve as a vital link with employers, education, and community service agencies to focus on the needs of single parents and help them enter the world of employment.

Fathers and mothers are welcome. All applicants must meet income requirements to qualify for services.

Drop-ins are encouraged. The Center is located in Max Hall on the NNCC campus.

Hours: 9:00 a.m. - 4:00 p.m.

CLASSES & WORKSHOPS:

"GROWING AND BECOMING"

CAPS 122

A potpourri of personal development skills designed to promote growth in areas such as thinking skills, problem solving, time and stress management, creativity, life and career planning. You will be videotaped at the beginning and end of the course and receive training in assertion, self-evaluation, and jobsearch techniques. Teachers are professionals representing many fields of expertise from the community.

CAREER PLANNING

CAPS 123

A self-paced telecourse that teaches you how to choose a career that meets your needs and values. A decision-making process that will help you in all areas of your life is taught.

COOPERATIVE EDUCATION

You can contract to earn college credit in the workplace. Employers and NNCC work hand-in-hand to provide on-site training and evaluation for participants.

INDEPENDENT STUDY - TUTORIAL

You can earn one to six credits in this course designed to meet your own special needs. Tutors are available to assist with basic skills training and personal growth activities as arranged by our counselor.

JOBSEARCH WORKSHOP

Ninety-ninth Congress of the United States of America

AT THE FIRST SESSION

*Begun and held at the City of Washington on Thursday, the third day of January,
one thousand nine hundred and eighty-five*

Joint Resolution

Designating February 1986 as "National Community College Month".

Whereas, in the fall of 1981, there were over one thousand two hundred and nineteen community, technical, and junior colleges in which 40 per centum of all undergraduate college students in the United States were enrolled;

Whereas such colleges prepare people for employment in over one thousand four hundred different occupations or for transfer to four-year colleges and universities;

Whereas such colleges are within reasonable commuting distance for more than 90 per centum of all Americans;

Whereas such colleges provide an opportunity to obtain a post-secondary education at low cost for many people who could not otherwise afford one; and

Whereas such colleges are community-based institutions which provide flexible and diverse programs and services tailored to fit the needs of their local populations and industries: Now, therefore, be it

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That February 1986 is designated as "National Community College Month", and the President is authorized and requested to issue a proclamation calling upon the people of the United States to observe such month with appropriate ceremonies and activities.

Thomas P. O'Neill, Jr.

Speaker of the House of Representatives.

Approved and signed by
Ronald Reagan
President of the
United States
October 22, 1985.

Locally earned UNR degree subject of Wednesday meet

To explain how a four-year University of Nevada Reno degree can be earned in Elko, a free orientation workshop has been scheduled at 7:30 p.m. Wednesday in Rooms 6 and 7 of Lundberg Hall at Northern Nevada Community College, reminds Paul Billings, UNR's Elko coordinator.

Courses toward the new degree, bachelor of general studies, will be geared for the special needs of non-traditional students and can be tailored to personal and career goals of each student. Classes will fit around job schedules and family responsibilities and courses may be

EDFP 3-16-87
taken at NNCC or through correspondence. For those with two-year degrees from NNCC, it is a practical way to complete a four-year university degree, Billings said.

Students will not major in a specific subject but will choose from a broad base of general studies including the humanities, social sciences, communications, and natural and physical sciences.

Further information is available from Billings at 738-5196 or from the Division of Continuing Education of UNR at 784-4046.

Yearbook selects NNCC students

Three students at Northern Nevada Community College — Debbie A. Giles, Pablo Macias and Janet M. Schwandt — have been named in the 1987 edition of *Who's Who Among Students in American Junior College*, yearbook editors announce.

The students were selected on the basis of their academic achievement, service to the community, leadership in extracurricular activities and potential for continued success, the editors said. EODP 12-13-86

This recent aerial photograph of the NNCC campus shows (1) the Instructional Phase III building (under construction), (2) McMullen Hall, (3) Lundberg Hall, (4) the automotive shop, (5) the Eyer H. Boles building, (6) the machinery shed, (7) the dess technology shop, (8) the Art Barn and (9) Maxom Hall. Not pictured are the student housing units located west of the Phase III building, and an animal barn located north of the campus, near Interstate 80. EODP 12-13-86

NNCC Outlines Its Goals

ET 3-4-87
Northern Nevada Community College's goals for 1987 were recently outlined at a meeting of the Nevada State Board of Regents in Carson City.

The list of NNCC goals was presented to the regents by college president Bill Berg. Presidents of the other six University of Nevada system institutions also offered the regents their plans for the current year.

According to Berg, NNCC's priorities are: evaluation of the agriculture program in light of small enrollments; building modifications for Lundberg Hall; improved telecommunications between Elko and the Reno-Carson City area; development of a "drop-in" student information testing center for personal counseling, career counseling and academic advisement; improvement of computer access to research files at other libraries; employment of a professional research group to determine the feasibility of a capital building campaign for a student union, and to survey community impressions of the college; establishment of learning centers to serve area prison facilities and improvement in the use of telecourses.

NNCC announces spring semester Dean's List

Northern Nevada Community College has announced the Dean's List for the spring, 1987 semester. Of the 34 full-time students named to the list, 28 are Elko residents, and two are Carlin residents.

Six Elkoans received a perfect grade-point average of 4.0: Debbie Giles, Cathleen Neumann, Kenneth Olin, Eleanor Ray, Heidi Wammack and Carla Wille.

Other Elko students honored were Tania Baumann, Lance Bearbow, April Thompson Bull, Ketan Bhakta, Millicent Blackeye and Mary Burner, Sharon Cauley, Kevin Gleeson, Karen Gowin, Peter Gustafson, Randy Heil and Michael Hoot.

Jeff Kump, Pablo Macias, Lupe Mancha, Kimberly Minniear, Natalie Nyrehn, Barbara Potter, Vickie Randall, Frances Rockwell, Sheral Schall

and Edward Wright. Terri Coleman and Ruth Hart are the Carlin students included in the scholars' list.

This is the largest Dean's List since NNCC's top students were first recognized, notes Dean of Student Services Stan Aiazzi.

NNCC offers two-year Associate of Arts and Associate of Applied Science degrees in a variety of academic and vocational fields. Students can also earn one-year certificates in various occupational areas.

Non-credit community service courses, designed for the self-improvement of students, are an important part of NNCC's curriculum as well, Aiazzi pointed out. Information about any course or program can be obtained from Student Services at 738-8493.

28 Elko Students Are Named To NNCC List

Twenty-eight students from Elko are among 34 full-time students to be placed on Northern Nevada Community College's Dean's List for Spring, 1987. Six of the local scholars achieved a perfect grade point average of 4.0. They are Debbie Giles, Cathleen Neumann, Kenneth Olin, Eleanor Ray, Heidi Wammack and Carla Wille.

Other Elko students honored include Tania Baumann, Lance Bearbow, April Thompson Bull, Ketan Bhakta, Millicent Blackeye and Mary Burner.

Also on the list are Sharon Cauley, Kevin Gleeson, Karen Gowin, Peter Gustafson, Randy Heil and Michael Hoot.

Other noteworthy scholars include Jeff Kump, Pablo Macias, Lupe Mancha, Kimberly Minniear and Natalie Nyrehn.

Rounding out the list are Bar-

bara Potter, Vickie Randall, Frances Rockwell, Sheral Schall and Edward Wright.

This is the largest Dean's List since NNCC's top students were first recognized, according to Dean of Student Services Stan Aiazzi. Students are honored only at the end of a semester in which they take at least 12 credits.

NNCC offers two-year Associate of Arts and Associate of Applied Science degrees in a variety of academic and vocational fields. Students can also earn one-year certificates in various occupational areas.

Non-credit community service courses, designed for the self-improvement of students, are an important part of NNCC's curriculum as well. Information about any course or program can be obtained from Student Services, at 738-8493. *EL 6-17-87*

UNR officials plan visit to Elko on March 27

In a "Salute To Higher Education," University of Nevada Reno President Joe Crowley will lead a contingent of university administrators, deans and outreach personnel to meet community and business leaders in Elko March 27.

This will be UNR's second spring visit to Elko. The first, a year ago, commemorated the 100th anniversary of the university's existence in Reno.

"We want to continue building a partnership with the people of Elko," said Crowley. "All of us within the system — UNR, UNLV, NNCC and other community colleges — are committed to keeping Nevada's best and brightest students within the state."

The day will include a noon luncheon among officials from both schools, a careers program for high school juniors and a musical presentation by 100 members of the UNR Wind Ensemble and the Concert Choir led by Mack McGrannahan and Perry Jones at 7:30 p.m. in the Elko Convention Center.

During the evening the 1986 and

1987 recipients of the UNR/Elko County Science Fair Scholarships will be recognized and the Elko Chapter of UNR alumni will serve refreshments.

UNR personnel who will participate in the visit include Chancellor Mark Dawson, acting Vice President for Academic Affairs Paul Page, acting Dean of the College of Arts and Science William Wallace, Dean of the College of Business Administration Henry Amato, acting Dean of the College of Engineering Jon Epps, Dean of the Reynolds School of Journalism Travis Linn, Dean of the Medical School Robert Daugherty, Dean of the Mackay School of Mines James Taranik, Dean of the Orvis School of Nursing Marion Schrum, President of the UNR Alumni Association Louis Test and Chairman of the UNR Foundation Jim Megquier.

The visit is sponsored by the Elko alumni association, UNR Foundation and UNR alumni association. Further information is available from Terry Reynolds, Elko city manager, 738-5176 or 738-4213.

EDFP 3-7-87

NNCC Ag Day draws high school students

Agricultural students from throughout the area recently attended a series of lectures during "Ag Day" at Northern Nevada Community College. Among the students were (seated, from front to back) Dale Rouse, Jason Carroll and John Chester, who attended a computer class taught by Karl Diekhans, standing, and Karen Temple.

The Northern Nevada Community College annual Ag Day program held Wednesday attracted high school students, guidance counselors and agriculture teachers from throughout northeast Nevada.

NNCC Agribusiness Department head Louis Horton said the day was "very successful" and provided the visitors with a look at the college facilities and faculty, as well as a look at area workings in the department's three specialties: natural resources, animal science and agribusiness.

Students from Elko, Carlin, Battle Mountain, Eureka, Ely and Jackpot participated in Ag Day. Dr. Charles Greenhaw, dean of instruction at NNCC, welcomed the group and gave them a brief overview of the college. Students then were able to select a specialty area from the three programs. Those students interested in natural resources toured the area bird farm with leader Carol Evans. Dr. Jack Lagarza, state veterinarian, addressed those students interested in animal science when they visited M-Bench Meats in Elko. Students opting for agribusiness viewed the latest in computer record keeping for ranch and farm operations under the direction of NNCC computer department director Carl Diekhans and instructor Karen Temple.

Upon returning to campus, students heard from various faculty members on opportunities available at NNCC.

Horton told students about the changing face of agriculture in

today's world and explained how revamping of his department a year allowed each of them to select area of expertise, while still gain valuable insight into the overall of ranchers and farmers.

Carol Evans brought students up date on the growing field of natural resources in agriculture and Financial Aid Officer Joan Nivens and Horton explained the many grants and scholarships available at NNCC.

The small student to faculty ratio one of the stronger points of college, Horton said, adding large universities can't compete with personal attention given to NNCC students.

"We can recognize a problem and address it much sooner. In a university the student is just a number and problems can get out of hand before anyone's aware there is one," Horton said.

Area high school students attending Ag Day '86 were: Tracy Greenwell, Shannon Drake and Dan Palmiter of Elko High School; Jason Schroeder, Steve Burkhart, Paul Tomera, Rol Hooper, Tammy Phillips, Chris Heinz and Diana Duncan of Battle Mountain; Dawn Severson, Carol Hodson, John Chester, Tonya Hatfield, Jason Carroll and Dale Rouse of Eureka; Roger Auge of Ely; Harold Andrews of Jackpot; and Michelle Badertsche and Michelle Newman of Carlin. — By Coty Raposa-Fleming, NNCC publicist.

WELCOME — Elko Mayor George Corner (center) greets Toshobu Umezumi, 16, on Saturday while Ardis Jensen gives him a neckerchief. Also shown are Margaret Ann Crawford (far left) and Zukie Hirota. Mayor Corner individually welcomed each of the 24 exchange students (staff photo by Mark Lenz).

Japanese Exchange Students Visiting Elko for Two Weeks

Elko will be the temporary home for 24 teen-age Japanese exchange students during the next two weeks. The group arrived by bus Saturday after flying from Japan to Reno.

All 24 are from the Natural-Life Intelligence Communication (NIC) program. The cultural exchange program was initiated in Elko by Mark Chilton.

A similar group visited Elko last year, but spent most of their time living in Northern Nevada Community College dormitories. This year, the students will spend their entire stay with host families.

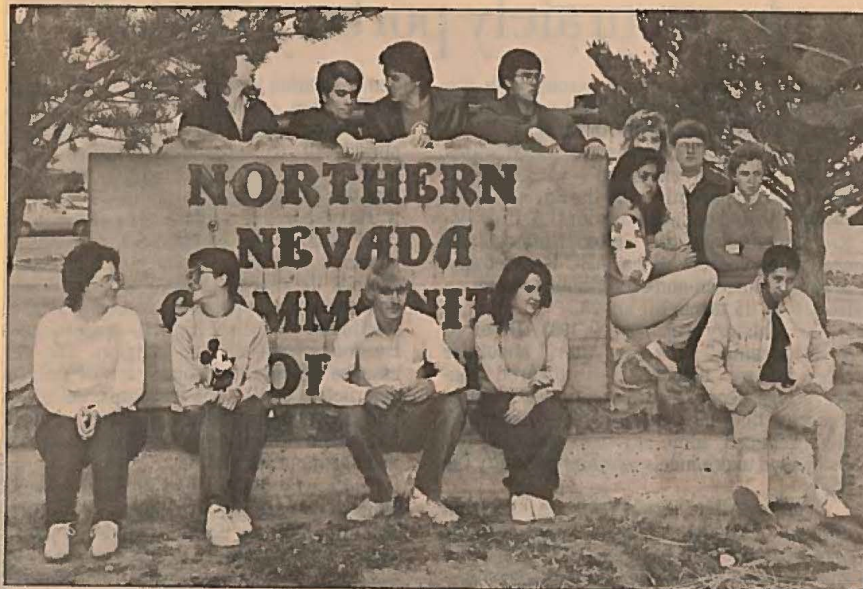

The Japanese students were the guests of honor at a welcoming potluck picnic Saturday at the City Park. They have already been taken on a tour of Elko and have enjoyed an afternoon at the Elko City Pool.

During the next two weeks, the 24 will visit Newmont Gold Mine, the Horse Palace in Spring Creek, and Starr Valley. They'll also camp with local scout troops and learn square dancing.

The students received a tour of the Governor's Mansion in Carson City, and a visit to the Elko City and State

with Winnemucca Mayor Warren Scott before arriving in Elko.

NNCC and the Rotary Club are sponsoring NIC. The director of NIC is Margaret Ann Crawford. She and Ardis Jensen are serving as English instructors. Dave Charlebois is activities coordinator.

Elko High School students who participated in "NNCC Day" Monday were (behind sign, from left) Dale Thompson, Joe Anderson, Jim Holt and David Silver. Fermina Stevens is leaning against the sign with Tammy Davidson (partially hidden), Michael Smith and Robin Windfelt. Elliot Lalo is sitting on the far right. In front are Kathy Darnale, Mindy Culver, Jamey McClendon and Eleanor Tomera.

High school students tour NNCC

Students from five high schools attended an orientation program at Northern Nevada Community College Monday to familiarize Elko County teens with the college's programs and facilities.

Called "NNCC Day," the new event included students from Elko, Carlin, Owyhee, Wells and Jackpot. They toured the campus, discussed program specifics with departmental instructors and heard from college professionals about NNCC programs and student life.

The new orientation day was partially organized by Susan Conquest and Mark Gunson of the new Occupational Education Outreach Program (OEO) which is federally funded through the Carl Perkins Act.

NNCC organizers were Louis Horton of the department of agriculture and Stan Aiazzi, director of student services, according to Conquest.

Contest: Representatives for a Northern Nevada Community College Contest to benefit needy families on Thanksgiving are pictured in front of a chart depicting which teams are ahead. On the far left is Carl Diekhans, chairman of the faculty senate which is competing with classified staff represented on the far right by Richard Culver, president. Ag student Lisa Romano kneeling with her daughter, Andrea, is marking progress on the graph. Also pictured are Robbie

Zaebst and Matthew Snyder (striped shirt and suspenders) representing the NNCC Child Center whose antagonist is the student body. Other competitors include RN students versus LPN students, and VICA students versus the Aggie Club which sponsors the contest. Money collected bought turkeys according to Louis Horton, head of the Department of Agriculture, which were distributed this afternoon along with donated canned goods.

National Community College Month, 1986

By the President of the United States of America

A Proclamation

The more than thirteen hundred community, technical, and junior colleges, public and private, in the United States have contributed enormously to the richness and availability of American higher education. Nearly half of all undergraduate college students in the Nation today are enrolled in such institutions.

By providing educational opportunities at costs and locations accessible to all who are qualified, community, technical, and junior colleges have greatly enhanced the opportunity for every ambitious student, young or old, to enter a postsecondary school program. As community-based institutions, these schools provide varied programs and offer specialized training for more than one thousand occupations.

In recognition of the important contribution of community, technical, and junior colleges to our total educational system, the Congress, by Senate Joint Resolution 158, has designated the month of February 1986 as "National Community College Month" and authorized and requested the President to issue a proclamation in observance of this event.

NOW, THEREFORE, I, RONALD REAGAN, President of the United States of America, do hereby proclaim the month of February 1986 as National Community College Month. I ask all Americans to observe this month with appropriate activities that express recognition of the significant contribution these institutions are making to the strength, vitality, and prosperity of our Nation.

IN WITNESS WHEREOF, I have hereunto set my hand this sixth day of December, in the year of our Lord nineteen hundred and eighty-five, and of the Independence of the United States of America the two hundred and tenth.

Ronald Reagan

A Proclamation by the Governor

WHEREAS, A NETWORK OF COMMUNITY COLLEGES WAS ESTABLISHED WITHIN THE UNIVERSITY OF NEVADA SYSTEM TWO DECADES AGO OFFERING IN-STATE POSTSECONDARY EDUCATIONAL OPPORTUNITIES AVAILABLE TO ALL NEVADANS; AND

WHEREAS, TODAY NEARLY 27,000 NEVADANS ARE ENROLLED IN CLARK COUNTY COMMUNITY COLLEGE, NORTHERN NEVADA COMMUNITY COLLEGE, TRUCKEE MEADOWS COMMUNITY COLLEGE, AND WESTERN NEVADA COMMUNITY COLLEGE; AND

WHEREAS, NEVADA'S COMMUNITY COLLEGES OFFER OCCUPATIONAL/TECHNICAL TRAINING, UNIVERSITY TRANSFER AND PRE-PROFESSIONAL PROGRAMS, DEVELOPMENTAL EDUCATION, COMMUNITY SERVICES PROGRAMS AND COUNSELING AND GUIDANCE TO THOUSANDS OF RESIDENTS; AND

WHEREAS, NEVADA'S FOUR COMMUNITY COLLEGES HAVE ASSUMED A LEADERSHIP ROLE IN EDUCATING THE STATE'S WORKFORCE TO HELP IN ACHIEVING ECONOMIC DEVELOPMENT AND DIVERSIFICATION; AND

WHEREAS, IN ADDITION TO PROVIDING HIGH-QUALITY POSTSECONDARY EDUCATION TO NEVADANS, CLARK, NORTHERN, TRUCKEE MEADOWS AND WESTERN NEVADA COMMUNITY COLLEGES SERVE THEIR COMMUNITIES THROUGH NUMEROUS CULTURAL, RECREATIONAL AND CIVIC AWARENESS ACTIVITIES; AND

WHEREAS, NEVADA'S COMMUNITY COLLEGES PROVIDE AN OPPORTUNITY TO OBTAIN POSTSECONDARY EDUCATION AT LOW COST FOR MANY PEOPLE WHO COULD NOT OTHERWISE AFFORD ONE;

NOW, THEREFORE, I, RICHARD H. BRYAN, GOVERNOR OF THE STATE OF NEVADA, DO HEREBY PROCLAIM THE MONTH OF FEBRUARY, 1986 AS

NEVADA COMMUNITY COLLEGE MONTH

AND CALL UPON THE PEOPLE OF NEVADA TO OBSERVE SUCH MONTH WITH APPROPRIATE CEREMONIES AND ACTIVITIES.

In Witness Whereof, I have hereunto set my hand
and caused the Great Seal of the State of Nevada to be affixed at the
State Capitol in Carson City, this 8th day of
January in the year of Our Lord one
thousand nine hundred eighty
