Stan Popleck, director of occupational education at Northern Nevada Community College, helps students register for fall classes. Walk-in registration continues through Sept. 1 in NNCC's Berg Hall located at 901 Elm St.

Students now registering for fall classes at NNCC

Northern Nevada Community College will offer more than 70 new classes this fall, and registration is currently under way through Sept. 1 in NNCC's Berg Hall, 901 Elm St.

Walk-in registration hours are 8 a.m. to 5 p.m. Monday, Thursday and Friday, and 8 a.m. to 7 p.m. Tuesday and Wednesday.

"Our staff is here to help you," said Valerie Easterly, assistant to the college president. "Our fall course roster is loaded with new offerings. If you have questions concerning any classes or difficulty in registering, please call us."

College information and classes are all listed in *Metamorphosis - The NNCC Announcements and Course Roster* now available at Student Services.

NNCC offers a wide variety of clas-

ses to suit all interests. Students interested in occupational and technical careers have a full array of automotive, diesel, welding, electrical maintenance and mining courses to choose from. NNCC's automotive program has been designated a Ford Motor Co. Regional Training Center, and NNCC's diesel program was one of three chosen nationally to be an outreach facility for Caterpillar, Inc. and Cashman Equipment.

For the individual interested in computers, NNCC offers everything from "Computer Literacy" to "WordPerfect."

NNCC offers a number of courses in English, mathematics, economics, humanities, psychology and other areas and most are transferable to universities. Some courses are of-

fered on weekends.

NNCC also offers a number of non-credit community service courses in everything from Tai Chi to self-defense for women.

New students must complete an application for admission, and faculty advisors are now available to assist students and answer their questions.

Other services available to students include English and mathematics placement testing, advisement and counseling, financial aid and new student orientation. Those interested may call 753-2102.

Students may also register by using the TOUCH telephone system at 753-2100 from 8 a.m. to 9 p.m. Monday through Friday; noon to 10 p.m. Saturday; and noon to 6 p.m. Sunday.

NORTHERN NEVADA COMMUNITY COLLEGE

Fee payments for Fall Semester registrations are due at the NNCC Controller's Office, Berg Hall, by 5:00 p.m., August 25.

For your convenience, the Controller's Office and Student Services will be open late

**Tuesday and Wednesday Evening
August 22 and 23 until 7:00 p.m.**

A permit to attend, issued at the time of payment, will be required of all students attending class who enroll on August 28 or later.

Student Services will also provide evening assistance on Tuesday and Wednesday evenings until 7 p.m. for the first six weeks of the semester.

E.D.F.P. 8-22-95 CLASSES BEGIN SEPTEMBER 5.

Life experience gives adults a head start when going back to college

If you're an adult going back to college and nervous about how you'll do, relax. Your life experience and maturity already have given you a head start.

"Adult learners really do better than traditional students," says Bette Anne Winston, a continuing education advisor at Rochester Institute of Technology. "They're more self-directed and more focused."

Adults are returning to the classrooms in record numbers, she says, and many of them suffer from re-entry shock.

"You may be the manager of a department and doing just fine, but you get behind that classroom desk and all you can remember is your last negative classroom experience."

It may be necessary to forget those experiences before you can begin to learn again, she adds.

Winston suggests these ways to ease re-entry:

— When your instructor is younger than you, give him or her a chance. Conversely, don't feel threatened by this authority figure.

— Don't show off your expertise if you know more about a particular subject than your instructor. Participate in class, but don't monopolize the discussion.

— If you're going back to school mainly because of economic and employment changes, don't let resentment get in the way of your learning. It's OK to feel that way, Winston says.

— Don't assume that if you had trouble with a certain subject earlier in life that you can't learn it now.

— If you feel rusty, brush up with refresher courses at your local board of cooperative educational services or high school.

— Don't forget what you found out the first time at school — that cramming doesn't really work, especially now that you may have more responsibility and less stamina. Winston recommends periodic 20-minute reviews to reinforce learning and improve concentration.

— Don't start off with your weakest subject. Get a good start with courses you know you'll enjoy and succeed in.

— This time, you'll probably

need a computer. But don't invest in an expensive system until you've sampled a course.

— Build a support network of family, friends, study groups and college advisors.

— Study with your children. In a role reversal, they may be able to help you this time.

— And don't be in a rush to finish. Take college at a slower pace, so you won't burn out. (AP)

Freshmen in college quitting, survey finds

EJFP 7-15-96

WASHINGTON (AP) — A rising number of college freshmen are dropping out, according to a survey of 2,564 colleges and universities that says nearly 27 percent failed to return to campus for a second year.

A report released Thursday by American College Testing also shows the college graduation rate at the surveyed schools is at its lowest in more than a decade.

"It's taking students longer to graduate. That has been a trend for quite a while," says David Merkwowitz, a spokesman for the American Council on Education, a group representing the nation's colleges and universities. "A combination of rising tuitions, increased job opportunity, a growing economy, concerns about student aid can lead more students not to return."

The survey showed that the freshman-to-sophomore dropout rate at the surveyed two- and four-year public and private institutions rose to 26.9 percent this year.

That's just a little above last year's rate of 26.2 percent, but it's nearly 2.5 percentage points higher than the dropout rate reported 13 years ago when ACT began collecting data. The ACT report did not give the precise freshman-to-sophomore dropout rate for 1983.

More high school graduates are going to college, but rising tuitions mean some cannot afford to stay in school, Merkwowitz says. Also, increasing numbers of nontraditional students, who now make up more than 40 percent of the enrollment at two- and four-year public and private schools, are forced to study in a start-and-stop fashion, he says.

In addition, improving economic

conditions mean more jobs, which can lure students from campus.

"They're more likely to go to school in a bad economy," he says.

Most of the increase in the dropout rate this year reflects students quitting private colleges.

The dropout rate at private colleges rose to nearly 28 percent this year — up from 25 percent last year and 23 percent in 1983, the report says. Most of these students attend four-year private colleges that do not offer graduate degrees, the report says.

At public institutions, the dropout rate for freshmen was 29 percent this year, compared with 28.6 percent last year and in 1983, the report said.

The report also shows a continued downward trend in graduation rates. This year, 53 percent of the four-year college students graduated within five years — down from 54 percent last year and 57.5 percent in 1983.

The rate at public colleges slipped to 45 percent this year — down from 46 percent last year and 52 percent in 1983. The rate for private colleges was 57 percent this year, which was about the same as last year, but down from nearly 60 percent in 1983.

Kelley Hayden, a spokesman for ACT, says economics are behind declining graduation rates. Students are taking longer to graduate partly because they're working to pay tuition, he says.

According to the National Center for Education Statistics, 31 percent of the students who graduated from college with a bachelor's degree in 1990 did so within four years. An estimated 57 percent graduated within five years — compared with 60 percent in 1986 and 67 percent in 1977.

Nevada ranks lowest in college degrees

EJFP 12-11-95

RENO (AP) — Nevada has fewer adults with college experience than any other state in the West, according to a new report released by the Nevada university chancellor's office.

Only 33 percent of Nevada's high school graduates go on to college and only 15 percent of its adults have received a bachelor's degree or more, the report shows.

"In most states, the majority of high school graduates go to college, whether it be in state, out of state or vocational training. Not in Nevada," Chancellor Richard Jarvis said.

"That's the striking thing about this state."

Jarvis attributed the finding to Nevada's rapid growth and high employment rate. Since most adults can readily get a job, they don't think they need to go to college, he said.

"There are many construction workers, service industry workers and retired people. Most people in these groups don't think they need a college degree," Jarvis said.

He also blamed the state, saying its failure to provide adequate finan-

ber of people who can afford to get a higher education.

University of Nevada, Reno, President Joe Crowley said another factor is Nevada's high transiency rate. A transient population is less likely to invest in a higher education.

"The low numbers reflect the nature of the population," he said. "So many people are employed by the casinos and doing work where a bachelor's degree is not required."

Jarvis said he's concerned the pattern could result in a split society between rich and poor workers, and hinder efforts to diversify the state's economy.

"A lot of other jobs could come to the state with an educated work force," he said. "We need more people with a wider range of skills."

Hawaii sends 56 percent of its high school grads to college for the highest rank in the West, followed by Oregon at 54 percent, Utah at 52 percent, and California and Montana each at 51 percent.

New Mexico is next at 50 percent, Idaho at 49 percent, Arizona and Wyoming each at 46 percent and Alaska at 39 percent.

RSD

Great Basin College is now registering students for spring classes. Above, Yvonne Sutherland helps Morris Tatum with application forms.

Students now registering for classes at Great Basin

By Sandy Miller

Students are now registering for the spring semester at Great Basin College located at 1500 College Parkway.

Most spring classes begin Jan. 22 and weekend classes, scheduled for working students, will begin Jan. 6. The weekend schedule includes introductory courses in humanities, political science, sociology, geography and family relations.

GBC offers a wide variety of classes leading to associate of arts and associate of science degrees that are transferable to most universities. The college also offers courses leading to associate of applied science degrees in business administration, nursing, computer science, criminal justice, early childhood education, office administration and mining technology.

The college offers one-year certificate programs in accounting technology, business administration, computer science, early childhood education, engineering technology, secretarial, general clerical, legal secretary, maintenance electrician, mill maintenance, auto technical arts, diesel technical arts, welding technology and word processing.

The community service class schedule offers everything from exercise classes to Hollywood's portrayal of Vietnam to Mexican cooking.

Course rosters and college applications are now available at Student Services located inside Berg Hall.

Students may register using touch-tone phones until Jan. 16 by calling 753-2100 between 8 a.m. and 9 p.m.

Monday through Friday, noon to 10 p.m. Saturday and noon to 6 p.m. Sunday. Full payment for phone registrations must be made by Jan. 16.

Walk in registration will be available beginning Jan. 3 in Student Services located inside Berg Hall. Walk-in hours are 8 a.m. to 5 p.m. Monday, Tuesday, Thursday and Friday and 8 a.m. to 7 p.m. Wednesday. All fees are due at the time of registration.

The registration fee for most courses is \$33.50 per credit hour and Mastercard, Visa and Discover cards will be accepted. Some courses also have lab fees and fees for community service courses vary.

Seniors 62 years old and older may register in state-supported college courses with space available at no charge, though they must pay lab fees.

New students must complete an application before registering and there is a \$5 fee to process the application. English and math placement testing is available from 8 a.m. to 3 p.m. Monday, Tuesday, Thursday and Friday, and from 8 a.m. to 5 p.m. Wednesday. Beginning in January, placement testing will be offered until 7 p.m. Wednesdays.

All new students taking six or more credit hours must attend a new student orientation. New student orientation will be offered from 2 p.m. to 3:30 p.m. Jan. 10, 9 a.m. to 10:30 a.m. Jan. 12 and from 5 p.m. to 6:30 p.m. Jan. 16. Counseling will be available Jan. 10 when faculty returns from the Christmas break.

GBC offers a number of special services to meet students' needs. The

college's Financial Aid office can help students with grants, loans, scholarships, work-study programs and tuition waivers. The office can be reached by calling 753-2267.

The college's Re-Entry Center offers job placement services, pre-employment training and career guidance to the economically disadvantaged, single parents, teen parents and pregnant teens, displaced homemakers, disabled individuals and high school dropouts. The center can be reached by calling 753-2291 or 753-2243.

The Nevada Small Business Development Center offers one-on-one counseling to small business owners and those wanting to start a new business. The center can help with business management, development, analysis, loan packaging, marketing, financing and record keeping. The center can be reached at 753-2245.

GBC's Mining Center offers 45-week certificate and degree programs in diesel mechanics, mill mechanics and maintenance electrician, a one-year program in laboratory technology, and programs in welding, mine safety and computer instruction. The center also offers short courses in Ford factory training, hydraulics, electricity, air conditioning, auto mechanics and math and measurement. The center can be reached at 753-2303.

The Elko County Adult High School Diploma Program can help students 17 and older prepare for a high school diploma or General Education Development degree. Those interested may call 753-2233.

CHOICES.

*We all make them.
We all live with them.*

*Great
Basin*
COLLEGE

When it comes to education, Great Basin College
wants to be your **FIRST CHOICE**

Let's examine some facts you shouldn't ignore:

1. **The Success Rate:**
Statistics show that students who attend Great Basin College before transferring to a four-year university get better grades and are more likely to complete a degree program.
2. **The Cost of an Education:**
\$36.50 per credit (at GBC) versus \$64.00 per credit (at UNR, UNLV) or a whopping out-of-state tuition fee ranging from \$1,500 to \$8,000 per year or more.
3. **The Cost of Living Expenses:**
The cost of living at home versus an average \$5,000.00 fee for a residence hall and food contract per year.
4. **Opportunities for Personal Growth Abound:**
Participate as an important member of musical, theatre, scholastic, academic, and student government organizations.
5. **Financial Support:**
GBC has scholarships available in excess of \$300,000.00.
6. **Flexible Schedules:**
Because GBC is a commuter college, you can schedule work around your class schedule.
7. **Employability:**
A student can be job ready in many fields after only two years versus an additional two or more years of study.
8. **The Personal Touch:**
You will be part of an Associated Student Body that boasts 3,000 students versus 12,000 or more students. That translates as smaller classes with more access to your professors, the latest technology and equipment.

*That's just a few of the reasons Great Basin College is
a great choice...for you, your family, your future.*

REGISTRATION FOR FALL 1996 IS NOW UNDERWAY.
CLASSES BEGIN SEPTEMBER 3 UNLESS OTHERWISE NOTED IN

CI 417/617 Special Education Curricula: Approaches for Adolescents, 3 credits

Needs of adolescents with cognitive and behavioral disorders in secondary school special education programs. Strategies to improve academic, social, career/vocational and transition skills. Prerequisite or corequisite: CI 313 Survey of Mental Retardation, CI 314 Survey of Learning Disabilities, CI 315 Survey of Behavioral Disorders.

Tuesdays 4-6:45 p.m. January 23 - May 14 Room: GTA 124
Instructor: M. Warner, Ph.D. Fee: \$183 undergrad. / \$252 grad.

EL 734 Special Education Law, 3 credits

Case law with special consideration given to litigation relating to students with disabilities and school officials. Prerequisite: EL 700 Basic Principles of Educational Administration or equivalent.

Thursdays 4-6:45 p.m. January 25 - May 9 Room: GTA 124
Instructor: Richard Daugherty, Ph.D. Fee: \$252 graduate

MGRS 310 Marketing Principles, 3 credits

Objectives and policies of marketing managers as influenced by marketing institutions, the functions performed and consumer wants and needs in a diverse culture. Prerequisite: completion of lower division business core.

Monday/Wednesdays 7-8:15 p.m. January 22 - May 15 Room: GTA 124
Instructor: Ted Mitchell, Ph.D. Fee: \$183 undergraduate

SW 474/674 Social Intervention in Alcohol and Drug Abuse, 3 credits

Identification, treatment, prevention and control of drug addiction and alcoholism. Also HS 474/674.

Tuesdays 7-10 p.m., January 23 - May 14 Room: GTA 120
Instructor: Daniel Tutty, M.S.W., L.C.S.W.
Fee: \$183 undergraduate / \$252 graduate

ENGL 301 Ideas, Values and Cultures, 3 credits

Ideas, values and cultures as they relate to conceptions of man, society, and the cosmos. Based on Western, non-Western, and women's primary source material.

Fridays 6-9:00 p.m. Saturdays 9 a.m. - 4 p.m. Room: GTA 120
February 2-3, February 23-24, March 8-9, March 29-30, April 12-13
Instructor: Peggy Ann Duffy, M.A. Fee: \$183 undergraduate

MUS 484/684 Workshop/Conference in Music, 1 credit

Topics in music and music education in conjunction with the Nevada All-State Band and Chorus conference.

April 23 - April 26 Elko High School and Elko Convention Center
Instructor: A.G. "Mack" McGrannahan, D.M.A.
Fee: \$61 undergraduate / \$84 graduate

UNR offers classes in Elko each semester. You must preregister for UNR courses at least one week prior to the starting date of each class. STUDENT SERVICES, BERG HALL**

**ZERO CREDIT COURSES:
COLLEGE COMMUNITY CENTER**

**FEES:
PAYABLE AT REGISTRATION**

**NORTHERN NEVADA
COMMUNITY COLLEGE
901 ELM STREET
753-2102**

REGISTER NOW THROUGH JUNE 1

■ HOW TO ENROLL

Admission
Admission is kept as open as possible in order to make NNCC courses accessible to a wide population. Some courses may have prerequisites, and some courses may be limited in enrollment either by their nature or because of limited facilities. NNCC provides a variety of summer courses including developmental English courses for high school students, college transfer courses, and community service courses.

NNCC actively supports equality of educational and employment opportunity — no person shall be denied admission to any educational program or activity or be denied employment on the basis of any legally prohibited discrimination. The College is guided by the principles that equal opportunity means more than equal employment opportunity and that access to facilities and services shall be available to all regardless of race, age, religion, color, sex, disability, or national origin. If you have evidence of practices not consistent with this policy, please make them known to the Assistant Vice President for Student Services who is the Affirmative Action Officer. For more information call 753-2102 or visit Student Services, Berg Hall.

Placement Testing
English and Mathematics Placement Testing is available daily before 3 p.m. You should have your ACT or SAT scores available during registration to bypass placement testing. If you have not taken mathematics classes at NNCC, you should take the placement test and talk with an adviser about an appropriate class in the mathematics sequence. It's a test you can't fail.

■ FEES AND EXPENSES

Credit/Audit Courses
\$33.50 per credit.

Community Service Courses
(courses with a "C" or "Z" following the number) Pay fee indicated.

Application for Admission Fee
\$5.00 (non-refundable)
A onetime, non-refundable \$5 fee is assessed for students who have not attended NNCC before. Senior citizens (62 or older) do not pay an application fee.

Laboratory Fees
Some classes have lab fees. Senior citizens must pay lab fees. Please note the amount listed in the total fee column includes both the per credit fee and any laboratory or special fees.

Telecourse Fee
\$10.00 per course.

Senior Citizens
Students 62 years of age and older will be charged one-half of the tuition for regular, Community Service classes, and zero credit Community Service classes. All lab fees will be assessed.

■ PAYMENT OF FEES

All fees are due and payable at the time of registration. You may pay fees in person at the Controller's Office. Your personal check or money order made payable to the **Board of Regents** is accepted in payment of fees and bills. Include your social security number on your check/money order to insure proper credit. Your canceled check is your receipt. A \$15.00 collection fee is assessed for any check returned by the bank. A check must be made good within ten (10) days after notification by the college. You may also pay fees by Mastercard, Visa, or Discover.

Fee Holds
Prior term holds must be paid at the Controller's Office, Berg Hall, before registering.

■ REFUNDS

Refund Schedule
It is the student's responsibility to officially drop their courses at Student Services. A refund of 100% of the registration fee shall be made to students withdrawing before the second class meeting and 50% if initiated during the first 20% of the summer term. No refund shall be made after 20% of the term has elapsed. The \$5.00 application for admission fee is non-refundable.

Community Service Refunds
No refunds for Community Service classes.

■ SPECIAL SERVICES

If you are disabled, you may obtain enrollment assistance by calling Student Services, 753-2102, prior to the registration period.

■ REGISTRATION

Registration is by walk-in only at Student Services, Berg Hall, weekdays from 8 a.m. to 5 p.m. Registration ends Thursday, June 1 at 5 p.m. Register early to avoid possible cancellation of a class due to low enrollment.

■ INSTRUCTION BEGINS

Instruction begins June 8 unless otherwise indicated on the course roster. Summer Session ends July 28.

■ CLASS CANCELLATIONS

Classes must sometimes be canceled due to insufficient enrollment. NNCC does not notify students of canceled classes and it is the responsibility of the student to check on the status of a class before attending the first session. Cancellations will be posted in each major building.

METAMORPHOSIS

Northern Nevada Community College - Be A Part Of It!

■ HOW TO ENROLL

Admission

Admission is kept as open as possible in order to make GBC courses accessible to a wide population. Some courses may have pre-requisites and some courses may be limited in enrollment either by their nature or because of limited facilities. GBC provides a variety of summer courses including developmental English courses for high school students, college transfer courses, and community service courses.

GBC actively supports equality of educational and employment opportunity. No person shall be denied admission to any educational program or activity or be denied employment on the basis of any legally prohibited discrimination. The College is guided by the principles that equal opportunity means more than equal employment opportunity and that access to facilities and services shall be available to all regardless of race, age, religion, color, sex, disability, or national origin. If you have evidence of practices not consistent with this policy, please make them known to the Assistant Vice President for Student Services who is the Affirmative Action Officer. For more information call 753-2102 or visit Student Services, Berg Hall.

Placement Testing

English and Mathematics Placement Testing is available daily before 3 p.m. You should have your ACT or SAT scores available during registration to bypass placement testing. If you have not taken mathematics classes at GBC, you should take the placement test and talk with an adviser about an appropriate class in the mathematics sequence. It's a test you can't fail.

■ FEES AND EXPENSES

Credit/Audit Courses

\$36.50 per credit.

Community Service Courses

(Community Service courses have a "C" or "Z" following the number or 0000 call numbers). Pay fee indicated.

Application for Admission Fee

\$5.00 (non-refundable)

A one-time, non-refundable \$5 fee is assessed for students who have not attended GBC before. Senior citizens (62 or older) do not pay an application fee.

Laboratory Fees

Some courses have lab fees. Senior citizens must pay lab fees. Please note the amount listed in the total fee column includes both the per credit fee and any laboratory or special fees.

Telecourse Fee

\$10.00 per course.

Online Fee

\$5.00 per course.

Senior Citizens

In-state students 62 years of age and older may register in any state-supported college class on a space available basis at 1/2 tuition. Senior citizens will be assessed all lab fees and one-half of the assessment for credit Community Service classes. Zero credit Community Service classes will be assessed at the full fee.

■ PAYMENT OF FEES

All fees are due and payable at the time of registration. You may pay fees in person at the Controller's Office. Your personal check or money order made payable to the Board of Regents is accepted in payment of fees and bills. Include your social security number on your check/money order to insure proper credit. Your canceled check is your receipt. A \$15.00 collection fee is assessed for any check returned by the bank. A check must be made good within ten (10) days after notification by the college. You may also pay fees by Mastercard, Visa, or Discover.

Fee Holds

Prior term holds must be paid at the Controller's Office, Berg Hall, before registering.

■ REFUNDS

Refund Schedule

It is the student's responsibility to officially drop their courses at Student Services. A refund of 100% of the registration fee shall be made to students withdrawing before the second class meeting and 50% if initiated during the first 20% of the summer term. No refund shall be made after 20% of the term has elapsed. The \$5.00 application for admission fee is non-refundable.

Community Service Refunds

No refunds for Community Service classes.

■ SPECIAL SERVICES

If you are disabled, you may obtain enrollment assistance by calling Student Services, 753-2102, prior to the registration period.

■ REGISTRATION

Registration is by walk-in weekdays from 8 a.m. to 5 p.m. Registration ends Friday, June 7 at 5 p.m.

For credit courses:

Register at Student Services, Berg Hall.

For Kid's College:

Register at the Office of Instruction, Lundberg Hall.

Register early to avoid possible cancellation of a class due to low enrollment.

■ INSTRUCTION BEGINS

Instruction for Summer Session begins June 10 unless otherwise indicated on the course roster. Summer Session ends July 27. The "pre-fall mini-session" begins July 8 and ends August 31.

■ CLASS CANCELLATIONS

Classes must sometimes be canceled due to insufficient enrollment. GBC does not notify students of canceled classes and it is the responsibility of the student to check on the status of a class before attending the first session. Cancellations will be posted in each major building.

UNR offering courses⁸⁻²³ at Elko NNCC campus^{EDFP 95}

University of Nevada, Reno, is offering courses on health care, the internet and library sciences this fall in Elko through its division of continuing education.

A series of telecourses for health care professionals, including nurses, social workers, counselors and doctors, will be held from 8:30 to 10:30 p.m. on Thursdays, from Sept. 14 through Dec. 7, at Northern Nevada Community College, GTA Building, Room 124.

The instructors are Gerald Ackerman and Bettie Rundlett. Those interested in registering may contact Rundlett, the series coordinator, at 738-3828.

Another course will teach students how to explore the internet. Students will gain valuable skills necessary to use the internet as a telecommunications tool for teaching and learning, the university said.

The course will be held from 4 to 9:30 p.m. Sept. 13 and 14, and Sept. 19, when there will be two hours of

supervised "cruising the internet." The class meets at Elko High School, 987 College Ave. The instructor is LaMont Johnson, professor of curriculum and instruction at the UNR.

The one-credit fee is \$94 and payments are due Sept. 8. More information is available through the community coordinator for Elko, Angela de Braga, at 738-7659.

A third class, Bibliography and General Reference, will teach students basic library science, including instruction on reference materials and bibliographies.

The class will meet from 5 to 8:30 p.m. Fridays and from 8 a.m. to 5 p.m. Saturdays, Sept. 15-18, Oct. 20-21, Nov. 3-4 and Nov. 17-18. Students will meet in the NNCC Learning Resource Center, 901 Elm St.

The cost of this three-credit undergraduate course is \$183. Payments are due Sept. 8. The instructor will be Jeanette Baker. Those wishing to register may call de Braga at 738-7659 or reach her facsimile machine at 753-7843.

3 credits
Prerequisite: Introductory psychology or consent of instructor. A study of human personality including personality development, theories of personality, assessment of personality, lifestyles, deviance and disorder, and mental health.
Instructor: Janice King
Thursdays, 1-4 p.m., Location: NNCC.
Total Fee: \$330.00

COMPLETE YOUR UNDERGRADUATE DEGREE

Sierra Nevada College offers baccalaureate degrees in Humanities. A fifth year option in education is also available, which leads to teacher certification in Nevada and eligibility for certification in California. Sierra Nevada College will have representatives available on the Northern Nevada Community College campus to discuss programs and do fall class registration. If you would also like specific advising, please bring copies of transcripts. (Berg Hall Conference Room)

Wednesday, August 30 from 3 to 8 p.m. and Thursday and
August 31 from 9 a.m. to 1:30 p.m.

Accounting course at NNCC

Learn about accounting and disclosure techniques and their impact on external financial reporting offered by the University of Nevada, Reno in Elko. "Financial and Managerial Accounting" (BADM 710) will be offered as both a telecourse and an on-site course. The telecourse will be held September 8, 29, October 20 and November 17, Fridays from 6:00-9:00 p.m. at Northern Nevada Community College, GTA Building, Room 124. The on-site course will be September 3-4, Friday from 6:00-9:00 p.m. and Saturday from 9:00 a.m. to 5:00 p.m. Students will prepare, analyze and interpret financial reports.
The fee for this three-credit graduate course is \$252. The instructor is Janet Vreeland, Ph.D., assistant professor of accounting and computer information at the University of Nevada, Reno. To register or for more information, contact the community coordinator for Elko, Angela de Braga, 901 Elm Street 738-7659, FAX: 753-7843.

Small business management focus of Elko UNR telecourse

Humboldt 8-8-95

Small business management is the topic of a telecourse in managerial science offered this fall in Elko by the University of Nevada, Reno.

"Advanced Seminar in Management" (MGRS 491) will be held Tuesdays, Aug. 29-Dec. 19, from 7:45 p.m. at Northern Nevada Community College, in GTA Building, Room 124, 901 Elm St., in Elko.

The three-credit undergraduate course fee is \$183 and preregistration and payment are due Aug. 22.

This telecourse will offer a comprehensive look at all of the operating systems and environments faced by small business.

The course will feature a number of guest speakers from specific disciplines in small business and students must meet the prerequisites for this course.

The course instructor is Robert Barnes, M.B.A., a lecturer and professor managerial science at the

University of Nevada, Reno.

Telecourses are offered across the state via electronic distance education and various technologies are used to deliver these courses including live, interactive audio link among all class sites.

Most include a video link where students ask and answer questions during class over microphones located on their desks.

With this unique approach to learning, students can save travel time by attending classes at a local site while participating in the campus class.

To preregister or for more information, contact Angela de Braga, the community coordinator for Elko, at Northern Nevada Community College, 901 Elm St., Elko, NV 89801, (702) 738-7659 or FAX (702) 753-7843.

Great Basin College is accepting applications for a temporary 10-month Computer Office Technology Instructor position. Bachelor's degree required; master's preferred. Minimum teaching experience and office experience preferred. Salary placement based on degrees and experience. Assignments include teaching basic computer operations and applications, operating systems, telecommunications, including the internet and on-line classes. Involves teaching day and evening classes and possible weekends. May involve use of telecommunication systems to deliver classes throughout local service area. Some travel required. Applicants should submit letter of application, current vita, three current letters of recommendation and official transcripts to: Lucina Lewis, Great Basin College, 1500 College Parkway, Elko, NV 89801, (702) 753-2253. Application deadline: 5:00 p.m., August 9, 1996. ANEEOE.

EDFP 7-26-96

College offering variety of classes and seminars

EDFP 9-16-95

Great Basin (formerly Northern Nevada Community) College is offering a number of late-starting classes in everything from business to stress management.

Hal Cannon is teaching "Introduction to Film" from 6 p.m. to 9 p.m. Wednesdays. The class surveys the history of American film from many perspectives, including as documents of popular culture, history, art, technology, propaganda and ultimately, works that have strong personal meaning.

Students will study the progression of American film making through the decades. Cannon will begin each class with a brief introduction of the film or films to be shown that evening and end each class with a brief discussion. Students will also be given writing assignments on material discussed in class.

The following films will be shown: Sept. 20, Gold Diggers of 1935; Sept. 27, She Wore a Yellow Ribbon; Oct. 4, Pinocchio; Oct. 11, African Queen; Oct. 18, West Side Story; Oct. 25, Dr. Strangelove or How I Learned to Stop Worrying and Love the Bomb; Nov. 1, Occurrence at Owl Creek; Nov. 8, Burden of Dreams; Nov. 15, Highly Exalted and Cowboy Poets; Nov. 22, Apocalypse Now; Nov. 29, Northern Lights; Dec. 6, Stranger than Paradise; Dec. 13, presentation of projects and holiday shorts.

Other films that may be discussed include Grapes of Wrath, Sunset Boulevard, Misfits, North by Northwest, Shane, Sherman's March, Reservation Highway, Do the Right Thing and One Flew Over the Cuckoo's Nest.

The fee for the course is \$100.50. Those interested may contact Student Services at 753-2103.

Instructor Tracy Echeverria will teach "Financial Solutions and Business Financial Management Using Lotus" from 9 a.m. to noon next Thursday and from 9 a.m. to 4 p.m. Oct. 20 and Nov. 3. The course will show students how to monitor the finances of a small business. It will consist of a three-hour seminar titled "Financial Solutions — Beyond Survival in Small Business" and a 12-hour workshop called "Business Financial Management Using Lotus." The fee for the course is \$68.50.

Late-starting office courses in-

clude "Typing I/Keyboarding," which will be offered from 9 a.m. to 4 p.m. Fridays beginning next week and ending Nov. 3. The course will teach students the keyboard by touch using a computer. The class covers alphabet keys, number keys and symbol keys and emphasis is placed on keyboarding techniques, speed and accuracy. The fee for the course is \$105.50.

Teachers can learn to manage stress by taking "Education 295B, Teachers Managing Stress and Preventing Burnout." The two-day workshop is scheduled from 4 p.m. to 9 p.m. Friday and from 8 a.m. to 5 p.m. next Saturday. Duane Hoem of the Community Counseling Center designed the one-credit course specifically to meet the needs of classroom teachers. Students will learn stress management, relaxation techniques, the power of positive thinking, assertiveness and "enduring to the end" without burnout. The fee for the workshop is \$33.50.

Instructor Jack Smith will teach "The History of the Mexican Nation," a course that will cover the history of Mexico from pre-Spanish societies to the present with an emphasis on social and cultural aspects. The class is scheduled from 12:30 p.m. to 1:45 p.m. Mondays and the fee is \$100.50.

A new "Employment Law" class will be offered from 6 p.m. to 9 p.m. Sept. 28-29 and from 9 a.m. to 4 p.m. Sept. 30.

"We provided this class for local employers so they do not have to travel out of town," said Lynn Mahlberg, Great Basin College interim academic vice president. "The class

focuses on updates on key employment law issues."

Local attorneys Robert Goicoechea, Gary DiGrazia and Thomas Coyle Jr. will present the three-session workshop that will cover Worker's Compensation claims and the Nevada Industrial Insurance Act, public employees and collective bargaining units, sexual harassment in the workplace and recent developments in employment law and wrongful termination. The fee for the workshop is \$33.50.

Those interested in registering for late-starting classes may call Student Services at 753-2103.

NNCC offering courses for variety of interests

9-1-95 EDJFP

Northern Nevada Community College is offering a number of classes this fall to satisfy a variety of interests.

NNCC and El Aero Services have teamed up to give students the opportunity to "earn their wings" and qualify for their private pilot's license. Basic Ground School for Pilots will be offered from 7 p.m. to 10 p.m. Wednesdays beginning Sept. 6.

FAA certified instructor Jay Erwin will teach students federal air regulations, aerial navigation, radio, general service, and safety practices to prepare them to pass the FAA exam.

Through the cooperation of El Aero Services, NNCC will again be able to offer a complete private pilot package that takes students from ground school through solo instruction. Fifty hours of flying time, including 25 hours of dual instruction and 25 hours of solo flight, will prepare students for the FAA examination. Students may arrange to pay their Flight Training course fees in \$500 increments that will qualify them for the discount fee of \$3,250. Those interested may call Pat Warren at 753-2231.

NNCC also will offer Motorcycle Safety from 6 p.m. to 9 p.m. Sept. 15 and from 8 a.m. to 5 p.m. Sept. 16-17. The program is a joint effort between NNCC and the Nevada Rider Motorcycle Safety Program, Nevada

Office of Traffic Safety, Jeff's Cycle Shack and the Motorcycle Safety Foundation.

The course will include both classroom instruction and actual riding. Motorcycles will be provided.

The comprehensive 19-hour course was designed by the National Motorcycle Safety Foundation to teach riding skills to beginning through experienced riders. Students may earn their Nevada Motorcycle Driver's License upon successful completion of the course, which also often qualifies students for a reduction in insurance rates.

The course fee is \$79 and those interested may call NNCC at 753-2301. Class size is limited to the first 12 students registered.

NNCC also will offer several classes to help students stay fit.

A new "Beginning Tennis" class is scheduled from 9 a.m. to 11 a.m. Mondays, Wednesdays and Fridays, Sept. 18 through Oct. 20. U.S. Professional Tennis Association certified instructor Kurt Taylor will teach the basics of tennis. The course fee is \$67 and students must bring their own rackets and tennis shoes.

NNCC Instructor Sheong "Connie" Eikenberry will offer a new course entitled "Tai Chi Workout," which combines the 24 classic Tai Chi movements into a comprehensive program to increase flexibility and

relax the students' minds and bodies. Having practiced Tai Chi for over 25 years, Eikenberry obtained a master's degree in physical education from Ball State University in Muncie, Ind. She completed her undergraduate work at Nanjing Medical College in mainland China.

"Tai Chi was part of the required curriculum for Chinese doctors because patients benefit from increased fitness, they sleep better and have reduced mental stress," Eikenberry said. She added that school children in China learn Tai Chi and practice it daily.

The "Tai Chi Workout" is scheduled from noon to 1 p.m. Tuesdays and Thursdays beginning Sept. 5 at the Elko Athletic Club. The fee is \$62.

Instructor Amy Buckingham-Flammang will teach three sections of Hatha Yoga. One class is scheduled from 8 a.m. to 9 a.m. Mondays, Wednesdays and Fridays beginning Sept. 8. The fee is \$125.50. A special class designed for senior citizens is scheduled from 9:30 a.m. to 10:30 a.m. Mondays, Wednesdays and Fridays beginning Sept. 6. The fee is \$100.50. Another class is scheduled from 5:30 to 6:30 p.m. Wednesdays beginning Sept. 6. The fee is \$33.50.

Those interested in registering for NNCC classes may call Student Services at 753-2102.

9-8-95 EDFP NNCC's substitute teacher courses told

Northern Nevada Community College will offer three one-credit weekend workshops this semester designed to help teachers meet state teaching requirements.

The Nevada Department of Education requires a minimum of 62 college credits along with at least six credits in education in order to obtain a substitute teaching certificate. In addition, public school teachers are required to take courses for re-certification purposes.

"Sink the Sub: A Substitute Teacher's Workshop" will be offered from 4 p.m. to 9 p.m. Sept. 15 and from 8 a.m. to 5 p.m. Sept. 16.

Instructor Ann Plocher will teach students effective discipline methods and creative ideas for classroom activities. She also will teach how to understand lesson plans. State and district requirements will also be covered.

"Teachers Managing Stress and Preventing Burnout" will be offered from 4 p.m. to 9 p.m. Sept. 22 and from 8 a.m. to 5 p.m. Sept. 23. Professional counselor Duane Hoem will teach students how to manage stress and prevent burnout through relaxation techniques and the power of positive thinking and assertiveness.

"Classroom Ecology" will be presented from 4 p.m. to 10 p.m. Nov. 3 and from 9 a.m. to 5 p.m. Nov. 4. Russ

Findlay, a range conservationist for the Bureau of Land Management, will be the instructor. Subjects covered will include identifying animal tracks, using the scientific method, learning the endangered species in the Great Basin area and compiling a nature spotter's kit. Teachers will also learn the best local sites to take their pupils on wildlife and ecology field trips.

The fee for the one-credit workshops is \$33.50. Those interested may register at NNCC Student Services located at 901 Elm St.

MBA class will begin at college

9-4-95
EDFP
The University of Nevada, Reno, College of Business Administration continues this fall with its Master in Business Administration Program at Elko.

After reviewing many applications, 30 students were accepted into the program that starts tomorrow.

The MBA program course material and instruction is identical to the one taught on the University of Nevada campus in Reno. However, many groups have cooperated to offer the MBA course in Elko.

The program provides for 30 hours of teaching using the campus and facilities of Northern Nevada Community College in connection with the Division of Continuing Education in Reno.

Twelve hours of instruction takes place using the Reno campus' Instructional Media Services 'Distance Education' program that allows Business School faculty to communicate with the students via live 'Compressed Video Interactive Television' coupled with faculty visits to Elko.

"The first graduates from the '94 class in Elko are making contributions to the community and their respective companies using the knowledge gained in the MBA Program," said Professor Brent Bowman, associate dean of the business school and director of graduate programs.

"The support of local businesses like Newmont Gold, Independence Mining and Barrick Goldstrike Mines in supplementing the additional costs of the program has helped make the program even stronger," he added.

Elko students will be learning more than just classroom information, they also will be able to use the University of Nevada System Network to access any type of electronic information in the University Library System or on the Information Super Highway including the Internet and World Wide Web.

Bowman said, "Instruction is also designed around flexible times to allow students who have families and work to get evening and weekend instruction."

The College of Business Administration also offers a bachelor's degree in Elko to prepare students for the MBA program. Anyone interested in this program can contact Angela de Braga, the University of Nevada, Reno, coordinator in Elko at 738-7659.

Fitness Classes at NNCC

9-13-95
Northern Nevada Community College offers classes to help you stay fit and get into shape. A new Beginning Tennis class has been added to the schedule on Monday, Wednesday and Friday mornings from 9-11 a.m. starting September 18 through October 20.

U.S. professional Tennis Association certified instructor, Kurt Taylor, will teach the basics of tennis. Students need to bring a racket and tennis shoes.

NNCC instructor Sheong (Comic) Eikenberry offers a new course entitled "Tai Chi Workout" which combines the 24 classic Tai Chi movements into a comprehensive program to increase flexibility and relax student's mind and body. Having practiced Tai Chi for over 25 years, Eikenberry obtained a master's degree in physical education from Ball State University in Muncie, Indiana, after completing her undergraduate work at Nanjing Medical College in mainland China. Tai Chi was part of the required curriculum for Chinese doctors" reports Eikenberry, "because patients benefit from increased fitness, sleep better, and reduce mental stress." Also, all school children in China

learn Tai Chi and practice it daily. Tai Chi Workout will be held on Tuesdays and Thursdays from noon to 1:00 p.m. at the Elko Athletic Club. Eikenberry coached women's volleyball teams in China and is an active member of the Elko Women's Volleyball League. She will also teach Volleyball/Wallyball and Progressive Aerobic Circuit Exercises.

Instructor, Amy Buckingham-Flammang will teach three sections of Hatha Yoga: Mondays, Wednesdays and Fridays from 8-9 a.m. with a special class designed for senior citizens from 9:30-10:30 a.m. on the same days and on Wednesdays from 5:30-6:30 p.m. to enable students who work 9-5 to receive the physical and mental benefits of Hatha Yoga. For early birds who want to start their day with a stimulating aerobic workout, instructor Betty Richardson's class offers students an individually monitored program which increases cardio-vascular fitness as well as promotes weight loss.

Students may get more information about registering for these classes by calling Student Services at 733-2102.

NORTHERN NEVADA
COMMUNITY COLLEGE
901 Elm Street

Barrick Goldstrike Mines Inc. recently donated approximately \$9,000 of used electrical equipment to the Northern Nevada Community College's Electrical Program. The electrical program primarily trains students to work in the mining industry after completing their required courses. Graduates have already been successfully placed as electricians at a number of northern Nevada mines. Because the electrical program at NNCC is relatively new, it does not have a large budget to purchase electrical equipment to be used as training material for the students.

Shown above upon the presentation of the equipment, Don Gilbertson, Barrick Goldstrike Process E & I Tech, Steve Garcia, NNCC Electrical Instructor, and Dave Steadman, Barrick Goldstrike Process E & I Tech.

Late classes still open at community college

EDFP 5-1-95

Northern Nevada Community College's fall semester begins tomorrow and walk-in registration for late-starting classes continues daily from 8 a.m. to 5 p.m.

The college announced a second section of American Sign Language has been added to accommodate a strong interest in the course. The course fulfills a transferrable language requirement at University and Community College System of Nevada schools. Sharon Zrudsky of Family Hearing Services will teach the course. Interested students should enroll for call number 01380, AM 145, section E02 for four credits. The class will meet Monday evenings from 6-9 p.m. in Lundberg Hall, Room 9.

A new course is the SPTH 130, Introduction to Acting, offered by instructor Debbie Bailey. The course is being offered to coincide with the opening of the new college theatre. The course will cover acting skills and terminology. Participants will learn to portray several characters from different scripts, character analysis, and script analysis. Production of a one-act play also is planned. The class will meet Tuesdays and Thursdays from 12:30 to 1:45 p.m.

Another course of special interest is MGT 294B, Leadership and Human Relations. Instructor Valerie Mortensen will be the presenter and states, "This course promotes an understanding of human behavior and its effect in the workplace. You will develop a better understanding of self-leadership and explore some of the more effective ways of leading others. The critical nature of communication and empowerment as core elements in successful leadership will also be covered. Various workplace issues and strategies will be addressed. Central to the course is the importance of personal values, principles, and ethics as they relate to success with people at work." Sessions will meet Thursdays from 5:30 to 8:30 p.m.

To register for these classes or additional late-starting classes, people can visit Student Services in Berg Hall or call 753-2102.

Great Basin offers computer courses

EDFP 10-7-95

Great Basin College has two classes this month on Microsoft software for the office and computer assisted drafting.

"Overview of the Microsoft Office" will be held from 5:30 p.m. to 6:45 p.m. Wednesdays from Oct. 11 through Nov. 8. Instructor Ann Wright will introduce students to Word, Excel, Access and Powerpoint and show them how to integrate software. The fee for the one-credit course is \$38.50.

"Computer Assisted Drafting" will be offered Oct. 13-14, Oct. 27-28 and Nov. 17-18. Classroom sessions will be held from 1 p.m. to 5 p.m. Fridays and laboratories will be held from 8 a.m. to 5 p.m. Saturdays. Instructor

Richard McCarty will show students how to use computers to make blueprints, maps, mechanical drawings and electrical designs. Students will use an industrial CAD program, microcomputer, digitizer and plotter to do assignments. The fee for the three-credit course is \$115.50. Those interested in registering for the courses may call Student Services at 753-2103.

Firearms training class to be offered at college

EDFP 10-16-95

Great Basin College and the Elko County Sheriff's Department will offer a "Defensive Firearms Training" course from 6 p.m. to 9 p.m. Fridays and from 8 a.m. to 5 p.m. Saturdays and Sundays for two weekends beginning Nov. 3. Another section will be offered from Nov. 17-26.

The two-credit course meets the training requirements set forth by Chapter 202 of the Nevada Revised Statute — the Concealed Firearms Permit Act.

Instructors Marty Shaw and Walt Young will teach participants how to safely carry, handle, store, and shoot their firearms of choice.

Students will learn the three elements of danger that must be present before deadly force may be used. They will also learn how to select the

correct ammunition for defense and public safety.

Students will become aware of the responsibility and liability inherent in carrying or using a firearm in self-defense as well as how to summon the correct authorities in emergencies and deal with post traumatic stress. Students will spend two days on the shooting range and will be required to pass a range test as well as a written test.

The fee for the course is \$92 which includes a \$25 fee for materials. Firearms will not be allowed on campus, and enrollment is limited to the first 20 students registered in each section. Students may register at the Student Services Office in Berg Hall located at 1500 College Parkway.

(Sandy Miller/Free Press)

Fourth grade student Kevin Schmidt cruises the Internet in one of Great Basin College's computer labs with help from Great Basin instructor Karen Tempel. Teachers Kathy Balliet and Gaby Junell and their fourth-grade class are spending five weeks at the college learning how to do research on the Internet.

Technology expanding in Elko County schools

By Sandy Miller

When Spring Creek High School first opened its doors in the fall of 1993, students were given their own computer password allowing them instant access to the information highway from a number of computer sites around the school.

Students in Elko County schools now use computers to research term papers, design cars, create elaborate graphic displays and figure out algebra problems. They're cruising the Internet and using Desktop Publishing to lay out the school paper.

With the arrival of Internet, comes the first generation of students who will never have to set foot in the school library if they don't want to. With a computer and a modem, they can do all their research from their own living rooms.

Fourth grade pupils in Kathy Balliet's class for scholastically talented students are spending five weeks in one of Great Basin College's computer labs learning to do research on the Internet.

"Internet is invaluable for research," said Balliet, who along with fellow teacher Gaby Junell, teaches the district's talented students. "They're exploring all the different resources and information available."

Balliet said computer skills are a must if children are to succeed in the classroom and the workplace.

"It's unbelievably important," Balliet said. "They have to know how to do this. These kids, who are so bright, are going to be the leaders. We can't ignore that we're in the information age, and these kids have to be part of it."

Most schools in the district have at least one phone modem and one teacher hooked up to the Internet, and every school in Elko has one or more teachers who can access Internet from the classroom, said Bill McLeod, director of financial services, facilities and vocational education for the Elko County School District.

Technology is constantly improving and expanding in the Elko County School District. Most all elementary school classrooms house one or two Apple, McIntosh or IBM computers, laser printers and CD-ROMS, as well as a variety of software learning programs. Math-Safari helps elementary students improve their math skills while Geo-Safari answers their questions about geography.

"Technology changes on a daily basis," McLeod said. "Schools are constantly adding software and computer labs are being upgraded. There's a wide variety of instruction areas."

Mountain View Elementary School, with the help of its Parent

ation skills of special needs children.

West Wendover's special education classroom utilizes a program called Learning Process Skill Exercises, which helps special needs children with visual, kinesthetic (body movement), abstract and auditory processing.

Junior and senior high schools have even more elaborate programs. Elko Junior High School students have access to Microsoft Flight Simulator, which teaches them the basics of flight physics, control and various other rules of flight, as well as the use of radio navigation. Virtual Pilot is used to control the propeller driven Cessna 182. Students have even designed a CO2 Dragster on a computer.

In addition to classroom computers, Elko High School has two computer labs, each equipped with 22 IBM work stations. Computer classes teach word processing, database and spreadsheet using Microsoft Works and BASIC programming, and students have access to a variety of software, including Word Perfect, Quattro Pro, Microsoft Excel, Microsoft Word, Harvard Graphics and others. Desktop programs like Microsoft Publisher are used to produce newsletters. Students also have access to the Internet.

Spring Creek High School art stu-

dents use computers to create elaborate graphic designs and drafting students use Auto CAD to create three-dimensional drawings.

Technology classes offer hands-on instruction in lasers, robotics, plastics, aerodynamics, satellite communications and fiber optics. "Lanschool" allows teachers to use their personal computers to send out instruction to students at other work stations in the same room, and teachers can observe each student's station using one of the menu options.

If a student is having a problem, the teacher can view the student's screen and assist with the problem using the same screen.

Like Balliet, McLeod said knowledge of computers is vital if students are to be able to function in tomorrow's workplace.

"You couldn't find a workplace of size in town that doesn't have computers," McLeod said. "We get hit daily with technological advances."

Superintendent Marcia Bandera said although computers are a helpful learning tool, they can never take the place of the daily human interaction and discussion between teachers and students.

"Technology is a tool to help students learn material, but it's not the only way," Bandera said. "Classroom interaction is also important. There must be a balance in everything."

GBC Classes E-By 10-7-95

The Great Basin College condensed schedule classes start next week.

A two-weekend project management class taught by a professional project manager working on the Magma project will start next week.

The college also is starting a computers for seniors class with is tuition free, for people over age 62, and a Microsoft Excel spreadsheet course.

A proficiency certification for concealed firearms, taught by the White Pine County Sheriff's Department, will start on Oct. 11 to provide training to obtain a concealed firearms permit under the new Nevada law.

A yoga class for all ages is being offered, covering several yoga practices to enhance flexibility strength and balance.

Line dancing classes offered by the college are taught at the Holiday Inn also are starting next week. What It Takes, Welding, Concert Choir, Porcelain Doll Making and an education course to substitute teachers also are offered.

For more information call the college at 289 3589.

(Sandy Miller/Free Press)

Home decorating experts at Bella Interiors will offer a "Home Decorating: Express Yourself with Home Fashions" workshop Saturday at Great Basin College. Pictured, from left, are home decorators Lori Groves, Linda Osmun and Darlene Salicchi.

Home decorating class set

Darlene Salicchi of Bella Interiors will present a "Home Decorating: Express Yourself with Home Fashions" workshop on from 1 p.m. to 3 p.m. Saturday at Great Basin College's Berg Hall located at 1500 College Parkway.

Salicchi said she will teach participants how to personalize and stylize their home by creating a theme that reflects their own family's personality. Themes include country French, cowboy-western, lodge and formal.

Whether students are building a new home, remodeling a room, or just adding some accents to brighten their existing decor, they will each have the opportunity to ask profes-

sional designers Salicchi and Linda Osmun a variety of questions in a relaxed atmosphere.

The class will also include a basic overview of scale and color with an emphasis on understanding "how colors are made" to help students use colors to accent and compliment each other. According to Salicchi, selecting a paint color from a tiny chip, without an understanding of how warm and cool tones can be greatly exaggerated when covering an entire room, can often lead to an amateur decorator's disaster.

"Once the walls, floors and windows are covered, then the decorating begins," Salicchi said.

Accessories such as paintings,

lamps, picture frames and even light switches make a home unique, according to Salicchi. Table scaping can create a mood using silver and crystal or a bouquet of dried flowers.

The class will also show participants how to effectively use lighting to decorate a home, how to select and care for various fabrics and when it's best to consult a professional.

A special guest speaker from Robert Allen Fabrics in Salt Lake City is included on the program.

The fee for the course is \$15 and those interested should register at the Student Services Office in Berg Hall prior to the start of the class. The fee includes a shopping bag stuffed with manufacturer's brochures and fabric samples.

Epicurean Delights from GBC!

HEC 122B Creative Cooking
3/20-4/17

Instructor Don Miller, former owner and chef of Gratton's Fine Dining, will offer this course devoted to the best in creative cooking. Some of the delicious foods you'll learn to prepare include: leg of spring lamb (roasted and butterflied), Easter ham prepared with butter/thyme and mustard basted, fresh vegetables, garlic chicken rotisserie, roast garlic, home-smoked salmon with cajun seasoning, marinated flank steak, teriyaki, light fruit desserts, and more!

FST 285B Wine Appreciation
3/21-4/18

Participants must be 21 years of age or older to participate in this "vintage" course. The history of American, Italian, French, Spanish, and Chilean wines through the ages will be covered. You will learn proper terminology, how wine is processed, and taste the aging effect by sampling wines in process. Learn to correctly open a bottle of wine, evaluate the color, aroma, and taste, and how to select the perfect wine for every occasion.

Call 763-2102 for more information. Enroll at Great Basin College, Student Services, Berg Hall, 1500 College Parkway

Holiday cooking class to be offered at college

Don Miller, former owner and chef of Gratton's Fine Dining, will teach "Creative Cooking" 6 p.m. to 9 p.m. Mondays, Nov. 20 through Dec. 18.

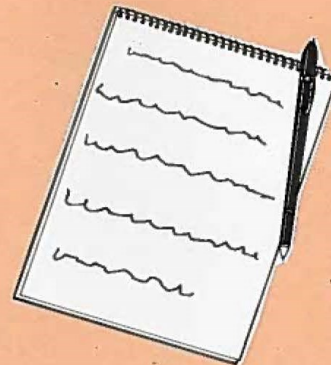

Chef Miller will demonstrate how to prepare a different course each week and students will create both traditional and non-traditional holiday fare, including cold artichokes with smoked ham dressing, marinated chicken wings and shrimp scampi.

Entrees will include ham, turkey, goose, chateau briand and leg of lamb with garlic and mustard glaze. Desserts will include buttery lemon tarts, flourless chocolate espresso

cake with raspberry sauce and healthy baked apples with spiced cream cheese.

Students will receive recipes for quick and easy dishes as well as more time consuming gourmet fare. Miller will discuss how to select wines to accompany meals and will offer entertaining tips such as how to prepare a guest list that insures stimulating conversation.

The cost of the one-credit class is \$48.50, which includes a \$15 lab fee for ingredients. Enrollment is limited, so students are encouraged to register as soon as possible at Student Services in Berg Hall or call Pat Warren at 763-2231.

Computer courses at Great Basin College

Great Basin College will offer "Exploring the Internet" from 5:30 to 6:45 p.m. Tuesdays and Wednesdays Nov. 14 through Dec. 13.

Students will have the opportunity to explore the much publicized world of the Internet and learn how to access electronic mail, news groups, Gopher and the World Wide Web. Dial-in access from home is available for the class. The fee for the one-credit workshop is \$38.50. Those interested may call Larry Hyslop at 753-2305.

The college will offer "Beginning Microsoft Word 6.0 for Windows" from 4 p.m. to 10 p.m. Dec. 1 and

60 F P 11-9-895
from 8 a.m. to 5 p.m. Dec. 2. The class will show students how to create, edit, format and print documents. Students will explore the capabilities and features of Microsoft Word, including page, paragraph, and character formatting commands, the creation of documents with tables, reports and desktop publishing. The fee for the one-credit workshop is \$38.50.

Students may register for either of the above courses from 8 a.m. to 5 p.m. Monday through Friday at Student Services in Berg Hall located at 1500 College Parkway.

EDFP 11-4-95

Nevada Small Business Development Center

Elko Subcenter - Serving All of Northeast Nevada

The Small Business Development Center is a service of Great Basin College. We exist to serve your small business needs by providing the following:

Free, Confidential Business Counseling: We will work with you on everything from finance to marketing to customer service. We will do our best to provide the information you need.

Workshops and Classes: We sponsor seminars on a variety of business topics. If there is a seminar you'd like to see, let us know.

Tracy Echeverria, Management Consultant

Serving Your Small Business Needs - For more information, call 753-2245

(Sandy Miller/Free Press)

Merger: Northeast Nevada Regional Training Academy and Great Basin College have joined forces to provide a more comprehensive training program for reserve officers and deputies. The Elko County Sheriff's and Elko City Police Departments used to provide Category I peace officer training in makeshift classrooms. Under the terms of the merger, the departments will provide instructors and the college will provide the classroom space, teaching tools and administrative services for the course. Students will also have the opportunity to earn more than 30 college credits toward an asso-

ciate of applied science degree in criminal justice. The program is scheduled to begin Jan. 9 and those interested may call Lt. Dale Lotspeich at 738-7121 or Cpl. Will Lehmann at 738-8477. Pictured, from left, are Bud Burt, senior investigator with the Nevada Bureau of Enforcement; Lotspeich; Lehmann; Lynn Mahlberg, interim vice president of academic affairs at Great Basin College; Elko County Undersheriff Clair Morris; Elko Police Officer Don Zumwalt; and Bill Hecht, building and grounds director at Great Basin College.

ELDFP 12-30-95

GBC will offer several telecourses from UNR

University of Nevada, Reno, is offering several courses in the coming months through Great Basin College in Elko at 1500 College Parkway.

They include:
■ **Marketing Telecourse** — Learn about the policies and objectives of marketing managers. "Marketing Principles" (MGRS 310) will be held from 7-8:15 p.m. Mondays and Wednesdays, Jan. 22-May 15 in Room GTA 124.

The cost for this three-credit undergraduate course is \$183 with preregistration and payment due Jan. 15. Students must complete the pre-business core before taking this course, a UNR press release said.

Students will study consumer wants and needs in a diverse culture, the functions of a marketing manager, and the influences that institutions have on decisions made by marketing managers. The instructor will be Ted Mitchell, associate professor of managerial science at UNR.

■ **"Social Intervention in Alcohol and Drug Abuse"** (SW 474/674) — Students will learn how to identify, prevent, treat and control drug addiction and alcohol abuse. The course will be held from 7-10 p.m. Tuesdays, Jan. 23 through May 14 in Room GTA 120.

The cost is \$183 for three undergraduate credits and \$252 for three graduate credits. Preregistration and payment are due Jan. 16. The in-

structor will be Daniel Tutty.

Additional information on either course may be obtained through Angela de Braga at 738-7658.

■ **"Special Education Curricula: Approaches for Adolescents"** (CI 417/617) — Students will learn the needs of adolescents who are in special education programs and have cognitive and behavioral disorders. The course will focus on strategies to improve the academic, social, vocational and career skills of adolescents and will be held from 4-6:45 p.m. Tuesdays, Jan. 23 through May 14 in Room GTA 124.

The cost is \$183 for three undergraduate credits and \$252 for three graduate credits. Preregistration and payment are due Jan. 16. Prerequisites for this course are CI 310 or CI 400/600, or experience with special education students in an educational setting or consent of instructor.

The instructor will be Michael Warner, associate professor in curriculum and instruction at UNR.

■ **Telecourse in Educational Leadership**, entitled "Special Education

Law" (EL 734) — The course focuses on laws relating to school officials and on students with disabilities. Specific cases will be cited. It will be held from 4-6:45 p.m. Thursdays, Jan. 25 through May 9 in Room GTA 124.

The cost of this three-unit graduate course is \$252. Preregistration and payment are due Jan. 18.

The instructor will be Richard Daughtery, associate professor of Educational Leadership at UNR.

Additional information for the last two courses may be obtained by calling Lori Kemmer at UNR's Division of Continuing Education, 702-784-4046. Registration may be accomplished using 702-784-4062 or toll-free at 1-800-233-8828.

College adds ^{Free class (now open) 1-30-96} new section to gun class

Due to voluminous community interest, Great Basin College has added a third section this semester to the Defensive Firearms Training class.

The new section will meet Tuesdays and Thursdays from 6-9 p.m. and Sundays from 8 a.m. to 5 p.m. Feb. 6 (next Tuesday) through Feb. 25.

The course is being offered in cooperation with the Elko County Sheriff's Department and exceeds the training requirements for concealed weapons permits in Nevada.

Course instructors Marty Shaw and Walt Young will teach students how to safely carry, handle, store and shoot the firearms of their choice.

Students also will learn when deadly force legally may be used and the liabilities of using a firearm in self-defense. They will spend two days at the shooting range.

Firearms, however, will not be allowed on campus, the college reported in a news release.

Those interested may register at the GBC Student Services Office in Berg Hall. Cost of the two-credit course is \$82. Enrollment is limited to the first 20 students registering.

(Sandy Miller/Free Press)

Spanish classes: The Great Basin College campus may be blanketed in winter snow, but spring classes will begin Monday. GBC will accept registration through the first week of classes. The college is offering a number of Spanish classes this spring. In addition to three-credit Beginning and Advanced Spanish classes, the college will also offer Conversational Spanish (three credits), Spanish for Legal/Law Enforcement Personnel

(three credits), Spanish for Health Care Providers (two credits), Hotel and Restaurant Survival Spanish (one credit) and Citizenship Preparation (one credit). A workshop called Spanish for Teachers also will be held Feb. 9-10. From left, are teachers Cameron Theil, Conversational Spanish; Eloisa Mendoza, Spanish for Legal and Law Enforcement Personnel; and Denise Aguirre, Spanish for Health Care Providers.

CRJ 120 Community Relations

Study and analyze the reasons and techniques for developing communication and understanding between the criminal justice system and various segments of the community. April 3 through June 19. \$100.50.

CRJ 121B Public Safety Dispatching

CRJ 121B is an introduction to the history and development of public safety dispatching, as well as the ethics and liability of the profession. The course will include interpersonal communications, organization and function of dispatch, telephone techniques, local, state, and national crime computer systems, and telephone call/report processing procedures. Also learn stress management and how to test and interview for a position as a public safety dispatcher. January 22 through May 8. \$100.50.

CRJ 164 Principles of Investigation

Study the fundamentals of investigation, crime scene search and recording, collection and presentation of physical evidence, scientific aids, sources of information, case preparation, interviews and interrogations, and follow-up. January 10 through March 27. \$100.50.

CRJ 198B Defensive Firearms — Concealed Weapons

In cooperation with the Elko County Sheriff's Department, Great Basin College will offer this course which meets or exceeds the training requirements set forth by Chapter 202 of the Nevada Revised Statute (Concealed Firearms Permit Act). Students will learn how to safely carry, handle, store, and shoot their firearm of choice. They will learn the three elements of danger that must be present before deadly force may be used. Selection of the correct ammunition for defense and public safety will also be covered. Students will become aware of the responsibility and liability inherent in carrying or using a firearm in self-defense. They will learn to summon the correct authorities in emergencies and to be prepared to deal with post-traumatic stress. Two days will be spent on the shooting range and a range test. A written test must be passed. Weekends available 1/5-1/14, 2/2-2/11, 2/23-3/3. \$92.00.

CRJ 214 Principles of Police Patrol

Study identification of community problems which require prevention, suppression, or control through the basic methods and techniques of police patrol. You will cover the responsibilities of officers in patrol situations including foot beats, one-person cars and/or tactical units, techniques of observation and perception, recognition of hazards, evaluation, and proper police patrol action. January 8 through March 25. \$100.50.

CRJ 285B Spanish for Legal/ Law Enforcement Personnel

This course is designed specifically for law enforcement personnel who need to know some Spanish in high and low risk situations. Students will learn the Miranda, law enforcement commands, and how to gather personal information from witnesses and suspects in Spanish. January 24 through May 8. \$100.50.

For more information call 753-2102.

To enroll call TOUCH telephone registration at 753-2100 or visit Berg Hall, Student Services, 1500 College Parkway.

Peace Officers Standards & Training

The Northeast Nevada Regional Training Academy and Great Basin College are pleased to formally announce a merger to provide

Peace Officers Category I Training

General Information

Course Dates:

January 23 through December

Courses Meet:

Tuesday and Thursday evenings and Saturday mornings.

Cost:

\$33.50 per credit hour. Lab fees will be charged for specialized training. Cost of the entire program is approximately \$2,000 payable in quarterly installments.

Financial Assistance:

Scholarships, loans, and Veterans' assistance are available. Contact the Great Basin College Student Financial Services Office.

Post Academy Goals:

Over a period of one academic year, participants will learn those skills, taught by professionals, necessary to become certified by the State of Nevada as a Category I Peace Officer. During the course of instruction, students will participate in numerous practical exercises with hands-on training emphasized and academic proficiency evaluated through written testing. At the completion of this course, students will receive a minimum of 30 college credits applicable toward an associate degree and shall become a marketable commodity for any law enforcement agency.

Training Includes:

Police Patrol Techniques and Tactics
Criminal Investigations
Traffic Accident Investigations
Emergency Vehicle Operations
Firearms Safety and Training
Defensive Tactics Training
Physical Conditioning

Minimum Requirements:

1. U.S. Citizenship
2. At least 20 years of age at the start of Academy
3. Successful completion of high school or GED
4. Medical examination by licensed physician certifying that no physical condition exists which would adversely affect their performance of the duties of a peace officer.
5. No conviction of a felony in this state or of any offense which would be a felony if committed in this state.
6. No conviction of an offense involving moral turpitude or the unlawful use, sale, or possession of a controlled substance.

Interested persons should contact :

Sheriff's Lt. Dale Lotspeich at
(702) 738-7121 or

Police Corporal Will Lehman at

Elko college offers biological planning course for ranchers

Humboldt Sun 2-9-96

Great Basin College in Elko will offer a three-day intensive course in "Biological planning and monitoring for ranchers" starting Monday, Feb. 12-14, from 8 a.m. to 5 p.m. Instructors Steve Rich from Salt Lake City, Utah, and Tommie Martin from Flagstaff, Ariz., are registered holistic resource management educators and consultants for the Cottonwood Ranch in Jarbidge. Biological planning and monitoring is not an event, but agency personnel and student concerned with environmental issues. Designed to improve relationships between various interest groups involved in the use of public

lands, the class will become familiar with technical language to better communicate and coordinate planning efforts with agencies. Students will learn an extremely comprehensive method of conducting biological monitoring using the twelve indicators of rangeland health prepared by the National Academy of Sciences. Techniques to measure the effectiveness of watershed function and soil stability will be discussed. Students will also focus on the energy flow and nutrient cycle of their private lands and public allotments. The cost for the three-day course is \$175 per student. Call (702) 753-2301 for more information.

Class for photographers announced

EJ 2-7-96

Great Basin College is offering a new class for beginning photographers, which replaces Art 175 (Photography I) listed in the college's 1996 Spring Semester Course Roster. The instructor for the two-credit course is Kate Butler, an independent photojournalist and Lamoille rancher. The class, to be held on Thursday evenings from 5:30 to 8:30 p.m., and starts February 8.

Along with the basic elements of camera and black and white lab techniques, the course, will emphasize creative ways of seeing and the development of a personal photographic style. Lab periods will be on Tuesdays from 5:30 p.m. to 8:30 p.m., and an optional field trip will be offered.

Butler, owner of Kate Butler Photography in Las Vegas, specializes in journalism — both photography and writing — and marketing her stock photographs. She is a regular contributor to Nevada Magazine, and her work has also been published in U.S. and international newspapers, magazines and books.

Registration for this class continues at the college through February 8. The cost is \$77.00 and includes lab fees. For registration information, call 753-2102.

UNR class to discuss cultures

EJ 1-5-96

University of Nevada, Reno, will offer "Ideas, Values and Cultures I" from 6 p.m. to 9 p.m. Fridays and from 9 a.m. to 4 p.m. Saturdays Feb. 2-3, Feb. 23-24, March 8-9, March 29-30 and April 12-13 at Great Basin College.

Instructor Peggy Duffy will discuss ideas, values and cultures as they relate to man, society and the cosmos, according to a UNR press release.

The fee for the three-credit undergraduate course is \$183 and is due Jan. 26. Those interested may register at Great Basin College located at 1500 College Parkway or call Angela de Braga at 738-7668.

GBC offering new course in photography

Great Basin College is offering a new class for beginning photographers from 5:30 p.m. to 8:30 p.m. Thursdays beginning this week.

The two-credit course replaces Art 175 (Photography I) listed in the college's Spring 1996 course roster. Instructor Kate Butler, an independent photojournalist and Lamoille rancher, will teach students the basic elements of camera operation and black and white film processing. Students also will learn "creative ways of seeing" and how to develop a personal photographic style.

Butler owns Kate Butler Photography in Las Vegas and specializes in stock photography and writing. She is a regular contributor to Nevada Magazine, and her work also has been published in the Los Angeles Times, Toronto Globe, Underwater USA and Smithsonian.

She also plays banjo for Ribbons 'n Straw, an all-women bluegrass band based in Las Vegas. Lab periods will be held from 5:30 p.m. to 8:30 p.m. Tuesdays and an optional field trip will be offered. The cost of the course is \$77 and includes lab fees. Those interested may call 753-2102.

Students sell raffle tickets

The Manpower Training Cooperative Education Program and Vocational Industrial Clubs of American at Great Basin College are selling raffle tickets to help pay for expenses so MTC and VICA members can compete at state and national events in Reno and Kansas City, Mo. The tickets are being sold through March 8, when the drawing will be held.

Prizes include half of a beef donated by Llee Chapman at Gerome Beef and a weekend getaway at Jarbidge, donated by Tsawhawbitts Bed and Breakfast.

Other prizes include a hard-sided single rifle case from Wood-Lee Firearms, a Polaroid camera from Wal-Mart, a \$20 gift certificate from D'Orazio's IGA, a \$25 gift certificate from Albertsons, a foot stool from Good Morning Furniture, a cellular phone from Cellular One, a grease gun kit from PM Supply, a \$25 wash and vacuum from R&R Custom Detail, a computer mouse from Connect One Systems, a gift certificate from Gun World and a prize from Corral West Ranch Wear.

Tickets are \$2 each, three for \$5 or six for \$10. They can be purchased at the Elko Chamber of Commerce or from any MTC or VICA Club member.

Eureka to focus on school-to-work

By Adella Harding

Eureka County School District is wholeheartedly embracing educational changes to prepare young people for careers by initiating school-to-work programs and even designing a junior-senior high school to fit the concept.

"I think we're the first school district to be 100 percent dedicated to the program," said the school district's guidance counselor, Gil Lehman.

Instead of students just sitting in a classroom, the young people will "actually get out and experience jobs," he said.

This effort will include "job shadowing," inventories of interest, job clusters, hands-on work experience and student-run businesses.

Lehman said the goal is to determine what careers students want to pursue and work with students and their parents to plan educational tracks to meet their needs.

"We're looking at creating business clusters, student-run companies. They will sell the products. We're going to try using the Internet to advertise," Lehman said. "They will be learning a trade. The revenue goes to the students."

In this first year of the program, however, students are just getting started with identifying career interests, job shadowing, job internships and creating private-sector business partners. Next year, they will start

actual businesses, Lehman said.

Job shadowing allows students to tour places where they might be interested in working and talk to employees about their jobs, Lehman said. Fourteen students just recently came to Elko to visit Great Basin College nursing and diesel mechanics classes, a gold mine and Elko General Hospital.

The school district belongs to the Northeastern Nevada School-to-Work Partnership, made up of five counties — Elko, Eureka, Humboldt, Lander and White Pine — and Great Basin College.

In addition, the school board recently hired the architectural firm of Lombard Conrad to help determine the future needs of the junior-senior high, including vocational education requirements.

"We think programs out to drive what we build, ... so we're recommending a departure from exclusive academics," said Eureka County Superintendent of Schools Neil Stevens.

The school board is gathering the information before deciding whether to expand the current junior-senior high in the town of Eureka or build a new facility.

The five-county partnership is funded by a two-year \$500,000 subgrant from the state, which in turn received a federal grant for the program, said Cliff Ferry of Great Basin College, who was the prime mover

(Adella Harding/Free Press)

easy access by employers. "We had some planning money last spring and had tech-prep money, but the school-to-work is just getting off the ground," he said. The state money came in around the first of this new year, Ferry said.

In addition, the partnership just recently hired Robert Jahn to be the Elko-based regional coordinator for the school-to-work program, Ferry reported.

Other counties in the partnership are doing a variety of things. For example, in Winnemucca, 200 students took career aptitude tests at one time last month. In White Pine County, students are computerizing their high school records and resumes for

"Every district is doing different stuff," Ferry said, reporting that northeastern Nevada is the only part of the state to form a multi-county program.

Lehman, who was a school guidance and counseling consultant for the Nevada Department of Education, is sold on the school-to-work concept.

A high school diploma has little worth anymore unless a student has specialized skills, he said, adding that in the year 2005, 65 percent of the nation's jobs will be technical, 20 percent professional and only 15 percent unskilled labor.

Vocational education making gains in Ne

By Sandy Miller

Today's workplace requires skilled employees, and vocational education is especially important in Nevada where only half of the 32 percent of students going on to college actually finish, according to David Sheffield, a Nevada Board of Education member from Elko.

Sheffield said in the United States today, business is spending \$50 billion a year to train employees in skills they should have learned in the classroom.

"We need to make sure that when students graduate from high school, they possess the sound knowledge and skills that prepare them for further education or work," he said. "Business needs people who can read, write and problem-solve. It needs people with critical thinking skills."

Legislators at both the state and federal levels have recognized that providing dollars for vocational education may save money in the long run as skilled people are less likely to end up on the welfare rolls.

This year, the Elko County School District received an \$81,000 federal Carl Perkins grant, which it used to upgrade technology at Owyhee and Jackpot Combined Schools.

And new federal school-to-work funding flows from the state through Great Basin College, which serves a five-county region — Elko, White Pine, Eureka, Humboldt and Lander.

The school-to-work grant is a successor to the federal "tech-prep" funds schools are still using this year, said Cliff Ferry of Great Basin College.

Bill McLeod, director of vocational education for the Elko County School District, said the U.S. Senate and House are both looking at bills that may change the way vocational programs are funded by channeling federal dollars into block grants to the states. However, McLeod is confident the state will continue to be generous in funding vocational education.

The 1985 Nevada Legislature appropriated \$4 million statewide for 1985-86 and 1986-87 for school-to-work, said Ferry, who is assistant vice president of academic affairs at Great Basin College.

He said Great Basin will receive \$500,000 for the biennium for the five-county region.

"State support from the last Legislature signals that government and the private sector recognize the importance of preparing students for careers," Ferry said.

State law mandates school-to-work programs be overseen by advisory boards and that 51 percent of the

board consist of members of the private sector — representatives of business and labor, said Stan Popeck, director of occupational education at Great Basin College.

The college's 21-person advisory board consists of representatives from its five-county region and includes local businessman Gary D'Orazio of D'Orazio Italian Gardens restaurant and the IGA supermarket and Dennis Lattin, manager of the local office of Nevada Employment Security. The board is chaired by Bill Newton, assistant superintendent of processing maintenance at Newmont Gold.

Great Basin College and the Elko County School District have both made it a priority to improve and expand vocational programs. School-to-work programs focus on merging academics and vocational education beginning in high school and continuing into college.

"It prepares students to be ready to enter a career and brings hands-on teaching techniques into the classroom which gives students some purpose and meaning to what they're doing," McLeod said.

Beginning their freshman year, students at all high schools in Elko County can take classes in drafting, construction, automotive, small gas engines, welding, diesel and hydraulics, woodworking, business and office, electronics and consumer and family science. Many are three- and four-year programs.

McLeod said about 80 percent of the students at Elko High School take classes in some kind of occupational education.

Through articulated agreements with Great Basin College, students at all Elko County high schools can now transfer as many as 15 hours of credit in drafting, construction trades, automotive, small gas engines, welding, diesel and hydraulics and woodworking into programs at the college.

McLeod said district and college staff get together and agree on what

(Sandy Miller/Free Press)

cooperative choose their own scholarship candidates on the basis of their application, math and mechanical aptitude and an interview. The college does the testing. Those interested may pick up an application at high school guidance offices or college financial aid offices.

It was Newmont Gold Co. that got the venture off the ground about eight years ago when it had difficulty finding skilled local people, Popeck said.

Newmont, in cooperation with the college, began the Skills Improvement Program to provide training. The program has since grown and expanded.

VICA (Vocational Industrial Clubs of America) is an organization that provides a support network for students pursuing a vocation or trade instead of the traditional four-year college education. Great Basin College, as well as a number of Elko County high schools, have active local chapters.

VICA holds state and nationwide competitions each year. Popeck said last year's competition in Kansas City, Mo., drew about 4,600 VICA members who competed in skills

skills and competencies students must have and then put together an agreement. This year, the district and the college are working on an articulated agreement for office education.

Great Basin College offers one-year certificate programs in accounting technology, business administration, computer science, early childhood education, engineering technology, secretarial, general clerical, legal secretary, maintenance electrician, mill maintenance, auto technical arts, diesel technical arts, welding technology and word processing.

The college also offers courses leading to associate of applied science degrees in business administration, nursing, computer science, criminal justice, early childhood education, office administration and mining technology.

Each of the vocational programs at the college is overseen by a separate advisory board consisting of everyone from supervisors to workers themselves, like mechanics and electricians.

"They review our courses and make recommendations," Popeck said. "These people have the best feel for what's needed in the workplace."

GBC's Mining Center offers 45-week certificate and degree programs in diesel mechanics, mill mechanics and maintenance electrical, a one-year program in laboratory technology, and programs in welding, mine safety and computer

instruction.

The center also offers short courses in Ford factory training, hydraulics, electricity, air conditioning, auto mechanics and math and measurement. The center can be reached at 753-2303.

Students in GBC's vocational programs can choose to go for a certificate or an associate's degree. Those pursuing an associate's degree must take courses in English, math and human relations in addition to the program. The 48-week programs are fast-paced and don't follow the regular college schedule, Popeck said.

The mining programs are well-worth the students' time. Popeck said successful graduates can expect to make about \$30,000 annually to start and are often making \$45,000 to \$50,000 several years into their trade. Popeck said 85 percent of students who successfully complete the programs find employment.

The Manpower Training Cooperative, a joint venture of mining companies and vendors, offers about 45 \$1,000 scholarships each year to promising students living in Elko, White Pine, Eureka, Humboldt and Lander counties, Popeck said.

Companies making up the cooperative include Newmont Gold Co., Barick Goldstrike Mines Inc., Cortez Gold Mines, Battle Mountain Gold, Santa Fe Pacific Gold Co.'s and its Twin Creek Mines, Magma Nevada Copper, Round Mountain Gold, D & D Tire and Diesel Master Mechanics Association of Nevada.

GBC schedules classes for horse enthusiasts

Great Basin College has scheduled several classes for horse enthusiasts.

Instructor and professional horse trainer Kurt Fuller of Twin Falls, Idaho, will offer "Winning Halter Classes Clinic" at 10 a.m. Saturday at Suzie Creek Arabians Indoor Arena.

Fuller will teach students how to develop a fitting and nutrition program for horses of various ages, GBC announced in a press release. Techniques for professional grooming as well as how to dress appropriately for showing halter horses will be covered.

Students will learn how to properly set up their horses and lead them in the walk and trot for judging. Students will also learn how to project a winning attitude and take home blue ribbons in halter horse classes, the press release said.

The registration fee is \$10 and students may bring their own horses.

Fuller also will offer "Western Pleasure Horse Clinic" at 1 p.m. Saturday. Riders will learn training and showing techniques for proper head set, executing smooth transitions and picking up correct leads.

Fuller has placed horses in the top ten in the U.S. Nationals and world Appaloosa shows, according to the press release. In the past two years, his students and their horses have earned 60 U.S. and Canadian titles.

He also showed horses in England and Germany, winning 11 international titles in various events. Although the riding portion of the clinic is full, spectators are welcome for a \$10 fee. There is also a waiting list for riders.

Veterinarian Kim Henneman of Salt Lake City will present a "Equine Chiropractic and Accupressure Clinic" at 10 a.m. April 20 at Great Basin College. Henneman believes most training and performance problems in a horse have a physical source, according to the press release.

Students will learn how minor soreness and stiffness from training, injury, poor shoeing, poor saddle fit or dental problems can lead to compensations that affect performance and can eventually lead to catastrophic lameness such as navicular, founder or tendon injuries.

Students will learn to recognize warning signs and take appropriate steps before a catastrophe occurs. Horse anatomy and posture and a demonstration of chiropractic techniques will be featured. The registration fee is \$20.

Students are encouraged to register as soon as possible as classes may be canceled due to lack of advance enrollment. Those interested may call 753-2231 or 753-2301.

Speech, photography added to GBC menu

Great Basin College has added two new classes to the list of spring 1996 courses — a two-day workshop called Photographing Your Art Work and another called Fundamentals of Speech.

The photography workshop, which will focus on Great Basin landscapes, is scheduled from 4-10 p.m. Friday, April 26, in Room 122 of the Greenhaw Technical Arts Building and from 8 a.m. to 4 p.m. April 27 at Northeastern Nevada Museum, 1515 Idaho St.

The cost of the one-credit course is \$33.50.

The workshop will feature two guest instructors, GBC's Joyce Shaw said. Marilyn Clarke, past president of the biennial traveling exhibit, A Common Thread, will teach the portion of the workshop that focuses on extracting color, texture, and shape from landscape photography.

Students will use photographs of the Great Basin National Park or landscape photographs that they bring to the workshop to start, before sculpting, weaving or sewing materials into objects.

Students also will spend several hours discussing and photographing completed crafts using 35mm slide film for documentary presentation or for entry in juried competitions like A Common Thread.

Jill B. Cordi, a former workshop

presenter for Polaroid Corp. and executive director of A Common Thread, will use instant slide film, a basic 35mm camera, hand-held spotlights and the workshop participants to teach this photo-documentation method.

Participants are encouraged to bring their own 35mm cameras and completed fine craft projects for this portion of the workshop, Shaw said.

The second new class addition, Fundamentals of Speech 1, is an additional communications course. Speech is a popular communications course at GBC, Shaw said.

The additional section will run from May 14 through June 18 and July 23 through July 30. Students will meet Tuesdays and Thursdays from 6-9 p.m. in Lundberg Hall, Room 9. Cost for the three-credit course is \$100.50.

Instructor Louie Horton will introduce basic communication skills, verbal and nonverbal, Shaw said. Informative and persuasive speaking will be emphasized.

Those interested in the new courses may call 753-2102 or visit Student Services, Berg Hall, 1500 College Parkway.

For registration purposes, the photography course is listed ART 299B, section E03; the speech course is listed SPTH 113, section E02.

College offers classes on flowers, bird life

Great Basin College will offer two late-starting biology classes entitled "Spring Flora of Northeastern Nevada" and "Spring Bird life in Northeastern Nevada."

"Spring Flora of Northeastern Nevada" is designed for anyone who has hiked the mountain trails in northeastern Nevada and has wondered about the identity of the many varied and colorful native wildflowers, according to a college press release.

Instructor Steve Anderson will teach students about the natural history and the biogeography of Great Basin plants. There is no prerequisite for the course and it may be used as a science requirement for the associate of arts degree.

The class includes two required

field trips in late April. The class will meet from 7 p.m. to 8:30 p.m. Thursdays March 27 through May 15. The fee for the two-credit course is \$87.

"Spring Bird Life in Northeastern Nevada" is an introductory course for students interested in the natural history, migration and identification of birds that move through the region in the spring for the nesting season.

Mark Ports will be the instructor. The class will meet from 7 p.m. to 9 p.m. April 22-24 and for a required field trip April 27. There are no prerequisites and students should bring binoculars and field guides. The fee for the one-credit class is \$33.50.

Those interested in either of the classes may call Student Services at 753-2102 or Mark Ports at 753-2249.

(Larry Mosley/Free Press)

Great Basin College is offering a new, three-credit course, titled *Fundamentals of Rawhide Braiding*. Instructor Bill Budd, left, is shown with student Dan Johnson. An intermediate class will be added to the fall schedule, according to Budd.

Rawhide braiding class now offered at Great Basin College

Great Basin College has introduced *Fundamentals of Rawhide Braiding* into its curricula, "keeping a nearly lost art alive" and giving Elko county residents an opportunity to become rawhide craftsmen, said instructor Bill Budd.

Budd said the 16-week beginner's class, which goes from 7-10 p.m. Thursdays, began Jan. 25 and ends May 16. The class meets one night per week for three hours, and the total cost of \$150.50 includes all materials, tools and lab fees, according to Budd.

According to Budd, a 16-week-long *Intermediate Rawhide Braiding* class, scheduled for 7-10 p.m. Thursdays, has been added to the fall schedule and will be offered as a follow-up to the first course. Longtime Elko resident George Smeraldo is assisting him in the class.

Budd said the intermediate course covers more complex braids and weaves, adding that students create useful items of gear in both courses.

He noted that the beginner's class is a prerequisite to the intermediate class, and that the first 12 people to sign up will be accepted. That way, said Budd, each person will receive individual attention.

According to Budd, both he and Smeraldo have many years of experience in rawhide braiding, and spend hours each day creating reins, riatas and other miscellaneous gear. He added they do it the same way it's been done by rawhidiers for more than 100 years.

Budd suggested the course is appropriate to the Elko area, which has a rich heritage in ranching and horsemanship. "Ranching, cowboy poetry, buckarooing, saddle making and rawhiding are all part of the

same culture that people come to Elko to be a part of," Budd said.

He noted that local residents are fortunate to have this kind of instruction available to them, adding, "As far as I know, Great Basin College is the only college that offers rawhide braiding."

According to Budd, rawhide braiding is nearly impossible to learn from a book, adding that some who know it don't have time to teach it. "If you can find six or eight rawhidiers in the Northwest, you'll be lucky to find one that has the time to help someone learn." He added, "I believe there are fewer rawhidiers than there are saddle makers, and there aren't too many making saddles anymore."

A display of rawhide gear, including a beautiful riata, is presently on display in the north entrance of the Greenhaw Technical Arts building at GBC. Budd said those who have viewed the display agree it's definitely a work of art, adding, "To put a rawhide riata on your saddle puts you in a class all by yourself."

He said students learn by working under supervised conditions that include demonstrations, lectures, discussions and information sheets.

Budd may be reached at at 753-4444.

Programs offer children lots of summer activities

By Sandy Miller

School may be out, but a number of activities will be offered this summer to keep little hands and minds busy.

Great Basin College is offering a variety of summer classes through its "Kid's College" that will satisfy just about every child's interest.

Instead of lounging in front of the television set, children can while away their summer hours cruising the Internet, baton twirling, learning modern dance, acting in the children's theater, learning about the music of Africa, building a shortwave radio receiver, learning Spanish or relaxing with yoga.

Computer Bootcamp for Kids will teach the basics of WordPerfect and Windows 3.1. Other computer classes include Cruising the Internet and Keyboarding.

Kid's College will also offer classes to help kids brush up on their math, science and geography skills. Another class will help preschoolers get ready for kindergarten.

Class fees range from \$10 to \$65 and start periodically throughout the summer beginning next week.

GBC's Youth All Sports Day Camp will help kids improve their athletic

skills in a non-competitive environment. Basketball, flag football, soccer and baseball will be included. The fee for the week-long camps are \$65.

GBC's Child Center will offer a summer preschool for 3- to 5-year-olds from 8 a.m. to noon Monday through Thursday. The fee is \$16 per day.

Registration for Kid's College is in GBC's Lundberg Hall, 1500 College Parkway. Those interested may also call the college at 753-2102 or 753-2301.

summer classes

Northern Nevada Community College has a variety of new summer classes for adults and children beginning this month.

Instructor Mark Ports will teach students all about the "Insects and Plants of Island Lake" from 6 p.m. to 8 p.m. July 11 and July 13. The class will wrap up with an all-day field trip to the lake from 7 a.m. to 4 p.m. July 15. The course fee is \$33.50.

Instructor Ann Wright will teach "Introduction to Excel 5.0" from 1 p.m. to 3 p.m. Tuesdays and Thursdays July 6-27. The course fee is \$38.50.

Instructor J. Rosenthal will teach "Women, Society and Self-Esteem" from 5:30 p.m. to 6:45 p.m. Wednesdays July 12-26. The course fee is \$36.

Substitute teachers can learn classroom survival skills from instructor Ann Plocher in "Sink the Sub! A Substitute Teacher's Workshop" from 1 p.m. to 5 p.m. July 25-28.

NNCC's Kid's College is offering a number of courses to keep children busy this summer. Classes include "Ceramics for Kids" July 11-20. Class for six to 10 year olds is scheduled from 10 a.m. to noon, and class for children 11 years and older is scheduled from 1 p.m. to 3:30 p.m. The fee for the course is \$45.

Children can learn all about "Leaf Design and Pressed Flowers" July 12. A class for three and four year olds is scheduled from 9:30 a.m. to 11:30 a.m. and class for five and six year olds is scheduled from 1 p.m. to 3 p.m. The fee for the course is \$15.

Kids eight years old and up may enroll in "Make Your Own Pizza from Scratch" scheduled from 9 a.m. to noon July 11 and 13. The fee for the course is \$15.

"Beginning Dog Obedience" is scheduled from 10 a.m. to 11 a.m. Tuesdays and Thursdays July 11-20. The fee for the course is \$20.

Those interested in enrolling in summer classes may drop by the campus at 901 Elm St. or call 753-2102.

Hunting dog class at NNCC on Saturday

Northern Nevada Community College will present a "Training the Hunting Dog" clinic at 9 a.m. next Saturday at 801 Elm St.

Professional gun dog trainer Steve Grossman will show participants how to "get inside the head" of their dogs and build on their special inherent abilities.

According to NNCC's Director of Continuing Education Pat Warren, Grossman firmly believes that each dog is unique and does not believe in forcing dogs to conform to a rigid training program.

Grossman, who has 16 years experience training retrieving and pointing breeds, has been a featured guest on "The Nashville Network's" "Outdoor Secrets" and has contributed articles to *Sports Afield Magazine*.

The fee for the clinic is \$35 for students and \$10 for spectators. Students will receive complimentary gifts from Ralston Purina. Those interested may call 753-2301 or 753-2231. *EJWP 8-1-95*

Train your hunting dog clinic

Northern Nevada Community College will present a clinic entitled "Training the Hunting Dog" at 9:00 a.m., Saturday, August 5, featuring professional gun dog trainer, Steve Grossman from Minnesota. Grossman's professional dog training career spans more than 16 years and includes a variety of retrieving and pointing breeds. He is widely recognized for having the unique ability to "get inside the head" of a dog to bring out the very best potential in each dog. Grossman has been a featured guest on "Outdoor Secrets" on both TNN and WGN television networks. He has contributed articles to *Sports Afield Magazine* with training tips for hunting dogs.

Serving as a representative for Ralston Purina's Sporting Dog Program, Steve Grossman presents seminars and workshops all over the country. His hunting dog training program, praised in such national publications as *Phensants Forever* and *Sporting Classics*, is geared to produce a happy, stylish, axed

mannerly hunting partner. He trains practical hunting dogs, not dogs suitable only for field trails. Students will learn innovative techniques that ease a dog through the training process. They will also learn to avoid dangerous shortcut techniques that claim to reduce training time but produce dogs that come "untrained" in weeks. Since Grossman firmly believes that each dog is unique, he does not force his dogs to conform to a rigid training program. He encourages Students to try to understand their own dog and solve problems while building on their dog's special inherent abilities.

Enrollment is limited and students are encouraged to register as soon as possible by calling 753-2301 or 753-2231. The fee is \$35 per student with a dog and \$10 for spectators. Students will enjoy working with our nationally recognized instructor with live birds, and will receive complimentary gifts from Ralston Purina for participating.

GBC hosts free viewing of classic silent film

"One of the west's mightiest icons, the covered wagon," will be featured in a "classic silent western movie" at 7 p.m. Wednesday in GTA Room 130 of the newly-named Great Basin College, according to a press release.

Appropriately entitled "The Covered Wagon," the film may be viewed at no cost. Charles Greenshaw will give a lecture on the production within the context of American film history.

Greenshaw's discussion will reflect on the Americanization of the West in the 1840s and 1850s, depicting life along the California trail.

This historic film, which is part of a college course on film-making taught by Hal Cannon, was based on a story by Emerson Hough and was produced by Jesse Lasky of "Famous Players."

Directed by James Cruz, the story was mostly filmed near Baker on the Utah-Nevada border in the fall and winter of 1922. The movie became one of the biggest money makers of the silent era. It was the original model for the traditional western film and has an impact on Hollywood today, the news release states.

Lasky and Cruze produced the film as a semi-documentary. In it they depict real life hardships of the "immigrant trail" through an adventure of travels along the California and Oregon trails.

Cruze's parents were Danish converts to Mormonism. They had come west on the Overland Trail in the 1860s. Cruze came to know other pioneers, learned their roots and dedicated himself to accuracy in his depiction of life along the California trail.

"Covered Wagon" chronicles the

views and experiences of people who actually walked beside the wagons in their journey west.

Taking special care to reproduce the correct motif, Cruze hired 50 specialists on costumes and customs.

Many of the extras who appear in the film were descendants of emigrants and Indians from Montana who had fought in the wars of the 1860s and 1870s, and cowboys from ranches in eastern Nevada joined Hollywood cowboys to make the movie.

One of the characters portrayed was mountain man Jim Bridger, who is depicted as a drunk, bigamist and an all-around reprobate.

"After" the film was released, Bridger's daughter claimed defamation of character and sued," the news release states. The case went to the U.S. Supreme Court which ruled that defamation of one's ancestors was not an actionable cause.

Local residents interested in the emigrant trails will enjoy this classic film and lecture program, the release concludes.

Motorcycle course offered

Great Basin College (formerly NNCC) will hold a Motorcycle Safety course Friday, October 6 from 6:00 p.m. to 9:00 p.m. and Saturday and Sunday, October 7 and 8 from 8:00 a.m. to 5:00 p.m. The course co-sponsored by the Motorcycle Safety Foundation and the Nevada Office of Traffic Safety will include both classroom instruction and actual riding experience, even if you have never sat on one before. Motorcycles will be provided for the class.

Each year thousands of motorcyclists are injured or killed because they lack the necessary street skills to avoid making dangerous mistakes. The comprehensive 19-hour course offered at NNCC has been designed by the National Motor-

cycle Safety Foundation to teach riding skills to beginning through experienced riders. Students can earn their Nevada Motorcycle Driver's License upon successful completion of the course. It often qualifies students for a reduction in insurance rates from selected companies.

Cost of the program is \$79 per student. To register for the class, or for more information please call GBC at 753-2301. Class size is limited to the first 12 students registered. This program is made possible through the cooperative efforts of the Nevada Rider Motorcycle Safety Program, Jeff's Cycle Shack, Motorcycle Safety Foundation, and Great Basin College.

Great Basin College (formerly NNCC) still has openings in the Motorcycle Rider Course: Riding and Street Skills. The class will be held on Friday, Oct. 6, from 6 to 9 p.m., and Saturday and Sunday, Oct. 7 and 8, from 8 a.m. to 5 p.m. Motorcycles will be provided. Students must pre-register by calling 753-2301. *EJWP 10-4-95*

Dressage and jumping horse clinic scheduled

Great Basin College will present a "Dressage and Jumping Horse Clinic" at 9 a.m. Oct. 21 at Suzie Creek Arabians located eight miles west of Elko off Interstate 80.

Instructor Ernst Herrmann of Eagle, Idaho, has been teaching dressage up through the Grand Prix level for 20 years, according to Pat Warren, director of continuing education at Great Basin College.

Born and raised in Switzerland, Herrmann served a three-year apprenticeship before becoming a professional horse trainer and instructor. He currently holds the distinguished title of United States Dressage Federation Certified Instructor and is recognized as one of the top trainers in the western U.S.,

Warren said.

Herrmann now trains and shows horses at his "Once Upon a Horse" stables in the Boise area and prepares them for three-day competitions. He trains students of all ages in dressage, stadium jumping and cross country jumping.

Warren said clinic participants do not have to be experienced English riders, and top riders in barrel racing, cutting and reining often practice many of the elements of classical dressage to train their horses.

The cost of the clinic is \$60 for a private lesson and \$25 for a small group lesson. Those interested should call Warren at 753-2231 no later than Friday.

Great Basin offering variety of workshops

Great Basin College is offering a number of non-credit workshops this fall.

The college will offer two non-credit workshops in "Using Quicken for Budgeting and Recordkeeping" from 9 a.m. to noon Oct. 21 and Oct. 28. The fee for the workshop is \$35.

The Quicken for Windows software package is designed to record and manage the financial transactions of a home or small business and is easy to use, according to Pat Warren, director of continuing education.

Instructor Les McKenzie will show students how to use Quicken to set up budgets, compare income and expenses and balance their checkbooks. Students are welcome to bring their home, ranch or other small business financial records to set up the simple and inexpensive program. "It is not too early to get income tax records in order," McKenzie said. "Projecting a Professional Image:

Ready to Help Attitude" has been rescheduled. The workshop will be held from 12:30 p.m. to 2 p.m. Thursday and is designed for front-line office staff and sales personnel who deal with the public on a daily basis. Workshop participants will learn a number of skills such as how to handle waiting clients and to prioritize telephone calls. Confidentiality will also be discussed. The class fee is \$20.

Valerie Morton will teach her popular "Supervisory Skills Workshop" from 9 a.m. to 4 p.m. Saturday. Topics will include motivating employees, positive and effective discipline techniques and how to keep employees productive and happy. The fee for the workshop is \$30.

All students must register at the Student Services Office in Berg Hall located at 1500 College Parkway prior to the start of class. Those interested may call 753-2231.

Horse jumping clinic scheduled near Elko

The Great Basin College will present a dressage and jumping horse clinic Oct. 21 starting at 9 a.m. at the Suzie Creek Arabians, eight miles west of Elko off I-80.

Instructor Ernst Herrmann from Eagle, Idaho, has been teaching dressage up through the grand prix level for 20 years.

Born and raised in Switzerland, he served a three-year apprenticeship in his native country to become a professional horse trainer and instructor.

He holds the distinguished title of United States Dressage Federation certified instructor and is recognized as one of the top trainers and instructors in the western U.S.

Students don't have to be English riders to benefit from the clinic. Good horsemanship incorporates many basic principles of dressage.

Top riders in events ranging from barrel racing to cutting and reining often use different terms but actually use many elements of classical dressage.

The cost of the clinic is \$60 for a private lesson, \$25 for a small group lesson.

Students should register by Oct. 13. Call Pat Warren at 753-2231.

Marketing workshop Wednesday at college

A marketing consultant who has worked for Nevada casinos is coming to Elko to present a seminar from 9 a.m. to noon on Wednesday, Oct. 25, at Great Basin College to help businesses promote themselves.

"Advertising to Win" will be presented in Room 120 of the Greenhaw Technical Arts Building by Sharon Zadra of Reno-based Marketing Synergists.

"This will be a broad-based marketing workshop, not just concentrating on advertising," said Tracy Echeverria of the Small Business Development Center.

The workshop is being sponsored by the SBDC, North East Nevada Development Authority, Elko Chamber of Commerce and Great Basin College.

Zadra plans to help business people determine their market niche, write a marketing plan, establish an advertising budget, build advertising partnerships with neighboring stores, cooperative dollars, special events, seasons and themes and choose the media to reach a market niche.

She also will talk about tailoring a company's message to potential customers, setting advertising goals and measuring advertising performance.

Zadra has been a professional

marketer for nearly 20 years, specializing in business planning, advertising, direct marketing and image building.

She is credited with achieving policy changes in the media to allow gaming-specific copy to be published while director of marketing for Circus Circus and two Summa Corp. casino-resorts.

According to her biography, Zadra also boosted marketing shares for Summa and Caesar Resorts. In the first 10 years of her career, she managed \$30 million in national result-oriented marketing.

In addition, as director of marketing at Caesars, she was responsible for retail promotion at the Tahoe resort and was one of the team directors involved in the design and implementation of the Forum Shops on the Las Vegas strip.

The seminar fee is \$30, but NENDA and chamber members receive a 10 percent discount. Anyone interested in registering or seeking more information can contact Echeverria at the Small Business Development Center, 753-2245.

"We always welcome last-minute sign-ups. There will be plenty of seating," she said.

Head Start: Head Start teachers from throughout Elko County gathered Monday at Great Basin College for training in working with special needs children and their families. Wendy Whipple, a child development specialist with the Nevada Department of Human Resources, and Deb Hartwig, a component coordinator with the Inter-Tribal Council of Nevada Head Start, coordinated the program. Whipple and JoAnn Dondero, a speech and language pathologist with the Elko County School District, each gave presentations on working with children with special needs. The day also included lunch and door prizes. Pictured, from left, are (front row) Evelyn Roche, Valiada Hinkey,

Clorinda Flores, Hartwig, Kristin Henden, Michele Gray, Connie Miller, Arloa Kelly and (back row) Mitzi Reilley, Glenda Thomas, Tammara Fretwell, Brenda Chavis, Cammie Jones, Vickie Harney, Whipple, Doris Garfield and Denise Edler. Door prizes were donated by Lundberg's Downtown, Lillian's Gift House, Quality Feeds and Christian Books and Gifts. Lunch was donated by Burger King and Inter-Tribal Council of Nevada Head Start and prepared by Arloa Kelly. Those interested in resources and early education programs for special needs children may call Head Start at 738-2040 or the Elko County School District's Early Intervention Program at 753-8646.

HOME DECORATING WORKSHOP--SHARE THIS WITH OTHERS IN YOUR OFFICE

SATURDAY, OCT. 21, 1-3 p.m.

Darlene Salicchi of Bella Interiors will present "Home Decorating: Express Yourself with Home Fashions" workshop on Saturday, October 21 from 1-3 p.m. at Great Basin College in Berg Hall Room 7. Participants will learn how to personalize and stylize their home by creating a theme that reflects their own family's personality. Themes can range from country French, cowboy-western, lodge, to formal. Whether students are building a new home, remodeling a room, or just adding some accents to brighten their existing decor, they will each have the opportunity to ask professional designers Darlene Salicchi and Linda Osmun a variety of questions in a very relaxed atmosphere.

A very basic overview of scale and color with an emphasis on understanding "how colors are made" will help students use colors to accent and compliment each other. Selecting a paint color from a tiny chip can often lead to an amateur decorator's disaster without an understanding of how warm and cool tones of a shade that appears to be neutral can be greatly exaggerated when covering an entire room.

"Once the walls, floors and windows are covered, then the decorating begins!" advises Instructor Darlene Salicchi. Accessories such as paintings, lamps, picture frames, even light switches create the feeling that makes your home unique. Table scaping creates a mood from silver and crystal to a bouquet of dried flowers. Additional topics include: sources of lighting and how to effectively use lighting in decorating your home; how to select and care for various fabrics used in home decorating; how to create the popular layered look for your window coverings; and when it is best to consult a professional. A special guest speaker from Robert Allen Fabrics in Salt Lake City is included on the program.

Students can register for the class at the Student Services Office in Berg Hall prior to the start of the class. Cost is \$15 which includes a shopping bag stuffed full of manufacturer's brochures and fabric samples.

GBC Horse Clinic Rescheduled

The date for Great Basin College's "Driving the Horse" Clinic has been changed from May 5 to Saturday, May 18, starting at 11 a.m. at Suzie Creek Arabians Indoor Arena in Elko. Instructor Fred Polinder from Lynden, Washington, drove his first six-

horse team in 1946 and has been driving since. He is scheduled to judge the harness classes at the prestigious Royal Highland Show in Edinburgh, Scotland. Polinder has shown eight-horse teams at the Grand National Horse Show at the Cow Palace in San

at the Elko
Francisco and at the Calgary Stampede. *5-2-91*

Safety practices pertaining to driving horses will be thoroughly covered. Students will learn the procedures for hitching a single-horse buggy and as well as a team. Although participants are asked not to bring their own horses, they will have an opportunity to hitch a horse and drive a buggy or wagon.

Cost for the clinic is \$20 with pre-registration or \$25 at the door. Interested students can call 702 753-2231 or 753-2301 to register and for more information. Suzie Creek Arena is located eight miles west of Elko in I-80. Take the Hunter Exit and follow the signs to Suzie Creek Arabians.

Experienced rider course coming soon

5-8-96

A new rider's coming to town. This motorcycle rider is good. Real good. With quick reflexes. Fast reaction time. Can turn on a spike. Swerve like a snake. Every rider needs these skills.

That's the word from Jim Utterback, Chief Instructor for Nevada's Experienced Rider Course. This 8-hour class is designed to improve the skills of motorcycle riders who have mastered the basics but might have developed some careless riding habits over the years.

Bernie Broniv of Reno rode a motorcycle for five years before taking the course. He was so impressed he became an instructor. "Some guys come in with a chip on their shoulder," he said. "They tell me: 'I've been riding longer than you've been alive.' But after completing the 8-hour class, they find they can do things with these big bikes they didn't think were possible."

The course consists of four hours

in the classroom where riders get a refresher on the vagaries of motorists and the physics of traction. Cornering, counter-steering, precision balance and city-street strategies are covered.

The Elko classes are set for May 18 to 19 and September 7 to 8 at the Great Basin College campus.

New riders with less than six months of experience are encouraged to enroll in the Basic Rider Course. It's held every weekend year-round in Las Vegas, and frequently in Reno and Elko.

Riders in smaller cities and towns are served by a Mobile Unit. This van hauls 10 motorcycles on site. Chief Instructor Jim Utterback travels throughout the state this way so that every rider can be a skilled rider. "Take the course," says Utterback. "Be a smooth operator."

Experienced Rider Courses are held throughout the state. Call (800) 889-8779 for additional information.

Horse Clinic

Spectators are welcome to attend Great Basin Community College's Tom Lyons Cutting Horse Clinic on Friday, June 28, and Saturday, June 29, at Suzie Creek Arabians Indoor Arena from 9:00 a.m. to 5:00 p.m. Sixteen riders from the Elko area, Idaho, Montana, Utah and California are scheduled to work their horses on cattle to fine tune their cutting skills. Instructor Tom Lyons from Grandview, Texas, has won over \$3 million in cutting horse competitions, and is the past president of the National Cutting Horse Association. More importantly, Lyons is an excellent teacher and students enthusiastically have returned to his clinics in Elko for the past several years.

"Keep your heels down, your shoulders back, push on the horn, keep your hand down and don't watch your horse—watch the cow" are key points Lyons teaches his students to successfully show their horses on cattle. Pat Warren, Director of Continuing Education at NNCC, explains, "Tom told me to drop my chin because it keeps my body more centered on my horse. It really works!"

Spectators may register at the clinic for \$15 per day. All the riding slots are full. Suzie Creek Arena is located eight miles west of Elko off the Hunter Exit. The clinic has been made possible by the generous donation of facilities, staff time, and cattle from Maggie Creek Ranch and Suzie Creek Arabians. Please call 702-753-2231 for more information.

WJK

Horse clinics planned in Elko

Great Basin College in Elko has three classes in April scheduled for horse enthusiasts.

Saturday, April 13, starting at 8:00 a.m., instructor and professional horse trainer Kurt Fuller from Twin Falls, Ida., will teach a "Winning Halter Classes" clinic at Suzie Creek Arabians Indoor Arena.

Students will learn how to develop a fitting and nutrition program for horses of various ages.

Techniques for professional grooming as well as how to dress appropriately for showing halter horses will be covered.

Participants will learn how to properly set up their horse and lead him in the walk and trot for a judge.

Most important of all, students will learn how to project a winning attitude and take home blue ribbons in halter horse classes. Registration fee is \$10 and students may bring their own horse.

Starting at 1 p.m., Fuller will present a "Western Pleasure Horse Clinic."

Riders will learn training and

showing techniques for proper head set, executing smooth transitions and picking up correct leads.

Fuller has placed horses in the top ten in the U.S. Nationals and world Appaloosa shows.

In the past two years, his students and their horses have earned 60 U.S. and Canadian titles.

He showed horses in England and Germany, winning 11 international titles in various events.

Although the riding portion of the clinic is full, spectators are welcome for a \$10 fee. Also, a waiting list for riders is currently being taken.

Kim Henneman, D.V.M. from Salt Lake City, will present an "Equine Chiropractic and Accupressure Clinic" on Saturday, April 20, at Great Basin College in Elko.

Dr. Henneman believes that most training and performance problems in a horse have a physical source.

Students will learn how minor soreness and stiffness from training, injury, poor shoeing, poor saddle fit or dental problems can lead to compensations that affect perfor-

mance and can eventually lead to catastrophic lameness such as navicular, founder or tendon injuries.

Students will learn to recognize warning signs and take appropriate steps before a catastrophe occurs.

Horse anatomy and posture and a demonstration of chiropractic techniques will be features. The cost is \$20.

Students are encouraged to register as soon as possible as classes may be canceled due to lack of advance enrollment. For more information or to preregister for classes, please call (702) 753-2231 or (702) 653-2301.

Elko horse clinic date changed

The date for Great Basin's College's "Driving the Horse" clinic has been changed to Saturday, May 18, starting at 11 a.m. at Suzie Creek Arabians Indoor Arena in Elko.

Instructor Fred Polinder from Lynden, Wash., drove his first six-horse team in 1946 and has been driving since.

He is scheduled to judge the harness class at the prestigious Royal Highland Show in Edinburgh, Scotland.

Polinder has shown eight-horse teams at the Grand National Horse Show at the Cow Palace in San Francisco and at the Calgary Stam-

pede. HS 5-10-96
Safety practices pertaining to driving horses will be thoroughly covered. Students will learn the procedures for hitching a single-horse buggy as well as a team.

Although participants are asked not to bring their own horses, they will have an opportunity to hitch a horse and drive a buggy or wagon.

Cost for the clinic is \$20 with preregistration or \$25 at the door. Interested students can call (702) 753-2231 or (702) 753-2301 to register and for more information.

Suzie Creek Arena is located eight miles west of Elko on I-80. Take the Hunter Exit and follow the signs to Suzie Creek Arabians.

May 10, 1996

GBC to offer classes in motorcycle safety

Governor Bob Miller has declared May "Motorcycle Safety Awareness Month" and Great Basin College has scheduled several special classes this summer to help motorcycle riders brush up on their street skills.

GBC will offer a course for experienced riders from 8 a.m. to 5 p.m. May 18 at the college located at 1500 College Parkway. The class will give experienced riders a chance to brush-up on their skills, according to a press release. The fee for the course is \$39.

Three "Riding and Street Skills" classes are scheduled this summer. The weekend-long introductory courses will be held June 7-9, July 12-14 and August 2-4. The hours will be 6 p.m. to 9 p.m. Fridays and 8 a.m. to 5 p.m. Saturdays and Sundays. The fee for the course is \$79.

The course includes both classroom instruction and actual riding experience. Motorcycles will be provided for the class and beginners are

welcome.

The courses are a cooperative effort between the college and the Motorcycle Safety Foundation, Nevada Office of Traffic Safety, Nevada Rider Motorcycle Safety Program and Jeff's Cycle Shack.

Each year, thousands of motorcyclists are injured or killed because they lack the necessary street skills to avoid making dangerous mistakes, according to a GBC press release. The comprehensive 19-hour course offered at GBC has been designed by the National Motorcycle Safety Foundation to teach riding skills to beginning through experienced riders. Students can earn their Nevada Motorcycle Driver's License upon successful completion of the course and they often qualify for a reduction in insurance rates from selected companies.

Class size is limited to the first 12 students registered. Those interested may call the college at 753-2301.

Change on the Range: For Better or Worse?

A spirited dialogue and public discussion with
C.J. Hadley, publisher and editor of *Range Magazine*
and

Jon Christensen, Great Basin regional editor of *High Country News*

Thursday, November 2, 1995

7:00 p.m.

Great Basin College

Greenhaw Technical Arts Lecture Hall

Fee \$5.00

Does ranching in the West need to change?

Are we losing things we value . . .

industry, lifestyles, ecosystems, cultures, communities?

Who really owns the West?

Can ranching culture change?

Or is resistance the way of the West?

Do rules and regulations create change or hobble it?

Who should be making decisions?

Is this a war we're in?

Can we find common ground?

Or should we get western and fight it out?

No holds barred — but leave your six-shooters at home!

For more information or to register call 753-2301.

This program was made possible with assistance from the Nevada Humanities Committee,
the state affiliate of the National Endowment for the Humanities.

W.K.
A

From left are C.J. Hadley, editor of *Range Magazine*, an ad-free publication of the Nevada Cattle-men's Association; Pat Warren, head of continuing education at Great Basin College; and Jon Christensen, great basin editor for *High Country News*, a bi-monthly environmentalist publication.

'Change on the Range' discussion well attended

A discussion at Great Basin College billed "Change On The Range" between C.J. Hadley, editor of *Range Magazine*, and Jon Christensen, Great Basin regional editor for *High Country News*, drew an audience of 70, reported Pat Warren of GBC, who organized the talk and invited audience members to participate.

Ranchers, federal agency employees, miners, hunters, private range consultants, politicians and environmentalists attended.

Warren explained the discussion was presented to help people look for common ground in the current conflict over public land use.

Christensen opened by describing himself as a San Francisco "environmentalist" and said he and Hadley, as "outsiders," might have a clearer view than those who live on the land.

He said the purpose of the discussion was not to go over who was to blame, and added that he shared "Westerners' innate distrust of government."

"We should work together to fix what is wrong," Christensen said.

When it was her turn, Hadley disagreed that she is an "outsider," although she was born in England and immigrated to the United States via Canada. She said Westerners have been her dearest friends for a quarter of a century.

When asked what she sees today in the West, Hadley described the case of a mountain lion, identified by a hunter to U.S. Park Service officials as needing to be shot, that later killed and partially devoured a California jogger. She called for common sense in the application of the Endangered Species Act and described other specific bureaucratic failures that have damaged families.

She recounted environmental "horror stories" of a "fly stopping the economy in California" and a rancher who was nearly sent to jail for shooting a grizzly bear to save his own life.

County by some ranchers.

Dr. Patricia M. Wright of Marys River Ranch blamed the use of the "war metaphors" for a lot of divisiveness.

"I think the media needs to take the blame," she told Christensen. "I resent it that you call yourself an 'environmentalist' and do not include ranchers. ... I think environmental magazines tend to perpetuate the myth that ranchers are not environmentalists."

Christensen replied that he is concerned about the public land too and resents being portrayed as an urbanite with a backpack.

Miner Ron Crouse said he does not share McColm's optimism and blamed Elko County Commissioners

and the *Elko Daily Free Press* for maintaining conflict locally.

He said the newspaper has "a strange hold on the community."

Author Teresa Jordan continued the criticism of the media by mentioning the "heat" in headlines.

"Why are all your covers depressing?" she asked Hadley. She also queried Christensen about his banner headline in a recent issue of *High Country News*, "Nevada's Ugly Tug Of War."

Hadley agreed the coverage needs to be more upbeat. "There will be changes in the next *Range*," she said.

Few ranchers spoke during the 2½ hour meeting, but Warren concluded there was a general feeling of optimism.

Hadley said compromise meant different things to people on government payrolls and people not on them.

"It is not compromise when two men come to a table and one has nothing to lose," she said. The agency employee, no matter what, will keep his job and his fringe benefits, but the rancher comes to the table knowing he and his family will lose something. "I think federal employees should help ranchers, not hurt them."

Speaking to the issue of grazing fees and who pays for the use of public land, Hadley said recreationists do most of the damage to southern Utah parks, and each visitor to Yellowstone National Park is subsidized \$28 by American taxpayers.

Christensen said he thinks things are getting better on the range because cattle numbers are down, but added he worries about the survival of land-based cultures.

"We all need to be part of the solution," he said. "People must learn to live together in a changing west."

Both editors agreed environmentalist groups in Colorado are now witnessing "urban sprawl" and that as the federal government mismanages land, wildlife leaves to live on private property.

Hadley said factory outlets are not the answer to economic problems. Christensen said neither are prisons and casinos.

Miner Jim Collard, the first in the audience to speak, said people in Elko County are already part of the solution.

"We are talking," he said. "Now we need agencies to get on board." He added he believed the U.S. Forest Service is divisive. "They are not helping us to heal."

Merlin McColm, a retired Nevada Division of Wildlife employee, said that in his opinion, the West's resistance is being "blown out of proportion."

"Resistance is important to change," McColm added.

He said good can come out of conflict, and he endorsed Holistic Resource Management techniques that are just now being tried in Elko

(Kerry Jamison/Free Press)

Carol Popoff, director of the Bureau of Economic Research at the University of Nevada, Reno, presented an economic forecast to a group of city and county representatives. The objective of the group is to develop a coordinated vision of Elko as it approaches the 21st century.

City and county agencies attend planning workshop

By Kerry Jamison

Representatives from 11 civic and governmental bodies met yesterday at Great Basin College to share their visions for Elko in the 21st Century.

The agencies included Great Basin College, the City of Elko, Elko County, Elko General Hospital, the Elko Convention Center, Elko County School District, Elko Chamber of Commerce, the Elko County Fair Board, airport authority, NENDA (North East Nevada Development Authority) and the Elko Net.

Representatives of each agency gave a five-minute presentation of the needs and direction of their entities after hearing from Carol Popoff, director of Economic Research from the University of Nevada, Reno.

Popoff spoke about the population boom that Elko is experiencing and the pressure it puts on the city's resources. She also spoke about the need for developing a diversified economic base and avoiding a polarization within the community over the number of complicated issues that Elko currently faces.

Popoff identified what she called "wild cards," or unexpected influences that might hurt or help short- and long-term plans for the county

and the city.

Those influences included:

- ✓ The possible legalization of gaming in neighboring states.
- ✓ Economic development in other states that could challenge northeast Nevada in attracting new businesses.
- ✓ A fluctuation in interest rates.
- ✓ An increase in military spending.
- ✓ A reduction in governmental regulation that could increase mine production.
- ✓ Changes in normal weather patterns.
- ✓ Limited economic growth coupled with an increasing population.
- ✓ Earthquakes. Popoff said that northeast Nevada is third in line in the nation for potential seismic activity.
- ✓ An increase in gaming activity.
- ✓ An increase in immigration from California.
- ✓ Gold price fluctuation.
- ✓ Mining competition from other countries, including Russia, Venezuela and Chile.

Following the five-minute presentations, the group broke down into three discussion groups to prioritize the three greatest strengths and

three greatest challenges to the community.

The three greatest strengths were identified as the people of Elko County in relation to their education, cooperation and volunteerism; the geographic location of the City of Elko, including the variety of amenities, the strong economy and the quality of life; and the size of the community, which allows a lot of flexibility for future planning.

The three greatest challenges were identified as the need to upgrade the city's infrastructure, including streets, water supplies and wastewater treatment; a need for coordinated planning among all the agencies; and the need for increased communication among all the agencies.

Finally, the three groups discussed how they could all work together to meet these challenges. They determined the group needed continued communication, interagency support and to develop an action plan for the long-term funding of the group's needs.

The group has temporarily named itself "Team Elko" and is expected to meet at 8:30 a.m. Monday, Dec. 18, to develop goals and further identify the community's needs.

E.D.F.P. 1-22-96

Great Basin College offering free tutoring

Great Basin College is offering free tutoring for students struggling with English and writing.

The college's Critical Skills Writing Lab, located in Lundberg Hall at 1500 College Parkway, offers free tutoring to students enrolled in developmental English classes as well as to other students needing assistance in writing term papers or compositions.

The lab is equipped with 21 computers, and students lacking in computer skills will receive a brief introduction to word processing and manuscript presentation using WordPerfect.

Tutors can assist students with

editing, revision, language mechanics and structure, and software is available to help students with punctuation, spelling and composition.

English and writing tutors are available Monday through Friday and some evening tutoring is available.

GBC's Critical Skills Lab also offers free math tutoring from 4 p.m. to 7 p.m. Mondays and Wednesdays in McMullen Hall.

Limited free tutoring is available to all Great Basin College students receiving lower than a C in a class. Tutoring is limited to four hours per week. Those interested may call Joyce Lusty at 753-2109.

Parenting to be focus of seminar at college

Northern Nevada Association For Young Children, Elko County School District, Elko County Classroom Teachers Association and Great Basin College will present a seminar for parents and teachers from 7 p.m. to 9 p.m. Jan. 27 at the Great Basin College Theater located at 1500 College Parkway.

John M. Platt, a licensed marriage, family and child counselor, will be the guest speaker for the evening. Platt received his doctorate degree in education from the University of

Arizona and has made over 1200 presentations to various groups all over the country.

Since 1975, Platt has taught classes in family counseling, encouragement, conflict management and parent-teacher education throughout the United States and at the International Congress of Adlerian Summer Schools and Institutes in the United States and Canada, Holland, Greece, Austria, Switzerland, Germany, Italy, Israel, New Zealand and England.

Platt has trained thousand of parents and teachers in cooperative interactions with children. Platt will present guidelines for surviving parenthood and producing responsible, happy children. He offers easy, step-by-step techniques that take parents and educators beyond the birth process and into the next 18 years with positive and encouraging methods for dealing with misbehavior. Platt has written numerous articles and books on raising responsible children. He firmly believes that learning about parenthood is learning about human relations.

The seminar is free though donations are welcome. Sponsors include Nevada Civic Club, Reno Rodeo Association, Elko Lions Club, Elko Clinic, Elko Presbyterian Church, City Parent-Teacher Organization and the Mountain View PTO.

Seating is limited and those interested in attending may call 753-2225.

John M. Platt

Artist William Matthews painted this watercolor of Jon Griggs, left, and Mitch Heguy at Maggie Creek Ranch in Elko.

Free Press
Friday 1-26-96

Matthews to present lecture, slide show

Great Basin College will present a lecture and slide presentation entitled "The Great Basin Cowboy" with artist William Matthews at 7 p.m. Tuesday inside the Great Basin College Theater.

Matthews aggressively pursues the people and settings of the great ranches throughout the Western United States in his watercolor paintings, according to a GBC press release. His resulting work has been described as a subtle philosophical study of Western ranch life with a depth few others match. *Forbes* magazine recently hailed Matthews as the new Remington of American painting. Matthews has taken that same keen eye and captured both the landscape and spirit of Europe and Asia.

Matthews resides in the mountains

outside of Denver, Colo., and has traveled and painted throughout Spain, North Africa, Egypt, Britain and Ireland. He credits his travels for giving him a rich appreciation of light pattern within geographic frameworks. His travels have culminated in several exhibitions of work, including Watercolors of China, Sketches of Spain and The Blue Nile.

Matthew's paintings are part of the permanent collections at the Gene Autry Western Heritage Museum in Los Angeles, Buffalo Bill Historical Center Gallery in Cody, Wyo. and the National Cowboy Hall of Fame in Oklahoma City. He recently designed the poster for the 12th Annual Cowboy Poetry Gathering.

Admission to the lecture is \$5 at the door. Those interested may call 753-2301.

WIK

Dan Dagget to lead discussion of grazing

Times Press
Wednesday
1-24-90

By Mary Branscomb

Dan Dagget, a writer and environmentalist, will lead a panel discussion entitled "Beyond Rangeland Conflict: the Future of the West" at 2 p.m. Wednesday, Jan. 31, at Great Basin College.

Dagget contributes stories to *Range*, *Outside*, and *Sierra* magazines and *High Country News*.

The discussion was scheduled to accommodate local and out-of-area ranchers who may be in Elko to attend the annual Cowboy Poetry Gathering Jan. 27 through Feb. 3, although environmentalists and government employees also are encouraged to attend, according to Pat Warren, head of continuing education at GBC.

"We want people who live on the land to attend because they are most

affected by what happens on public range," she said.

Other panelists will include Tommie Martin, Dennis Moroney and members of the recently formed Cottonwood Ranch Holistic Resource Management Team. The Cottonwood Ranch, owned by the Horace Smith family, is located in O'Neil Basin near Jarbidge.

Although he has been honored by the Sierra Club as "one of the top grassroots activists in America and a leader in innovative solutions to problems," Dagget believes grasslands must be grazed or they become something other than grasslands. He advocates a "working wilderness" that sustains wildlife, livestock, man and the ecosystem.

He said he is not "an environmentalist on a leash for ranchers," as

some people have labeled him. He says he simply believes "cooperation is more powerful than confrontation."

Dagget and the other panelists will explain how some unconventional grazing techniques have achieved more diverse wildlife populations while ranchers who use them realize higher profits on the same range.

He said he hopes everyone who wants to speak during the discussion will.

"The panel is not a leadership process," he explained. "It is always a mutual learning. I find the most sanity in what we call 'collaborative teams' dedicated to adaptive and holistic management of the land. It is a powerful process for bringing people together."

Dagget sees human beings as part of the ecosystem. He does not believe in the "hands off, let it burn" philosophy of some of his colleagues, but he also says some ranchers do damage to the land.

In an article for the winter 1986 issue of *Range* magazine titled "Put Up Or Shut Up," he points out the debate between grazing or no grazing will not be resolved with talk.

The article suggests that livestock producers and environmentalists set up separate test sites, one beside the other. As many people who wanted, whatever their interests or persuasion, could monitor the sites and take photos.

Range editor C.J. Hadley prefaced Dagget's story with a sidebar saying, "The worst that can happen is to find we have been wrong. Either grazing benefits the range or grazing damages it. This test will prove it. Let's settle this on the land with both sides watching and print the results in *Range* magazine."

Today, Dagget lives in Flagstaff, Ariz., but he grew up in the rural hill country of southeastern Ohio near Wheeling, W.Va.

His recent book, *Beyond The Rangeland Conflict, Toward A West That Works*, which has been nominated for a Pulitzer Prize, is available at the Western Folklife Center in Elko. Jay Dussard took the black and white portraits and color photographs for the soft cover book. In it, Dagget describes range practices on 10 ranches in Arizona, Montana, Wyoming, Colorado, New Mexico, Utah, Nevada and Sonora, Mexico.

One reviewer said of the book, "One of the most wasteful tragedies of the West has been the conflict between ranchers and conservationists. This book states the terms of an authentic reconciliation: renew the sense of community, of common good and common ground; work together to define common goals and to achieve them. The ranchers and conservationists who populate these pages have quit fighting over the contested landscapes and have begun restoring them..."

There is a \$5 admission for the panel discussion in Greenhaw Technical Arts Building. Warren's phone numbers are 753-2231 and 738-9493.

Grazing panel: Dan Dagget, a Flagstaff, Ariz., environmental writer will lead a panel discussion called "Beyond Rangeland Conflict: the Future of the West," at 2 p.m. tomorrow at Great Basin College in the GTA lecture room. The program will feature a discussion with Tommie Martin, Dennis Moroney and the Cottonwood Ranch Holistic Resource Management team. Cost is \$5 at the door.

LIFE IN THE FAMILY ZOO PARENTING WORKSHOP

Survival Guide in the 90s

FREE PARENT WORKSHOP, for parents of children of all ages. A humorous presenter, John M. Platt, Ed.D, uses real life examples and story telling to share insights for surviving parenthood and producing responsible happy children. Workshop location is Great Basin College Theatre; seating is by reservation, 753-2225.

FREE PARENT WORKSHOP
DATE: Saturday, Jan 27
TIME: 7:00-9:00 p.m.
PLACE: Great Basin College

speaker, DR. JOHN PLATT

THE DESERT PULPIT
 MONTHLY NEWSLETTER OF THE FIRST
 PRESBYTERIAN CHURCH

PASTOR	Ralph Bolin
Sec/Booktrp/CED	Penny Uriola
Custodian	Basilio Sandoval
Organist	Troy Newville
Music Director	Kathy Reyes
Music Coordinator	Pat Tempel
Editor	Janice Collett

1559 Sewell Drive, Elko, Nv 89801
 702-738-3430

Submissions, suggestions, criticism (all received by editor with great thankfulness!) may be deposited in the Desert Pulpit bin in the office. Deadline: last Sunday of the month.

Note from Margaret Paoli:

"I had the opportunity to hear Dr. Platt speak in Reno in November. I have never laughed so hard—at myself! His stories really hit home. Mark and I have tried his suggestions and life in our "family zoo" has improved. If you want to know more, stop me some Sunday at church or call at home: 777-3444. I hope to see you there Jan 27. This is a rare opportunity for us in Elko to learn from a man of this caliber."

Life In The Family

*Sponsored by the Elko County School District, Elko County Classroom Teachers,
Northern Nevada Association for the Education of Young Children,
and Great Basin College*

Survival Techniques for Parenting/Teaching in the 90's

In this seminar, guest presenter John M. Platt, Ed.D. will present guidelines for surviving parenthood and producing responsible, happy children. He offers easy, step-by-step techniques that take parents and educators beyond the birth process and into the next 18 years with positive and encouraging methods for dealing with misbehavior.

This seminar has been accepted for two hours of Child Care and Foster Training through the State of Nevada Bureau of Child Care Licensing.

If you have any questions call Lynette Remington at 753-1111 or Marilee Harper Harrison at 753-2225.

Mr. John M. Platt, Ed.D. is a humorous presenter. He uses real life examples and story telling to share insights for surviving parenthood and producing responsible, happy children. A featured guest speaker throughout the United States, and an international speaker, Platt has written numerous articles and books on raising responsible children. He firmly believes that learning about parenthood is learning about human relations.

'Employee Solutions' seminar Wednesday

Consultant Tom Fitzgerald of Reno is scheduled to present a seminar on "Employee Solutions or Everything You Need to Hire and Inspire Employees" from 9 a.m. to noon Wednesday, Feb. 7, at Great Basin College.

The seminar, to be held in the Greenhaw Technical Arts Building Room 120, is being sponsored by the Small Business Development Center, Elko Chamber of Commerce and North East Nevada Development Authority.

Fitzgerald plans to cover the following topics designed to help small businesses: turnover, affirmative action, training, salary levels, fringe benefits, employee and safety manuals, interviewing techniques, coping with the Americans with Disabilities Act, home-based employees, retraining, hiring in a tight labor market and dealing with regulators.

"I just think employees are such a critical part of business success that business owners should always be looking for ways to improve their employee environment. This seminar will be a good way to do that," said Tracy Echeverria, management consultant for the Small Business Deve-

lopment Center in Elko.

Fitzgerald, who has presented a "Financial Solutions Beyond Survival in Small Business" seminar in Elko in September 1995, has his own consultant firm called The Energy Circuit Inc.

He recently sold a business he started in 1979. It began as a small, national printing company, marketing niche products to thousands through catalogs and telemarketing. During the 1980s, Fitzgerald developed advertising programs to attract more diversified customers, boosting sales and profits.

According to a brochure on the seminar, Fitzgerald increased employee productivity with innovative computer use and encouraged skill development in all employees.

Cost of the seminar is \$35 for the general public and \$31.50 for chamber or NENDA members. Those interested in attending the workshop can register with the SBDC at 753-2245 or send checks made out to Board of Regents to the Small Business Development Center, Great Basin College, 1500 College Parkway, Elko 89801.

EWFP 2-31-96

Two elderhostelers take a break during a field trip to Lamoille Canyon.

Elderhostel Programs offered this summer

Great Basin College will offer three Elderhostel programs this summer. Over 150 people from around the country have previously attended Elderhostel programs in Elko and Ely and have learned about the area and experienced Nevada hospitality.

Elko's first program will take place June 16-22, from Sunday afternoon to Saturday morning. The fee of \$350 pays for the 6 night program, including, meals, classes and any incidentals. The program will be housed at the Stockmen's Motor Hotel, but local participants can attend without staying in the hotel.

The three non-credit, undergraduate level courses offered include "Gold Rush! Nevada's Mining Boom" with Karen Tempel, "Wagon Ruts Through the Sage" with Charles Greenhaw, and "Nevada Cattle Ranching" with Connie Satterwaite. There is no homework, preparatory work, or grades. Each class meets in the classroom and spends a full day on a field trip. All that is required is an inquisitive mind.

Ely will have a program on July 14-20. Its classes will be "Turning a Spotlight on Caves", "Ghost Towns of Eastern Nevada" with Sean Pitts, and "Discover Gold and Copper Mining Today".

Elko's second program will take place August 4-10 in partnership with the Western Folklife Center. The program will again be housed at the Stockmen's Motor Hotel.

The three courses offered in the August Program include "Cattle Ranching in Nevada's High Desert", "Ranch Skills of Nevada

Buckaroos", and "Cowboy Songs, Stories and Poetry". All classes will be taught by Western Folklife Center staff.

Local Elderhostel coordinator Larry Hyslop characterized the typical Elderhostelers as people at least 55 years young, who enjoy learning, and enjoy exploring a new area. Great Basin College's Elderhostel Programs make use of extensive field trips. Although most travel long distances to attend, programs always attract a few local participants.

Elko's cultural background and rich history and beautiful setting makes it a natural to host an Elderhostel program. Great Basin College is excited to be able to offer these programs to both local seniors, and seniors from around the country.

Elderhostel is a non-profit educational program which provides an academic adventure for older adults looking for something different. This fast growing organization currently has programs located on 1800 campuses across the country and throughout the world. Last year, one quarter million people enrolled in Elderhostel. Seniors take informational and interesting classes, often focusing on the special features and people of the area.

Registration for the June program is open now. Interested persons or anyone knowing of seniors who would be interested should contact coordinator Larry Hyslop at 753-2305 for more information on the courses, housing, and details on registration.

Course offered for ranchers

EWFP 2-7-96

Great Basin College will offer a three day intensive course in "Biological Planning and Monitoring for Ranchers" starting Monday, February 12-14 from 8-5. Instructors Steve Rich from Salt Lake City, Utah and Tommie Martin from Flagstaff, Arizona are registered holistic resource management educators. They are both consultants for the Cottonwood Ranch in Jarbidge.

Ranchers can develop an annual grazing plan which restores forage resources, improves the nutritional value of forage, and adds 40-60 more days of growing season than traditional grazing practices. Participants will work together in teams with ranchers, agency personnel, and students concerned with environmental issues. Designed to improve relationships between various interest groups involved in the use of public lands, the class will become familiar technical language to better communicate and coordinate planning efforts with agencies.

Students must pre-register no later than February 9, by calling 753-2301. Cost for the three day course is \$175 per student.

How to succeed in college?

It doesn't take a genius to know you've got to think like a winner!

Great Basin College has the formula to ensure you succeed in college. Want to leave the starting gate with a real advantage? Check out...

122B How to Succeed in College

Don't gamble with your college career. Instructor Cyd McMullen has created a three-part series of workshops that can improve your odds of mastering college courses. Don't leave things to chance. Whether you are just getting started or are a seasoned veteran needing assistance with specifics, enroll for one or all of the following:

Part I — January 19-20

Getting a Head Start

The first thing you need to know when the starting gate opens is the difference between college and high school. Explore the many challenges you're likely to encounter and how your college catalog can help. Learn to manage your time, use the Learning Resources Center, use basic reference tools, read and mark your textbook effectively, take good notes, and choose a study method. Reading Improvement I: The Basics will also be presented.

Part II — February 9-10

Maintaining Your Lead

After your college career race is underway, you'll need to maintain your lead through Reading Improvement II: A Comprehension and Vocabulary. You'll explore a variety of study options including organizing a study group, using study tools, and reviewing as you go. Of course, you must learn to fight the "I'll do it later" syndrome and deal with tempting procrastination. Find out how memory and concentration can be enhanced and used to your advantage. Also covered will be the basic techniques for writing "the dreaded paper."

Part III — February 23-24

Crossing the Finish Line

Reading Improvement III begins this final leg of the race. You'll learn about the reading rate and how important it really is. And, you'll develop flexibility enabling you to handle additional challenges. Entering the final turn, you will also learn how to study for final exams, use study "props," answer essay questions, revise and edit a paper, and put your "best foot forward" when it comes to preparing a manuscript you're proud of — all for that winner's circle glow!

WAG

Trimble will discuss the natural wonders of the Great Basin—complete with sagebrush seas, island mountain, dry lake beds and rare plants and animals.

The Sierra Club awarded the 1991 Ansel Adams Award to Trimble for "superlative use of still photography extolling the beauty and fragility of the Great Basin." Colorado College awarded him a Doctor of Humane Letters in 1990 for his efforts to make Western landscapes and people understandable and accessible to the public and quoting Thoreau recognized Trimble for having the courage and dedication "to speak a word for nature, for absolute freedom and wildness."

He has published several books on western wildlands and natural history including: *The Geography of Childhood: Why Children Need Wild Places*, *The Sagebrush Ocean*, *Earthtones: A Nevada Album and Words from the Land: Encounter with Natural History Writing*.

Cost for the program is \$5 payable at the door. The first twenty students to pre-register at the college will be free. Please call 753-2301 for more information.

Elko's first program will take place June 16-22 and runs from Sunday afternoon to Saturday morning. The \$350 fee includes meals, classes and other incidentals. Out-of-town participants will stay at the Stockmen's Motor Hotel and local participants are also welcome.

The three non-credit, undergraduate level courses are "Gold Rush! Nevada's Mining Boom" with Karen Tempel; "Wagon Ruts Through the Sage" with Charles Greenhaw; and "Nevada Cattle Ranching" with Connie Satterthwaite. There is no homework, preparatory work or grades. Each class meets in the classroom and spends a full day on a field trip. All that is required is an inquisitive mind.

Ely will have a program July 14-20. Classes include "Turning a Spotlight on Caves," "Ghost Towns of Eastern Nevada" and "Discover Gold and Copper Mining Today".

Elko's second program will take place August 4-10 in partnership with the Western Folklife Center. The program will again be housed at

Poetry." All classes will be taught by Western Folklife Center staff.

Local Elderhostel coordinator Larry Hyslop characterized the typical Elderhostelers as people at least 55 years old, who enjoy learning and exploring a new area. Great Basin College's Elderhostel programs make use of extensive field trips. Although most participants travel long distances to attend, programs always attract a few local participants.

Elko's cultural background and rich history and beautiful setting makes it a natural to host an Elderhostel program. Elderhostel is a non-profit educational program which provides an academic adventure for older adults looking for something different, according to a press release. The organization currently has programs located on 1800 campuses across the country and throughout the world. Last year, one quarter million people enrolled in Elderhostel.

The college is now accepting registration for the June program. Those interested may call Hyslop at 753-2305.

The Irrational Impulse

A lecture on the social
history of intolerance
by Dr. Jack Smith

Religious dogmatism, gender bigotry, and racial prejudice are all examples of fear of the unknown or unfamiliar that have caused - and are still causing - controversy and social dysfunction. Humankind has been the victim of its irrational reaction to those who can be labeled as "them" by a majority fearfully defending the exclusivity of "us." Anti-semitism, persecution of "heretics," misogyny, apartheid and "Jim Crow" laws, and witch hunts (real and metaphorical) will be the substance of this lecture.

Teleconference on grief to be presented at GBC

Horizon Hospice and Great Basin College will host "Living with Grief: After Sudden Loss," a live satellite video teleconference, at 10 a.m. April 17 inside GBC's Berg Hall located at 1500 College Parkway.

The conference, sponsored by the Hospice Foundation of America and moderated by ABC's Cokie Roberts, will focus on grief and bereavement issues involved with sudden and traumatic death and will include a panel of distinguished experts, according to a Horizon Hospice press release. More than 2,000 Hospice organizations across the United States and Canada will participate in the teleconference, the press release said.

The teleconference is being co-sponsored by Mothers Against Drunk Driving (MADD) and the Association for Death Education and Counseling (ADEC) in cooperation with the American Medical Association and the American Nurses Association. Funding has been provided by Service Corporation International, Inc. (SCI) and The Open Society Institute's Project on Death in America.

The topic may seem odd for a hospice-based foundation, but hospices have become a welcomed re-

source for those trying to overcome the symptoms and problems of grieving, according to the press release. In a recent survey, 88 percent of hospices said they extend bereavement services to non-hospice families, the press release said.

"Individuals, families, even communities often suffer sudden and traumatic losses," said Jack D. Gordon, president of the Hospice Foundation of America. "We want to do what we can to assist individuals in mourning, as well as physicians and nurses, clergy, social workers, teachers, police and emergency service personnel who deal professionally with traumatic death so they can respond effectively to survivors in need."

In addition to hospices, teleconference sites will include hospitals, state offices on aging, community colleges, and emergency response organizations, the press release said.

During the two and one-half hour teleconference, Roberts will moderate a panel discussion. There will also be opportunities for viewers to participate during live call-in segments. The panel will include Kenneth J. Doka, a Lutheran minister

and professor of gerontology at the College of New Rochelle, Charles E. Gley, professor of social work at Florida State University, Janice Harris Lord, director of victim programs for Mothers Against Drunk Driving, Patricia Murphy, clinical specialist in ethics and bereavement at Newark Beth Israel Medical Center, and Therese Rando, a clinical psychologist.

The Hospice Foundation of America is a non-profit organization established to assist those who can help others cope with terminal illness and the process of death, grief and bereavement, the press release said. It is dedicated to providing leadership in the development of hospice care for the terminally ill through education, research and philanthropic programs.

The fee for the conference is \$5 for materials and \$15 for three community education units. Those interested in attending the conference may call Kelly Ostler 778-0612.

Great Basin offers workshops

Registration is currently underway for Summer Session, June 10-July 27, at Great Basin College. A variety of credit classes and non-credit workshops will be offered. Computer Literacy, World Religions, General Psychology, and several math classes will be featured. Computer Boot Camp for Beginners and a half-day introduction to the Internet are popular short, non-credit classes that do not require homework or grades. Steve DeMoulin, professional fly-fishing instructor from Portland, Oregon will offer a Complete Fly-fishing School on July 27-28, with a special Western Women's Fly-fishing school on July 25-26. Another all women's class entitled "Outdoor Women's Weekend" will give women the opportunity to learn to shoot, fish, hike and prepare delicious outdoor meals.

Great Basin College's popular Kid's College has many more offerings this summer. Your child can participate in several great educational activities this summer from surfing the internet to Spanish and sign language. Other exciting classes include: ceramics, wheel-thrown pottery, keyboarding, guitar,

singing and instruments, children's theater, becoming an author and illustrator of your own book, leadership training, make-up for teens, science-in-a-bag, geography—passport to the world, baton, modern dance, country western line dancing, yoga for kids and a youth all sports day camp.

Intensive math refresher classes will give your child a head start on sharpening math skills for the upcoming school year. Math classes from first grade through high school will be offered in a fun, relaxed format.

GBC's preschool will be offered Monday through Thursday from 8-noon in June and July. In the afternoon there will be an academic and social readiness class for children entering kindergarten or first grade.

Many of this summer's classes have a limited enrollment, please register early to reserve your spot. You may register at Student Services Office for summer session classes at \$36.50 per credit or in Office of Instruction, Lundberg Hall for Kid's College. Fees are payable at the time of registration. Please call 753-2231 or 753-2301 for more information.

Experience the Glaser Ranch

Donna Bailey from Pine Valley is shown explaining a cow's makeup.
photo by Meg Glaser

An "Ag in the Classroom" event took place April 29 & 30 through the combined efforts of the Elko County School District, Great Basin Community College, Elko County Farm Bureau, and the Elko County CattleWomen. This program allows teachers to recertify and/or receive graduate credit by taking classes that are related to agriculture. The next step is to take their students to a participating ranch for a day of visual and hands-on experiences. Bertha Gardner and Vickie Turner represent the Agricultural organizations and Judith Moschetti is the teacher coordinator.

Eighty students, teachers Liz McDonald, Gina Baker, and Pat Sandoval, and chaperones from Mountain View School traveled to the Glaser Ranch at Halleck on Monday. Southside School sent 100 students on Tuesday from the classes of Pat Nutting, Barb Freeman, Ruby Gliko, Margaret Johnson and Teri Marsh.

The day follows a lesson plan developed in part by the Cornell University Extension Service and adapted locally by Louis Horton of the Great Basin Community College and other chairmen. Among the activities and those involved were Sheep (Chris Neff and 4H members), Dairy Goats (Mari Hunter), Rabbits (Blake Waters and Tessa Bagley), Poultry (Traci Coker), Brands (Susan Church), Beef By-Products (Donna Bailey), Swather Demonstration and Trial Runs (Arthur and Alan Glaser), Horses (Brent and Norman Glaser), Horses (Scott Penn and Sam Hankins), Livestock Scales (Marianne and Meg Glaser), and Elko County Ranching History and Cowboy Gear (Joe Riordan).

Elko High School and Spring Creek High School Future Farmers acted as tour guides both days. Lunch was "cook you own hot dog" on a large grill and with green willow sticks. Albertson's donated hot dogs and buns, IGA donated fruit for dessert, CattleWomen provided condiments and punch, as well as notebooks for the teachers classes. Other volunteers were Carol Swenseid, Francine Zettel, Jennifer Anderson, Lois Dech, Laura Gerber, Janet Weeks, Pauline Riordan, Anne Gustin, Cliff Gardner, and many parents from both schools.

The Glasers received many pictures and thank you notes from the Mountain View and Southside Elementary students regarding their day at the Glaser Ranch.

Spectators welcome to attend GBC cutting horse clinic this month

Spectators are welcome to attend Great Basin Community College's Tom Lyons Cutting Horse Clinic on Friday, June 28 and Saturday, June 29 at Suzie Creek Arabians Indoor Arena from 9 a.m. to 5 p.m. Sixteen riders from the Elko area, Idaho, Montana, Utah and California are scheduled to work their horses on cattle to fine tune their cutting skills. Instructor, Tom Lyons from Grandview, Texas, has won over \$3 million in cutting horse competitions, and is the past president of the National Cutting Horse Association. More importantly, Lyons is an excellent teacher and students enthusiastically have returned to his clinics in Elko for the past several years.

"Keep your heels down, your shoulders back, push on the horn, keep your hand down and don't watch your horse — watch the cow" are key points Lyons teaches his students to successfully show their horses on cattle. Pat Warren, director of continuing education at NNCC explains, "Tom told me to drop my chin because it keeps my body more centered on my horse. It really works!"

Spectators may register at the clinic for \$15 per day. All the riding slots are full. Suzie Creek Arena is located eight miles west of Elko off the Hunter Exit. The clinic has been

made possible by the donation of facilities, staff time, and cattle from Maggie Creek Ranch and Suzie Creek Arabians. Call (702)753-2231 for more information.

Great Basin College will present a "Driving the Horse Clinic" on Saturday at 11 a.m. with Fred Polinder from Lynden, Wash. The clinic will be held at the Suzie Creek Arabians Indoor Arena eight miles west of Elko at the Hunter Exit on I-80. Cost is \$20 or \$25 at the door. Call 753-2231 or 753-2301 for more information.

Two business seminars slated at GBC via satellite broadcast

The Small Business Development Center, Great Basin College Foundation, Edward D. Jones, the U.S. Chamber of Commerce Small Business Institute and *Nation's Business* magazine have joined together to bring two interactive satellite seminars to small businesses.

"Is it the Whole Pie or Just One Piece? Your Business as an Investment" airs July 31 at 10 a.m., and "Keeping a Bigger Piece of the Family Pie: Estate Planning Issues for the Business Owner" airs Aug. 14 at 10 a.m.

Both seminars will be held at Great Basin College, 1500 College Parkway, Berg Hall, room 7. Each is 90 minutes long.

These satellite broadcasts will teach business owners how to deve-

lop a personal investment plan, prepare for life events such as death and succession conflicts and avoid a confiscatory tax on their estate and business, according to a news release.

The Small Business Development Center is available to counsel small business owners on marketing, finances, business plan and numerous other areas, the news release noted, and Great Basin College Foundation has an interest in helping individuals with personal investment plans.

Edward D. Jones has been serving the investment needs of individuals since 1871 and has 3,306 locations, including a branch in Elko.

The U.S. Chamber of Commerce is the world's largest business federa-

tion, with more than 220,000 member businesses, state and local chambers of commerce and trade and professional associations.

The chamber's Small Business Institute is a professional destination for small businesses, offering comprehensive small business programs, products and services, the release states.

Nation's Business, a monthly magazine for small business owners and managers, delivers practical, how-to information on office technology, business and personal finances and family owned businesses.

Those interested in registering can call either the Small Business Development Center at 753-2245 or the Great Basin College Foundation at 753-2237.

GBC to offer Island Lake, bat courses

Great Basin College's biology department will offer two natural history courses this summer.

Both courses will be taught by instructor Mark Ports.

"Wildflowers and Insects of Island Lake" will introduce students to one of the several subalpine lakes in the Ruby Mountains. Two evening classes will use slides and discussion to introduce students to the diversity of insects and wildflowers found along the trail, at the lake and in surrounding boulder fields.

The classes will be held from 6 to 8 p.m. July 23 and 25. The class will wrap up with an all-day field trip July 27. The trip will involve a four-mile hike to and back from Island Lake. The fee is \$36.50.

"Bats: Masters of the Night Sky" will introduce students to bats in northeastern Nevada. Two evening classes will use slides, echolocation and a live bat to introduce students to the fascinating mammals.

The classes will be held from 6 to 9 p.m. Aug. 12 and 13. An overnight field and camping trip will be Aug. 17 and 18. The fee is \$36.50.

Public school teachers may use the courses for certification and children 12 years and older are welcome if accompanied by an adult, according to the news release. Both courses are non-transferrable and do not require any written assignments or tests, according to a GBC news release.

Those interested may call Ports at 753-2249 or 738-4270 or GBC at 753-2102. Students may also register at GBC's Berg Hall, 1600 College Parkway.

OCTOBER 26 THROUGH OCTOBER 31, 1995

Department of Public Works, City of Chicago

NNCC offers guided tour of Chicago

The Northern Nevada Community College Art Department is planning a guided tour of the art and architecture of Chicago Oct. 26 to 31.

The Chicago trip includes a visit to the Monet Exhibition, a tour of the city, a theatre show and a luncheon cruise on Lake Michigan.

The group will visit art galleries, public sculptures and architecture and spend four hours at Oak Park, including a tour of Frank Lloyd Wright's home and studio and Ernest Hemingway's home.

The getaway includes round trip airfare from Salt Lake City to Chicago, five nights at the Essex Inn located near Lake Michigan, portage, daily breakfast and VIP tickets to some of the planned touring spots.

The fees are \$1,029 by credit card or \$999 in cash plus a \$67 fee for pre-trip classes and videos. Those who would like to go should pay a \$200 deposit to reserve a space quickly. Final payments are due Sept. 6.

Those who would like more information may call Sarah Sweetwater at 738-5770, James Linnehan at (702) 756-5560, or Castle Inc. at (702) 870-2109.

Tour includes:
Monet exhibit at the Chicago Art Institute, the largest exhibition of Monet's work ever assembled

NNCC offers art tour to Chicago

Explore the art and architecture of the city of Chicago with this NNCC Art Department tour scheduled for October 26 through 31. Pre-trip classes and videos will prepare Elko travelers for an extraordinary journey.

James Linnehan and Sarah Sweetwater will serve as guides for the many innovative architectural sites endemic to the city. Participants will see the largest exhibition of Monet's work ever assembled — one that presents a picture of the "whole" Monet. The best examples from every period of his career, focusing sharply on his most important achievements, have been gathered for this very important exhibition.

Also included in the tour will be round trip airfare from Salt Lake City to Chicago, transfers to the hotel, five nights accommodations at the Essex Inn located near Lake Michigan and The Cultural Heart of Chicago, portage, daily breakfast, VIP tickets to the Monet Exhibition, a half-day tour of the city, and a four-hour tour of Oak Park (including admission to Frank Lloyd Wright's home and studio, Hemingways' home, and museum. Also included will be tickets to a theater show (TBA) and a luncheon cruise on Lake Michigan. Free time will be scheduled for exploring Chicago's public sculptures, art galleries, and some of the world's finest architecture and shopping.

Based on 30 participants, the tour fee will be \$1,029.00 by credit card or \$999.00 in cash plus \$67.00 course fee. A deposit of \$200.00 will reserve space and should be made as soon as possible. Final payment must be made by September 6. For more information call Sarah Sweetwater at (702) 738-5770, James Linnehan at (702) 756-5560, or Castle Inc., at (702) 870-2109. Space is limited.

Chicago tour is scheduled

Hum Sun 9-5-93
Northern Nevada Community College's art department is sponsoring a tour to Chicago from Oct. 26-31.

The event will include exploration of the windy city's blues and jazz heritage, renowned theater scene and world-class cuisine. In addition, travelers will be able to experience the Magnificent Mile's dazzling array of stores, the world's largest indoor aquarium and treasures of the Art Institute of Chicago.

In addition, tour participants will have a chance to see Michael Jordan play in a Bulls' game, and tour the Monet exhibit with a special VIP pass.

"Travel is one of the best classrooms that teach things you can learn in no other way," said Sarah Sweetwater, one of the escorts for this tour.

Sweetwater, who has led educational travel groups all over the world for the past 18 years, will be joined by NNCC instructor James Linnehan as guide for the architectural tour.

The tour package includes round trip airfare from Salt Lake City to Chicago, hotel transfers, five nights' accommodation at the Essex Inn, daily breakfast, half-day city tour, four-hour tour of Oak Park, a luncheon cruise on Lake Michigan, as well as free time for exploring the city's galleries, shopping and architecture.

Based on 30 participants, the tour fee will be \$1,029 by credit card or \$999 in cash plus a \$67 course fee.

Art 115, Art Appreciation, fulfills a part of the Humanities requirement for the college degree plan at NNCC.

Full payment is required by Sept. 6. For more information, call Sweetwater at (702) 738-5770 or (702) 753-2228.

NNCC art department offers tour of Chicago

Ex Fp 9-5-93

Northern Nevada Community College's Art Department is offering a tour of Chicago — "the city of broad shoulders" — Oct. 26-31.

Based on 30 participants, the tour fee will be \$1,029 by credit card or \$999 in cash plus a \$67 course fee. Participants are also eligible to receive credit for art appreciation.

Group package options include tickets to a Chicago Bulls vs. L.A. Clippers game and tickets to the Broadway shows "Joseph and the Amazing Technical Coat," "Miss Saigon" or "Stump."

The tour includes round-trip airfare from Salt Lake City to Chicago, hotel transfers, five nights at the Essex Inn located near Lake Michigan, portage, daily breakfast, half-day city tour and a four-hour tour of Oak Park, including admission to Frank Lloyd Wright's home and studio and Ernest Hemingway's home and museum.

Also included will be a luncheon cruise on Lake Michigan to enjoy the outstanding architectural skyline. Free time is scheduled for exploring Chicago's public sculptures, art galleries, architecture and some of the world's finest shopping.

"Visiting Chicago in October eliminates the crowds of travelers at peak season and traveling in our specialized group allows flexibility for options," said NNCC Art Department Chairman Sarah Sweetwater.

The tour will include a pass into the Monet exhibit at the Chicago Art Institute. It is one of the largest exhibitions of Monet's work ever assembled — one that presents work from each period of his career.

The exhibit includes more than 159 Monet works brought together from museums and private collections from throughout the world.

Sweetwater and NNCC instructor James Linnehan will accompany the tour group and will present pre-tour classes and videos to prepare travelers for this extraordinary journey.

Final payment is due Friday. Those interested may call Sweetwater at 738-5770 or 753-2228 or Linnehan at (702) 758-5560.

Craftasia: Great Basin College is now featuring a display of Crafts created by artisans who will be teaching classes during "Craftasia — Celebrating American Craft and Saluting Native American Craft" Oct. 6-8 at the Elko Convention Center. They can be seen in the small gallery at the entrance to the Greenhaw Technical Arts Building. Workshops are planned on Navajo weaving, papermaking, italic calligraphy, Ukrainian egg decorating, quilting, basket-

making and basket embellishment. In addition, Craftasia will feature exhibits of juried fine crafts, which can be viewed by the public from 9 a.m. to 6 p.m. Oct. 6, 9-5 p.m. Oct. 7 and 11-4 p.m. Oct. 8. People interested in signing up for the workshops can contact Craftasia coordinator Cindy Lamanna, left, at the convention center at 738-4091. With Lamanna is Sarah Sweetwater, who is on the Craftasia committee and is an art instructor at Great Basin College.

Cindy Lamanna and Sarah Sweetwater display some of the items to be included in the upcoming Craftasia on October 6, 7, and 8. The show will be open from 9:00 a.m. to 6:00 p.m. on Friday, until 5:00 p.m. on Saturday, and 11:00 a.m. to 4:00 p.m. on Sunday. Admission is \$2.00 per person and children under 12 will be admitted free.

Art classes

Great Basin College's Art Department will present a "Rubber Stamping" workshop with artist Trish Hadsall from 7 p.m. to 10 p.m. Wednesday at 1500 College Parkway.

Hadsall will teach participants how to make cards using a wide range of stamps and materials. The fee for the course is \$20. Students may register in the art room of the Greenhaw Technical Arts Building at the start of the class.

The art department will also offer a "Monoprinting" workshop from 9 a.m. to 5 p.m. Dec. 2-3. Students will learn how to make several monoprints from instructor Jack Malotte. The fee for the one-credit course is \$33.50 plus a \$10 lab fee.

Those interested in art department classes and workshops may call Sarah Sweetwater at 733-2228.

Art show: "Home is where the Art is," states a Great Basin College announcement of an art exhibit opening from 5 to 7 p.m. Wednesday at the Great Basin College Art Gallery, located in the Greenhaw Technical Arts Building. Refreshments will be served during the

opening. The exhibit, in the gallery through Dec. 5, features wood carving, sculpture, photography, drawings, pastels, ceramics and collage. Pictured from left are Ottilie Le Hoy, Rebecca Snyder, instructor James Linnehan, Shiloh Greenwell, Debra White and Bonny Avanti.

College schedules two tours

Great Basin College Art Department is offering two special tours next spring.

Students will travel to Brigham Young University's Museum of Art in Provo Jan. 19-20 to see the traveling exhibit of "The Imperial Tombs of China."

BYU's Museum of Art is jokingly referring to the Chinese artifacts as "the exhibition emperors were dying to get into." Nearly 250 artifacts spanning 2,500 years of Chinese culture are featured in the exhibit.

Among the brilliant reminders of China's imperial dynasties are gold, silver, jewels, carved jade, inlaid bronzes, a burial suit of jade tiles linked with gold thread and a spectacular gem-laden crown, according to Sarah Sweetwater, chairman of Great Basin's art department.

"Visiting this exhibit is comparable to visiting 21 different museums and cultural centers in nine different provinces," said Sweetwater, who visited a similar exhibit in San Francisco last year before traveling to Xi'an to see the excavation of Terra Cotta soldiers and horses.

"This is an opportunity to learn about the oldest continuous civilization on earth. The worlds they created underground to become their home in the afterlife sometimes surpassed their sumptuous palaces in their real life."

Sweetwater will be giving a pre-trip lecture and slide program Jan. 15 at Great Basin College.

The tour group will leave at 4 p.m. Jan. 19 and return by 10 p.m. Jan. 20, Sweetwater said. In addition to registering for two or three credits in Art 115, the fee for the trip is \$138 per person based on double occupancy. The fee includes round-trip fare on a chartered bus, portage, one night at the Embassy Suites with breakfast and the entrance fee to the exhibit. Singles, triples and quad rates range from \$110 to \$192.

Participants must register by Jan. 5 at the college, located at 1500 College Parkway. Visits to the Phillips Gallery, Salt Lake Art Center and other attractions will also be available.

"The Phantom of the Opera," featuring the original London cast, will be the highlight of a second tour March 30-31 to Salt Lake City.

Based on the classic novel by Gaston Leroux, the musical tells the story of the hideously deformed Phantom that lurks beneath the stage of the Paris Opera, exercising a reign of terror over all its occupants. He falls instantly in love with the young

soprano Christine, devoting himself to creating a new star for the Opera by nurturing her extraordinary talents and employing all the skills at his disposal. The show has broken box office records.

Turn of the century opulence will greet the group in the newly renovated Capitol Theatre, Sweetwater said. Andrew Lloyd Webber's international award-winning musical will be directed by Harold Prince.

"By sheer determination and a bit of luck, I was able to obtain a section of tickets in the top range of \$71.50," Sweetwater said. Tickets are limited so early registration is recommended.

The cost of the opera trip is \$199 per person based on double occupancy, and includes a charter bus, one night at the Embassy Suites with breakfast, portage and top range of tickets to "Phantom." Singles, triples

and quads are available for \$175 to \$253.

Tickets for the matinee performance are in groups of twos, fours, sixes and eights.

Sweetwater said tickets are available only to those registered for the class and traveling with the charter group. The fee for the art appreciation course is \$77 for two credits or \$115.50 for three credits. She said those planning to take both tours need to register only once for the art appreciation course, but should specify they plan to take both tours at the time of registration.

A \$25 deposit will hold a space on either one of the tours. Those interested may make their checks payable to Castle Inc., 136 S. Main 722, Salt Lake City 89101. Those interested may also call Sweetwater at 753-2228 or 738-5770.

Announce in your Classes!

Donation: Dale and Audrey White, owners of Dale White Motors, pictured at right with their 20-month old grandson, Anthony, recently donated \$5,000 to Great Basin College's new Child and Family Center. The children at the center showed their appreciation by painting a colorful poster for the Whites. The 5,000 square-foot facility, scheduled to open in January, includes two classrooms, a family education center, exploration, discovery

center, kitchen and offices. Those interested in the college's programs for children or in donating to the center may call Child Center Director Marilee Harper-Harrison at 753-2225. Harrison said building of the \$600,000 center got off the ground with a \$200,000 donation from Claude Howard, a wealthy Las Vegas contractor who was raised in an orphanage. Pictured with the Whites are, from left, Harrison, pupil Michawn Adkins and preschool teacher Jeanette Moore.
